

notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email to MSHD.Resource@nrc.gov, or by a toll-free call to 1-866-672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket which is available to the public at <http://>

ehd1.nrc.gov/ehd/, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. However, in some instances, a request to intervene will require including information on local residence in order to demonstrate a proximity assertion of interest in the proceeding. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Petitions for leave to intervene must be filed no later than 60 days from the date of publication of this notice. Requests for hearing, petitions for leave to intervene, and motions for leave to file new or amended contentions that are filed after the 60-day deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i)-(iii).

For further details with respect to this amendment request, see the application for amendment dated August 1, 2013, as supplemented by letters dated April 21, 2014, January 29, 2015, and June 12, 2015, which are available for public inspection at the NRC's PDR, located at One White Flint North, Room O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. Publicly-available documents created or received at the NRC are accessible electronically through ADAMS in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. [Docket Nos. 50-271 and 50-305; NRC-2015-0200]

Vermont Yankee Nuclear Power Station; Kewaunee Power Station

AGENCY: Nuclear Regulatory Commission.

ACTION: 10 CFR 2.206 request; receipt.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is giving notice that by petition dated March 25, 2014 [sic], Mike Mulligan (the petitioner) has requested that the NRC take action with regard to the Vermont Yankee Nuclear Power Station (VY) and the Kewaunee Power Station (KPS), which have been permanently shut down and are currently undergoing decommissioning. The petitioner's requests are included in the **SUPPLEMENTARY INFORMATION** section of this document.

SUPPLEMENTARY INFORMATION: On March 25, 2014 [sic], the petitioner requested that the NRC take action with regard to VY and KPS (ADAMS Accession No. ML15090A487). On July 7, 2015, the petitioner provided supplemental information via email (ADAMS Accession No. ML15198A091). The petitioner requested a number of actions including:

- Conduct exigent and immediate full-scale ultrasonic inspections on the VY and the KPS reactor pressure vessels (RPVs), with similar or better technology, as conducted on the RPVs at Doel 3 and Tihange 2, which revealed thousands of cracks;
- Take large borehole samples out of both the Vermont Yankee and Kewaunee RPVs and transport them to a respected metallurgic laboratory for comprehensive offsite testing;
- Issue an immediate NRC report and hold a public meeting on any identified vulnerabilities; and
- Ultrasonically test all RPVs in U.S. plants within 6 months, if distressed and unsafe results are discovered at VY or KPS.

As the basis for this request, the petitioner states that the requested actions should be taken to determine whether foreign operating experience—specifically several thousand cracks that have been discovered during testing on the Doel 3 and Tihange 2 RPVs—could have implications on U.S. operating reactors.

The request is being treated pursuant to section 2.206, “Requests for action under this subpart,” of Title 10 of the *Code of Federal Regulations* (10 CFR) of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation.

The petitioner met with the Petition Review Board on May 19, 2015, to discuss the petition; the transcript of that meeting is an additional supplement to the petition (ADAMS Accession No. ML15181A127). The results of that discussion and the July 7, 2015, supplemental email were considered in the board's determination

regarding the petitioner's request for immediate action and in establishing the schedule for the review of the petition.

The NRC has denied the petitioner's request to conduct immediate ultrasonic inspections at VY and KPS because of the following reasons. Both the identified facilities have ceased operations and would not be subject to an enforcement-related action (*i.e.*, to modify, suspend, or revoke the license). In addition, the NRC issued Information Notice (IN) 2013-19, “Quasi-Laminar Indications in Reactor Pressure Vessel Forgings,” on September 22, 2013 (ADAMS Accession No. ML13242A263). The purpose of this IN was to inform industry of the quasi-laminar indications that were identified in 2012, at two European commercial nuclear power plants. These indications were identified during the ultrasonic inspections that were performed on the RPV forgings.

As provided by 10 CFR 2.206, appropriate action will be taken on the remaining requests within a reasonable time.

Dated at Rockville, Maryland, this 20th day of August 2015.

For the Nuclear Regulatory Commission.

Michele G. Evans,

Acting Director, Office of Nuclear Reactor Regulation.
