III. Proposed Actions

The Agency is requesting an adjustment decrease of 216,744 burden hours (from 1,460,430 to 1,243,686 burden hours). The decrease in burden hours is due to an estimated overall decrease in the number of covered establishments, based on updated data and estimates. There is also an estimated increase in operation and maintenance costs of $6,849,923, from $60,093,015 to $66,942,938. The increase in operation and maintenance costs is mainly due to the increased cost of lab analysis of samples and the costs is mainly due to the increased cost of lab analysis of samples and the

increase in operation and maintenance costs of $6,849,923, from $60,093,015 to $66,942,938. The increase in operation and maintenance costs is mainly due to the increased cost of lab analysis of samples and the

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350, (TTY (877) 889–5627). Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA cautions commenters about submitting personal information such as their social security number and date of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov Web site to submit comments and access the docket is available at the Web site’s “User Tips” link.

Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.) and Secretary of Labor’s Order No. 1–2012 (77 FR 3912).

Signed at Washington, DC, on August 31, 2015.

David Michaels,
Assistant Secretary of Labor for Occupational Safety and Health.

[Dated: August 31, 2015]

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 70–754; NRC–2015–0189]

**GE Hitachi Nuclear Energy Americas, LLC, Vallecitos Nuclear Center**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License renewal application; receipt, opportunity to request a hearing and to petition for leave to intervene; order.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has received a revised license renewal application from GE Hitachi Nuclear Energy Americas, LLC (GEH), requesting renewal of Special Nuclear Material License No. SNM–960 for the Vallecitos Nuclear Center. This license authorizes GEH to conduct laboratory analysis and engineering studies of licensed material and to store onsite material previously used in analysis. The request, if granted, would authorize GEH to continue licensed activities at the Vallecitos Nuclear Center for 10 years.

**DATES:** Requests for a hearing or petition for leave to intervene must be filed by November 2, 2015. Any potential party as defined in § 2.1 of Title 10 of the Code of Federal Regulations (10 CFR) who believes access to Sensitive Unclassified Non-Safeguards Information (SUNSI) is necessary to respond to this notice must request document access by September 14, 2015.

**ADDRESSES:** Please refer to Docket ID NRC–2015–0189 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2015–0189. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it available in ADAMS) is provided in a table in the “Availability of Documents” section of this document.

- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:**

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

By letter dated March 18, 2015 (ADAMS Accession No. ML15077A495), GEH submitted to the NRC a revised license renewal application for the Vallecitos Nuclear Center, located near Sunol, California. Special Nuclear Material License No. SNM–960 authorizes GEH to conduct laboratory analysis and engineering studies of licensed material and to store onsite material previously used in analysis. The request, if granted, would authorize GEH to continue licensed activities at the Vallecitos Nuclear Center for 10 years.

The current license expired on June 30, 2010. Because GEH filed an original renewal application on September 30, 2009, and subsequent revisions, the license is under timely renewal as provided in 10 CFR 2.109(a). The revised license renewal application submitted on March 18, 2015, supersedes previous license renewal applications submitted to the NRC.

An NRC administrative review, documented in a letter to GEH dated May 1, 2015 (ADAMS Accession No. ML15077A406), found the March 18, 2015, renewal application acceptable to begin a formal technical review. If the NRC approves the request, the approval will be documented in NRC License No. SNM–960. However, before approving the request, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC’s regulations. These findings will be documented in a Safety Evaluation Report. Because the licensed material will be used in research and development, renewal of SNM–960 is an action that is categorically excluded from the requirement to prepare an environmental assessment pursuant to 10 CFR 51.22(c)(14)(v).

**II. Opportunity To Request a Hearing and Petition for Leave To Intervene**

Within 60 days after the date of publication of this notice, any person(s) whose interest may be affected by this action may file a request for a hearing and a petition to intervene with respect to the revised license renewal application. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the NRC’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested person(s) should consult a current copy of 10 CFR 2.309, which is available at the NRC’s PDR, located in One White Flint North, Room O1–F21 (first floor), 11555 Rockville Pike, Rockville, Maryland 20852. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s Web site at http://www.nrc.gov/reading-rm/doc-collections/cfr/. If a request for a hearing or petition for leave to intervene is filed within 60 days, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition. The Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order. As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted.
