SUPPLEMENTARY INFORMATION:

Title of Collection: Web-Based Quantitative Testing of Point of Sale/ATM (POS/ATM) Overdraft Disclosure Forms.

OMB Control Number: 3170–XXXX.

Type of Review: New Collection (Request for a new OMB control number).

Affected Public: Individuals or Households.

Estimated Number of Respondents: 41,351.

Estimated Total Annual Burden Hours: 2,827.

Abstract: The CFPB seeks approval from the Office of Management and Budget (“OMB”) to conduct a national web survey of 8,000 individuals as part of its study of ATM/debit card overdraft disclosure forms, which is being undertaken under the CFPB’s regulatory authority for the Electronic Fund Transfer Act.

The survey will explore consumer comprehension and decision-making in response to revised overdraft disclosure forms. It will also explore financial product usage, behavioral traits, and other consumer characteristics that may interact with a consumer’s experiences with overdraft programs and related disclosure forms. The survey will include a representative sample of the U.S. adult checking account-holding population, with oversampling of respondents who are more likely to have experience with overdraft fees.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the CFPB, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Pentagon Force Protection Agency announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.
