applicant rejected this alternative due to increased potential effects to the covered species and increased risk to project workers.

Our Preliminary Determination

We are requesting comments on our preliminary determination that the applicant’s proposal will have a minor or negligible effect on the covered species and that the plan qualifies as a low-effect HCP as defined by our Habitat Conservation Planning Handbook (November 1996). We base our determinations on three criteria: (1) Implementation of the proposed project as described in the HCP would result in minor or negligible effects on federally listed, proposed, and/or candidate species and their habitats; (2) implementation of the HCP would result in minor or negligible effects on other environmental values or resources; and (3) impacts of the HCP, considered together with those of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant. Based on our analysis of these criteria, we made a preliminary determination that approval of the HCP and issuance of an ITP to Southern California Gas qualify for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 et seq.), as provided by the Department of Interior Manual (43 CFR 46 and 516 DM 8). Based on our review of public comments that we receive in response to this notice, we may revise this preliminary determination.

Next Steps

We will evaluate the permit application, including the HCP and comments we receive, to determine whether the application meets the issuance criteria of section 10(a)(1)(B) of the Act and its implementing regulations (50 CFR 17.22 and 17.32). We also will evaluate whether issuance of the ITP would comply with section 7(a)(2) of the Act by conducting an intra-service consultation consistent with section 7 of the Act. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue an ITP. If the requirements are met, we will issue the ITP to the Applicant for the incidental take of the California tiger salamander and California red-legged frog. We will make the final permit decision no sooner than 30 days after the date of this notice.

Public Comments

You may submit comments on the draft HCP, screening form, and associated documents by any of the methods in ADDRESSES.

Public Availability of Comments

Before including your address, phone number, electronic mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While we can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.) and NEPA regulations (40 CFR 1506.6).

Dated: August 24, 2015.

Stephen P. Henry,
Field Supervisor, Ventura Fish and Wildlife Office, Ventura, California.

Notice of Inventory Completion:

History Colorado, Formerly Colorado Historical Society, Denver, CO

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: History Colorado, formerly Colorado Historical Society, has completed an inventory of human remains, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is no cultural affiliation between the human remains and any present-day Indian tribes or Native Hawaiian organizations. Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to History Colorado. If no additional requestors come forward, transfer of control of the human remains to the Indian tribes or Native Hawaiian organizations stated in this notice may proceed.

DATES: Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to History Colorado at the address in this notice by September 30, 2015.

ADDRESSES: Sheila Goff, NAGPRA Liaison, History Colorado, 1200 Broadway, Denver, CO 80203, telephone (303) 866–4531, email sheila.goff@state.co.us.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of History Colorado, Denver, CO. Seven sets of remains were received from the Montezuma County Coroner. They were recovered from the vicinity of Cortez and Rangely, Colorado.

This notice is published as part of the National Park Service’s administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by History Colorado professional staff in consultation with representatives of the Hopi Tribe of Arizona; Jicarilla Apache Nation, New Mexico; Kewa Pueblo, New Mexico (previously listed as the Pueblo of Santo Domingo); Kiowa Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Navajo Nation, Arizona, New Mexico & Utah; Paiute Indian Tribe of Utah (Cedar Band of Paiutes, Kanosh Band of Paiutes, Koosharem Band of Paiutes, Indian Peaks Band of Paiutes and the Shivwits Band of Paiutes); formerly Paiute Indian Tribe of Utah (Cedar City Band of Paiutes, Kanosh Band of Paiutes, Koosharem Band of Paiutes, Indian Peaks Band of Paiutes, and Shivwits Band of Paiutes); Pueblo of Acoma, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Nambe, New Mexico; Pueblo of Picuris, New Mexico; Pueblo of San Felipe, New Mexico; Pueblo of San Ildefonso, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santa Ana, New Mexico; Pueblo of Santa Clara, New Mexico; Shoshone Tribe of the Wind River Reservation, Wyoming;
Southern Ute Indian Tribe of the Southern Ute Indian Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah; Ysleta del Sur Pueblo of Texas; and Zuni Tribe of the Zuni Reservation, New Mexico. The Apache Tribe of Oklahoma, Crow Creek Sioux Tribe of the Crow Creek Sioux Reservation, South Dakota; Fort Sill Apache Tribe of Oklahoma; Oglala Owingeh, New Mexico (previously listed as the Pueblo of San Juan); Pueblo of Pojoaque, New Mexico; Pueblo of Taos, New Mexico; Pueblo of Tesuque, New Mexico; Pueblo of Zia, New Mexico and Shoshone-Bannock Tribes of the Fort Hall Reservation were invited to consult, but did not participate. Hereafter, all tribes listed above are referred to as “The Consulted and Invited Tribes.”

History and Description of the Remains

Sometime before 1977, human remains representing, at minimum, six individuals were removed from the vicinity of Cortez or Rangely, CO, by private citizens. Their son discovered the remains when settling his parents’ estate and was put in touch with the Montezuma County Coroner, who ruled out a forensic interest in the human remains October 2014. The remains were then transferred to the Office of the State Archaeologist (OSAC), where they are identified as Office of Archaeology and Historic Preservation (OAHP) Case Number 307. Osteological analysis by Nicholas Zell of Metropolitan State University indicates that the human remains are likely of Native American ancestry. No known individuals were identified. No associated funerary objects are present.

Sometime in the 1950s, human remains representing, at minimum, one individual were removed from a farm near Cortez, CO, by a private citizen. His wife discovered them among her late husband’s possessions. In September 2014, she turned them over to the Montezuma County Coroner, who ruled out forensic interest in the human remains. In January 2015, the remains were transferred to the Office of the State Archaeologist (OSAC), where they are identified as Office of Archaeology and Historic Preservation (OAHP) Case Number 308. Osteological analysis by Christiane Baigent of Metropolitan State University indicates that the human remains are likely of Native American ancestry. No known individuals were identified. No associated funerary objects are present.

History Colorado, in partnership with the Colorado Commission of Indian Affairs, Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah, conducted tribal consultations among the tribes with ancestral ties to the State of Colorado to develop the process for disposition of culturally unidentifiable Native American human remains and associated funerary objects originating from inadvertent discoveries on Colorado State and private lands. As a result of the consultation, a process was developed, Process for Consultation, Transfer, and Reburial of Culturally Unidentifiable Native American Human Remains and Associated Funerary Objects Originating From Inadvertent Discoveries on Colorado State and Private Lands, (2008, unpublished, on file with the Colorado Office of Archaeology and Historic Preservation). The tribes consulted are those who have expressed their wishes to be notified of discoveries in the Southwest and Basin and Plateau Consultation Regions as established by the Process, where these individuals originated.

The Native American Graves Protection and Repatriation Review Committee (Review Committee) is responsible for recommending specific actions for disposition of culturally unidentifiable human remains. On November 3–4, 2006, the Process was presented to the Review Committee for consideration. A January 8, 2007, letter on behalf of the Review Committee from the Designated Federal Officer transmitted the proposed tribal authorization to proceed with the Process upon receipt of formal responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma, subject to forthcoming conditions imposed by the Secretary of the Interior. On May 15–16, 2008, the responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma were submitted to the Review Committee. On September 23, 2008, the Assistant Secretary for Fish and Wildlife and Parks, as the designee for the Secretary of the Interior, transmitted the authorization for the disposition of culturally unidentifiable human remains according to the Process and NAGPRA, pending publication of a Notice of Inventory Completion in the Federal Register. This notice fulfills that requirement.

43 CFR 10.11 was promulgated on March 15, 2010, to provide a process for the disposition of culturally unidentifiable Native American human remains recovered from tribal or aboriginal lands as established by the final judgment of the Indian Claims Commission or U.S. Court of Claims, a treaty, Act of Congress, or Executive Order, or other authoritative governmental sources. As there is no evidence indicating that the human remains reported in this notice originated from tribal or aboriginal lands, they are eligible for disposition under the Process.

Determinations Made by History Colorado

Officials of History Colorado have determined that:

• Based on osteological analysis, the human remains are Native American.

• Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of seven individuals of Native American ancestry.

• Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.

• Pursuant to 43 CFR 10.11(c)(2)(ii) and the Process, the disposition of the human remains may be to the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah.

Additional Requestors and Disposition

Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Sheila Goff, NAGPRA Liaison, History Colorado, 1200 Broadway, Denver, CO 80203, telephone (303) 866–4531, email sheila.goff@state.co.us, by September 30, 2015. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah may proceed.

History Colorado is responsible for notifying The Consulted and Invited Tribes that this notice has been published.

Dated: June 29, 2015.

Melanie O’Brien,
Manager, National NAGPRA Program.
