## **BROADCASTING BOARD OF GOVERNORS**

### **Notice of Public Availability of the Broadcasting Board of Governors FY-2013 Service Contract Analysis and FY-2014 Service Contract Inventory**

**AGENCY:** The Broadcasting Board of Governors.

**ACTION:** Notice.

**SUMMARY:** In accordance with Section 743 of Division C of the Consolidated Appropriations Act of 2010 (Pub. L. 111-117), the Broadcasting Board of Governors (BBG) is publishing this notice to instruct the public of the availability of its FY-2013 Service Contract Analysis and FY-2014 Service Contract Inventory. They are available on the BBG Internet site at <http://www.bbg.gov/about-the-agency/research-reports/other/bbg-service-contract-inventory/>. The service contract inventory provides information on service contract actions over \$25,000 made in FY-2014. The information is organized by function to show how contracted resources are distributed throughout the Agency. The inventory has been developed in accordance with guidance on service contract inventories issued on November 5, 2010 and on December 19, 2011 by the Office of Management and Budget, Office of Federal Procurement Policy (OFPP).

## **DEPARTMENT OF COMMERCE**

### **Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* School District Review Program.

*OMB Control Number:* 0607-XXXX.

*Form Number(s):* N/A.

*Type of Request:* Regular Submission.

*Number of Respondents:* 102.

*Average Hours per Response:* 20.

*Burden Hours:* 2040.

*Needs and Uses:* The mission of the Geography Division (GEO) within the U.S. Census Bureau is to plan, coordinate, and administer all geographic and cartographic activities needed to facilitate Census Bureau statistical programs throughout the United States and its territories. GEO manages programs that continuously update features, boundaries, addresses, and geographic entities in the Master Address File/Topologically Integrated Geographic Encoding and Referencing (MAF/TIGER) System. The National Center for Education Statistics (NCES) sponsors the School District Review Program, which enables the Census Bureau to create special tabulations of Decennial Census data by school district geography. The demographic data produced by the Census Bureau for the NCES and related to each school district is of vital importance for each state's allocation under Title I of the

Elementary and Secondary Education Act as amended by the No Child Left Behind Act of 2001. The NCES identifies a Title I Coordinator, and the Census Bureau works with the NCES on assigning a Mapping Coordinator in each state to work with the Census Bureau to implement this work. The respondents for the SDRP are the Title I Coordinators and Mapping Coordinators from the fifty states and the District of Columbia. The SDRP invites respondent participation in two phases of the program: Annotation and Verification. As part of the 2015-2016 SDRP Annotation phase, the Mapping Coordinator in each state will receive a variety of materials from the Census Bureau to use in their review and update of school district boundaries, names, codes and geographic relationships. The Mapping Coordinators will use the Census Bureau's MAF/TIGER Partnership Software (MTPS) and Census supplied spatial data in digital shapefile format to identify boundary changes for their school districts. As part of the Verification phase of the SDRP, Mapping Coordinators will have the opportunity to either use the MTPS with Census Bureau supplied Verification shapefiles, or the Census Crowdsourcing Tool (CCT) to review and verify that the Census Bureau correctly captured their submitted information. If a respondent finds cases where the Census Bureau did not incorporate their proposed submissions correctly, the respondent can tag and comment the area of issue and that information will become available to the Census Bureau for corrections. The Census Bureau conducts the SDRP every two years under agreement from the NCES of the U.S. Department of Education (ED). The Census Bureau invites state education officials to participate in the review and update of its national inventory of school district boundaries and district information. State education officials collaborate with local superintendents on their responses. The participants review and provide updates and corrections to the elementary, secondary, and unified school district names and Federal Local Education Agency (LEA) identification numbers, school district boundaries, and the grade ranges for which a school district is financially responsible. The participants submit updated digital spatial files back to the Census Bureau. The Census Bureau uses the updated school district information along with the most current Census population and income data, current population estimates, and tabulations of

administrative records data, to form the Census Bureau's estimates of the number of children aged five through seventeen in low-income families for each school district. These estimates of the number of children in low-income families residing within each school district are the basis of the funding allocation for each school district under Title I of the Elementary and Secondary Education Act as amended by the No Child Left Behind Act of 2001, Public Law (Pub. L.) 107-110.

**Affected Public:** All fifty states and the District of Columbia.

**Frequency:** Annually.

**Respondent's Obligation:** Voluntary.

**Legal Authority:** Title 13 U.S.C.

Section 16, 141, and 193. Title I, Part A of the Elementary and Secondary Education Act.

This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202) 395-5806.

## DEPARTMENT OF COMMERCE

### Census Bureau

#### Proposed Information Collection; Comment Request; Generic Clearance for the 2020 Census Field Tests

**AGENCY:** U.S. Census Bureau, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** To ensure consideration, written comments must be submitted on or before November 9, 2015.

**ADDRESSES:** Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer,

Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at [jjessup@doc.gov](mailto:jjessup@doc.gov)).

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Erin Love, Census Bureau, HQ-3H468E, Washington, DC 20233; (301) 763-2034 (or via the Internet at [erin.s.love@census.gov](mailto:erin.s.love@census.gov)).

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The U.S. Census Bureau is committed to conducting research towards a 2020 Census that costs less while maintaining high quality results. The Census Bureau plans to request an extension of the current OMB approval to conduct a series of small-scale tests to research and evaluate how the use of automation can improve data collection activities. These tests will explore how the Census Bureau can use automated processes to improve efficiency, data quality, and response rates and reduce respondent burden.

This information collection will operate as a generic clearance. The estimated number of respondents and annual reporting hours requested cover both the known and yet to be determined tests. A generic clearance is needed for these tests because though each share similar methodology, the exact number of tests and the explicit details of each test to be performed has yet to be determined. Once information collection plans are defined, they will be submitted on an individual basis in order to keep OMB informed as these tests progress.

The Census Bureau plans to test the use of mobile computing devices, emails, text messages and applications in self-enumeration and data collection tasks. The enumeration functions research will focus on using various applications to enumerate households and persons. The research and evaluation may include: Developing an automated enumeration questionnaire; inviting respondents to participate; reminding them to participate; usability issues; conducting interviews; and ability to toggle to non-English language instrument. To test enumeration functions, the Census Bureau may conduct the enumeration directly with a household member or knowledgeable respondent. The questions asked in these tasks will be content or experimental content for the 2020 Census operations and forms, along with some attitudinal and satisfaction debriefing questions.

##### II. Method of Collection

The information will be collected through observations, self-response, face-face interviews, and/or telephone interviews.

##### III. Data

**OMB Control Number:** 0607-0971.

**Form Number:** Not yet determined.

**Type of Review:** Regular submission.

**Affected Public:** Individuals or households.

**Estimated Number of Respondents:** 36,000 per year.

**Estimated Time per Response:** 10 minutes.

**Estimated Total Annual Burden Hours:** 6000 hours annually.

**Estimated Total Annual Cost:** There is no cost to the respondent other than time to answer the information request.

**Respondents Obligation:** Mandatory.

**Legal Authority:** Title 13 U.S.C. Sections 141 and 193.

##### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
