Total Annual Burden: 26 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

There is no need for confidentiality with this collection of information.

Needs and Uses: On June 3, 2015, the Commission released a Report and Order, MB Docket No. 15–53; FCC 15–62. The Report and Order adopted a rebuttable presumption that cable operators are subject to competing provider effective competition.

The information collection requirements consist of:

FCC Form 328. Pursuant to section 76.910, a franchising authority must be certified by the Commission to regulate the basic service tier and associated equipment of a cable system within its jurisdiction. To obtain this certification, the franchising authority must prepare and submit FCC Form 328. The Report and Order revises section 76.910 to require a franchising authority filing Form 328 to submit specific evidence demonstrating its rebuttal of the presumption in section 76.906 that the cable system is subject to competing provider effective competition pursuant to section 76.905(b)(2). The franchising authority bears the burden of submitting evidence rebutting the presumption that competing provider effective competition, as defined in section 76.905(b)(2), exists in the franchise area. Unless a franchising authority has actual knowledge to the contrary, it may rely on the presumption in section 76.906 that the cable system is not subject to one of the other three types of effective competition.

Evidence establishing lack of effective competition. If the evidence establishing the lack of effective competition is not otherwise available, section 76.910(b)(4) provides that franchising authorities may request from a multichannel video programming distributor (“MVPD”) information regarding the MVPD’s reach and number of subscribers. An MVPD must respond to such request within 15 days. Such responses may be limited to numerical totals.

Franchising authority’s obligations if certified. Section 76.910(e) of the Commission’s rules currently provides that, unless the Commission notifies the franchising authority otherwise, the certification will become effective 30

days after the date filed, provided, however, that the franchising authority may not regulate the rates of a cable system unless it: (1) Adopts regulations (i) consistent with the Commission’s regulations governing the basic tier and (ii) providing a reasonable opportunity for consideration of the views of interested parties, within 120 days of the effective date of the certification; and (2) notifies the cable operator that the franchising authority has been certified and has adopted the required regulations.

Needs and Uses: On June 3, 2015, the Commission released a Report and Order, MB Docket No. 15–53; FCC 15–62. The Report and Order adopted a rebuttable presumption that cable operators are subject to competing provider effective competition. Reversing the previous rebuttable presumption of no effective competition and adopting the procedures discussed in the Report and Order will result in changes to the information collection burdens.

The information collection requirements consist of: Petitions for reconsideration of certification, oppositions and replies thereto, cable operator requests to competitors for information regarding the competitor’s reach and number of subscribers if evidence establishing effective competition is not otherwise available, and the competitors supplying this information.

Fisheries of the Exclusive Economic Zone Off Alaska; Dusky Rockfish in the Western Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for dusky rockfish in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2015 total allowable catch of dusky rockfish in the Western Regulatory Area of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), September 3, 2015, through 2400 hours, A.l.t., December 31, 2015.

FOR FURTHER INFORMATION CONTACT:

Obren Davis, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2015 total allowable catch (TAC) of dusky rockfish in the Western Regulatory Area of the GOA is 296 metric tons (mt) as established by the final 2015 and 2016 harvest specifications for groundfish of the Gulf of Alaska (80 FR 10250, February 25, 2015).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2015 TAC of dusky rockfish in the Western Regulatory Area

of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 50 mt, and is setting aside the remaining 246 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for dusky rockfish in the Western Regulatory Area of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of directed fishing for dusky rockfish in the Western Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 2, 2015.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 3, 2015.

In accordance with § 679.20(d)(1)(i) and (ii)(B), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2015 TAC of Pacific ocean perch in the Western Regulatory Area of the GOA will be taken as incidental catch in directed fisheries for other species. Therefore, the Regional Administrator is establishing a directed fishing allowance of 102 mt, and is setting aside 2,200 mt as bycatch to support other
