

Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal.

Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subjected to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of March 3, 2014 (79 FR 11879), we published a proposed rule that would amend our

labeling regulations for conventional foods and dietary supplements to provide updated nutrition information. More recently, in the **Federal Register** of July 27, 2015 (80 FR 44302), we reopened the comment period through September 25, 2015, for the proposed rule for the sole purpose of inviting public comments on two consumer studies being added to the administrative record. The consumer studies pertained to proposed changes to the Nutrition Facts label formats. We also issued a supplemental proposed rule (80 FR 44303) with a comment period through October 13, 2015. The supplemental proposal included two additional consumer studies pertaining to the declaration of added sugars and alternative footnote statements. We proposed text for the footnotes to be used on the Nutrition Facts label, after completing our consumer research in which we tested various footnote text options for the label, and to establish a Daily Reference Value of 10 percent of total energy intake from added sugars. The supplemental proposal also would require the declaration of the percent Daily Value for added sugars on the label and provide an additional rationale for the declaration of added sugars on the label. We explained that we were taking these actions based, in part, on the science underlying a new report released by the 2015 Dietary Guidelines Advisory Committee.

We have received some comments suggesting we are not eliciting comment on the consumer studies in the supplemental proposal published in July 2015. We clarify in this notice that: (1) The consumer studies on the added sugars declaration and the alternative footnote statements in the supplemental proposal relate to topics on which we sought comment and (2) the consumer studies on the format published in a separate notice in July 2015 were included for comment, and were placed in the docket at that time. We are now responding to additional requests for the raw data for each of these consumer studies that are relevant to the summary memoranda for the studies, also now available for comment.

II. Updated Information

We are updating the docket for the rulemaking with two additional documents: A request from the Grocery Manufacturers Association for the raw data associated with the four consumer studies described in this document, and our response to that request indicating that we will provide the raw data underlying the four consumer studies to anyone who submits a request to ConsumerStudiesBranch@fda.hhs.gov.

These documents may be seen by interested persons at the Division of Dockets Management, Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, between 9 a.m. and 4 p.m., Monday through Friday, and are available electronically at <http://www.regulations.gov>.

In addition, we are extending to October 13, 2015, the comment period on the two consumer studies pertaining to proposed changes to the Nutrition Facts label formats, which had been scheduled to close on September 25, 2015, to align the comment periods for all consumer studies.

We will continue to take comment on the supplemental proposed rule, including taking comment on the consumer studies on added sugars and the footnote, until October 13, 2015.

Dated: September 3, 2015.

Leslie Kux,

Associate Commissioner for Policy.
