Abstract: Under section 302 of the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (WIOA), the Rehabilitation Services Administration

(RSA) provides Long-Term Training grants to academic institutions to support scholarship assistance to students. Students who receive scholarships under this program are required to work within the public rehabilitation program, such as with a state vocational rehabilitation agency, or an agency or organization that has a service arrangement with a state vocational rehabilitation agency. The student is expected to work two years in such settings for every year of full-time scholarship support. The program regulations at 34 CFR 386.33-386.35 and 386.40-386.43 detail the payback provisions and the RSA scholars' requirements to comply with them.

Section 302(b)(2)(C) of the Act requires the academic institutions (*i.e.*, grantees) that administer Long-Term Training grants to track the employment status and location of former scholars supported under their grants in order to ensure that students are meeting the payback requirement. Program regulations at 34 CFR 386.34 require each grantee to establish and maintain a tracking system on current and former RSA scholars for this purpose and to report to the Secretary information on the scholars' progress toward fulfilling their obligation towards payback in qualified employment in fields which include clinical practice, administration, supervision, teaching or research in vocational rehabilitation, supported employment, or independent living rehabilitation of individuals with disabilities, especially individuals with significant disabilities.

The Annual Payback Report form for which RSA is requesting an extension collects data on the status of "current" and "exited" RSA scholars who are/were the recipients of scholarships. In addition to meeting the requirement that all scholars be tracked, the information collected on the form currently in use will continue to provide performance data relevant to the rehabilitation fields and degrees pursued by RSA scholars, as well as the funds owed and the rehabilitation work completed by them.
