351.222(g)(1), we find that the petitioner's affirmative statements of no interest constitutes good cause to conduct this review and we find that revocation of the order is appropriate for these preliminary results. Additionally, our decision to expedite this review by combining the notice of initiation and the preliminary results in a single notice pursuant to 19 CFR 351.221(c)(3)(ii) stems from the domestic industry's lack of interest in applying the *Netherlands Order.* If the final results of this changed circumstances review result in the revocation of this order, the Department intends that such revocation will be effective the first day of the most recent period not subject to administrative review, which is currently July 1, 2014.

SUPPLEMENTARY INFORMATION:

I. Abstract

As part of its national service delivery system, MBDA awards cooperative agreements each year to fund the provision of business development services to eligible minority business enterprises (MBEs). The recipient of each cooperative agreement is competitively selected to operate one of the MBDA's Business Center programs. In accordance with the Government Performance Results Act (GPRA), MBDA requires all center operators to report basic client information, service activities and progress on attainment of program goals via the Online CRM/ Performance database. The data inputs into the CRM/Performance database originate from the client intake forms used by each center to collect information from each minority business enterprise that receives technical business assistance from the center. This data provides the baseline from which the CRM/Performance database is populated. The Online CRM/ Performance Database is used to regularly monitor and evaluate the progress of the MBDA funded centers, to provide the Department and OMB with a summary of the quantitative information required to be submitted about government supported programs, and to implement the GPRA. This information is also summarized and included in the MBDA Annual Performance Report, which is made available to the public.

In addition to the information collected from MBEs to provide service and performance reports, the MBDA Center award recipients are required to list MBEs to conduct business in the United States in the Online Phoenix Database. This listing is used to match those registered MBEs with opportunities entered in the Online Opportunity Database by public and private sector entities. The MBEs may also self-register via the Online Phoenix Database for notification of potential business opportunities.

In 2012, the overall estimate of burden hours decreased for users under the newly adopted program structure as a result of the streamlining of certain administrative and reporting requirements. The MBDA Business Center programs will continue to use the Customer Relationship Management/Performance, Phoenix and Business Opportunity databases until the new program is redesigned during Fiscal Year 2016.

Revision: In Fiscal Year 2015, MBDA has developed a new client intake and customer transaction forms for use in the business center program. The Client Engagement Form also may be used by MBDA and MBDA Business Centers for the purposes of conducting research, studies, and analysis consistent with the MBDA mission as stated in Executive Order 11625. The Client Engagement Form is considered business confidential and will not be shared with any other person or organization outside the U.S. Government unless the MBDA Headquarters is given permission to do so by your company.
