DATES: Additional comments may be submitted on or before October 13, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–
HQ–OECA–2014–0031, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564–2970; fax number: (202) 564–0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is (202) 566–1744. For additional information about EPA’s public docket, visit: http://www.epa.gov/dockets.

Abstract: The affected entities are subject to the General Provisions of the NSPS (40 CFR part 60, subpart A) and any changes or additions to the Provisions are specified at 40 CFR part 60, subpart JJJ. Owners or operators of the affected facilities must make an initial notification, performance tests, and maintain records of the initial and repeat performance test.

Form Numbers: None.

Respondents/affected entities: Petroleum dry cleaners.

Respondent’s obligation to respond: Mandatory (40 CFR part 60, subpart JJJ).

Estimated number of respondents: 20 (total).

Frequency of response: Initially.

Total estimated burden: 1,850 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: $186,000 (per year), including $0 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: In addition, we have updated all calculations using the latest labor rates, which results in an adjustment increase in total labor costs.

Courtney Kerwin, Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Publicly Owned Treatment Works (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “NESHAP for Publicly Owned Treatment Works (40 CFR part 63, subpart VVV) (Renewal)” (EPA ICR No. 1891.07,OMB Control No. 2060–0428), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). This is a proposed extension of the ICR, which is currently approved through September 30, 2015. Public comments were previously requested via the Federal Register (79 FR 30117) on May 27, 2014 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 13, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2014–0071, to (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is (202) 566–1744. For additional information about EPA’s public docket, visit: www.epa.gov/dockets.

Abstract: The affected entities are subject to the General Provisions of the NESHAP (40 CFR part 63, subpart A), and any changes or additions to the Provisions are specified at 40 CFR part 63, subpart VVV. Owners or operators of the affected facilities must submit initial notification reports, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities: Owners and operators of publicly owned treatment works.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart VVV).

Estimated number of respondents: 6 (total).

Frequency of response: Initially, occasionally, and semiannually.
Total estimated burden: 17 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: $1,730 (per year), including no annualized capital startup and/or operation & maintenance costs.

Changes in the Estimates: There is an increase in the respondent burden from the most recently approved ICR. This increase is not due to any program changes. EPA revised the burden calculations to assume that all respondents incur a rule familiarization burden annually. Previously, EPA assumed that only new sources would incur this burden. This change resulted in the burden increase in this ICR.

Courtney Kerwin,
Acting-Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

Adequacy Determination for the Cache County PM2.5 Attainment Plan’s Motor Vehicle Emissions Budgets for Transportation Conformity Purposes; State of Utah

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, the Environmental Protection Agency (EPA) is notifying the public that the EPA has found the following adequate for transportation conformity purposes: The Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah State Implementation Plan Section IX. Part A.23 and its motor vehicle emissions budgets (MVEB). As more fully explained in the Supplementary Information section of this notice, this finding will affect future transportation conformity determinations.

DATES: This finding is effective on September 28, 2015.

FOR FURTHER INFORMATION CONTACT: Tim Russ, Air Program, Mailcode 8P–AR, Environmental Protection Agency, Region 8, 1505 Wynkoop Street, Denver, Colorado 80202–1129, telephone number (303) 312–6479, fax number (303) 312–6064, or email russ.tim@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, whenever “we,” “us,” or “our,” are used, we mean the EPA. Whenever “State” is used, we mean the State of Utah.

Transportation conformity is required by section 176(c) of the Clean Air Act (CAA). The conformity rule provisions at 40 CFR 93 require that transportation plans, programs, and projects conform to a State Implementation Plan (SIP) and establish the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the National Ambient Air Quality Standard.

The criteria by which we determine whether a SIP revision’s MVEBs are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4), which was promulgated August 15, 1997 (62 FR 43780). We described our process for determining the adequacy of submitted SIP MVEBs in our July 1, 2004 Transportation Conformity Rule Amendments (69 FR 40004). We used these resources in making our adequacy determinations announced in this notice.

This notice is simply an announcement of findings that we have already made and are as described below:

The Governor submitted the Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah SIP Section IX. Part A.23 to EPA on December 16, 2014. The State prepared the SIP revision submittal to meet the requirements of Part D of Title I of the CAA for PM2.5 attainment plans, subparts 1 and 4 for “moderate” areas. As part of our adequacy review, we posted the Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah SIP Section IX. Part A.23, with its identified MVEBs, for adequacy review on EPA’s transportation conformity Web site on March 23, 2015 (see: http://www.epa.gov/otaq/stateresources/ transconf/currsips.htm). We requested public comments by April 22, 2015. We did not receive any comments. The EPA sent a letter to the Utah Division of Air Quality on June 17, 2015, stating that the submitted Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah SIP Section IX. Part A.23 and its MVEBs were adequate for transportation conformity purposes.

For the Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah SIP Section IX. Part A.23, the MVEBs we found adequate were 0.32 tons per day (tpd) for PM2.5, 4.49 tpd for nitrogen oxides, and 3.23 tpd for volatile organic compounds. Following the effective date listed in the DATES section of this notice, the Cache County Metropolitan Planning Organization, the Utah Department of Transportation, and the U.S. Department of Transportation are required to use these MVEBs for future transportation conformity determinations for projects in the Cache County, Logan, UT–ID PM2.5 nonattainment area.

Please note that our adequacy review of the MVEBs as described above is separate from our future rulemaking action on the Cache County, Logan, UT–ID PM2.5 Attainment Plan, Utah SIP Section IX. Part A.23 revision discussed above and should not be used to prejudge our ultimate approval or disapproval of that SIP revision. Even if we find the Cache County, Logan, UT–ID PM2.5 Attainment Plan and its MVEBs adequate for transportation conformity purposes now, we may later find it necessary to disapprove the SIP revision. Should this situation arise, we would then revisit our adequacy finding.

Authority: 42 U.S.C. 7401 et seq.

Dated: August 26, 2015.

Shaun L. McGrath,
Regional Administrator, Region 8.

FEDERAL MARITIME COMMISSION
[Docket No. 15–08]

General Motors LLC v. Nippon Yusen Kabushiki Kaisa; Wallenius Wilhelmsen Logistics AS; Eukor Car Carriers Inc.

Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed with the Federal Maritime Commission (Commission) by General Motors LLC, hereinafter “Complainant,” against Nippon Yusen Kabushiki Kaisha (“NYK Japan”), Wallenius Wilhelmsen Logistics AS (“WWL Norway”), and EUKOR Car Carriers Inc. (“EUKOR”), hereinafter “Respondents.”

Complainant states it is a Delaware limited liability company and “one of the world’s largest automobile original equipment manufacturers.” Complainant alleges that Respondent NYK Japan is a Japanese company that ships vehicles “into and out of the United States.” Complainant alleges that Respondent WWL Norway is a Norwegian company that provides “Vehicle Carrier Services for shipments to and from the United States.”

Complainant alleges that Respondent NYK Japan is a Japanese company that ships vehicles “into and out of the United States.” Complainant alleges that Respondent WWL Norway is a Norwegian company that provides “Vehicle Carrier Services for shipments to and from the United States.”
