BILLING CODE 4162–20–P

DEPARTMENT OF HOMELAND SECURITY**U.S. Customs and Border Protection****Automated Commercial Environment (ACE) Export Manifest for Rail Cargo Test**

AGENCY: U.S. Customs and Border Protection, DHS.

ACTION: General notice.

SUMMARY: This document announces that U.S. Customs and Border Protection (CBP) plans to conduct the Automated Commercial Environment (ACE) Export Manifest for Rail Cargo Test, a National Customs Automation Program (NCAP) test concerning ACE export manifest capability. The ACE Export Manifest for Rail Cargo Test is a voluntary test in which participants agree to submit export manifest data electronically at least 2 hours prior to loading of the cargo onto the rail car in preparation for departure from the United States or, for empty rail cars, upon assembly of the train. CBP regulations do not require carriers to submit a manifest for export rail shipments. This notice provides a description of the test, sets forth eligibility requirements for participation, and invites public comment on any aspect of the test.

DATES: The test will begin no earlier than October 9, 2015 and will run for approximately two years. CBP is accepting applications for participation in this planned test until CBP has received applications from nine parties that meet all test participant requirements. Comments concerning this notice and all aspects of the announced test may be submitted at any time during the test period.

ADDRESSES: Applications to participate in the ACE Export Manifest for Rail Cargo Test must be submitted via email to CBP Rail Export Manifest at cbprailexportmanifest@cbp.dhs.gov. In the subject line of the email, please use “ACE Export Manifest for Rail Cargo Test Application”. Written comments concerning program, policy, and technical issues may also be submitted via email to CBP Rail Export Manifest at cbprailexportmanifest@cbp.dhs.gov. In the subject line of the email, please use “Comment on ACE Export Manifest for Rail Cargo Test”.

FOR FURTHER INFORMATION CONTACT: Vincent C. Huang, Cargo and Conveyance Security, Office of Field Operations, U.S. Customs & Border Protection, via email at cbprailexportmanifest@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background*The National Customs Automation Program*

The National Customs Automation Program (NCAP) was established in Subtitle B of Title VI—Customs Modernization, in the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057, Dec. 8, 1993) (Customs Modernization Act) (19 U.S.C. 1411–14). Through NCAP, the initial thrust of customs modernization was on trade compliance and the development of the Automated Commercial Environment (ACE), the planned successor to the Automated Commercial System (ACS). ACE is an automated and electronic system for commercial trade processing which is intended to streamline business processes, facilitate growth in trade, ensure cargo security, and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for CBP and all of its communities of interest. The ability to meet these objectives depends on successfully modernizing CBP's business functions and the information technology that supports those functions. CBP's modernization efforts are accomplished through phased releases of ACE component functionality designed to replace a specific legacy ACS or paper function, or to create a new function. Each release begins with a test and ends with mandatory use of the new ACE feature, thus retiring the legacy ACS or paper function as applicable. Each release builds on previous releases and sets the foundation for subsequent releases.

Authorization for the Test

The Customs Modernization Act provides the Commissioner of CBP with the authority to conduct limited test programs or procedures designed to evaluate planned components of the NCAP. The test described in this notice is authorized pursuant to the Customs Modernization Act and section 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)) which provides for the testing of NCAP programs or procedures. As provided in 19 CFR 101.9(b), for purposes of conducting an NCAP test, the Commissioner of CBP may impose requirements different from those specified in the CBP regulations.

International Trade Data System (ITDS)

This test is also in furtherance of the International Trade Data System (ITDS) key initiatives, set forth in section 405 of the Security and Accountability for Every Port Act of 2006 (Pub. L. 109–347,
