Coast Guard

33 CFR Part 117
[Docket Number USCG–2015–0837]

Drawbridge Operation Regulation; Illinois Waterway, Beardstown, IL

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Burlington Northern Santa Fe Railroad Bridge across the Illinois Waterway, mile 88.8, at Beardstown, Illinois. The deviation is necessary to allow signal upgrades to be installed which can only be done when the bridge is in the closed-to-navigation position. The deviation allows the bridge to be in the closed-to-navigation position for 4 hours.

DATES: This deviation is effective from noon to 4 p.m., September 24, 2015, when the draw span will remain in the closed-to-navigation position. During this time signal upgrades will be installed. The draw span will not be returned to its fully open position until the upgrades are completed. Vessels will not be allowed to pass while the signal upgrade is in progress. The bridge can open in case of emergency.

Navigation at the site of the bridge consists mainly of commercial vessels. Based on known waterway users, as well as coordination with those waterway users, it has been determined that this closure will not have a significant effect on these vessels. No alternate routes are available.

The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: August 31, 2015.
