#### Abstract of Proposed Collection

The Department's student internship programs provide a key source of potential candidates who have an interest in, and are competitive, to become future Department employees. Naturally, HR/REE wants to strengthen and maintain its connections to this group, fostering and mentoring a pool of candidates from which to obtain successful recruits.

In June 2008, HR/REE surveyed over 3,500 former interns who served from 2005 through spring 2008. The intern alumni were queried as to their motivation in seeking an internship, whether or not they had pursued a career with either the Foreign Service or Civil Service, and what their recommendations would be for the best ways for the Department to maintain contact after the conclusion of their internships. Intern alumni endorse continued contact with Department representatives mainly through electronic means and Web site reminders of career opportunities.

In an effort to address these findings and provide viable solutions to improving student engagement prior to, during and following an internship, the Department developed an intern engagement strategy that will

potentially result in a measurable conversion of interns into Department hires for the Foreign or Civil Service. The foundation of this strategy is INTERNational Connections, a Web-based career networking site for current and former interns as well as Department employees that collects pertinent information about them, their experiences and their career goals.

#### Methodology

Users register online at <https://internconnect.careers.state.gov> and create a profile that includes: Full name, program status, names of colleges you've attended, major/minor, where you're from, current post, year graduated, career goals and interests, personal interests, twitter handle, career path, bureau, job title, professional experience and languages you can speak. The sources of information are current and former interns, as well as Department employees.
