ENVIRONMENTAL PROTECTION AGENCY

[FRL-9934-35-Region 10]

Issuance of NPDES General Permit for Tribal Marine Net Pen Enhancement Facilities in Washington State (Permit Number WAG132000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of final NPDES General Permit.

SUMMARY: The Director, Office of Water and Watersheds, EPA Region 10 is publishing notice of availability of the final National Pollutant Discharge Elimination System (NPDES) General Permit for Tribal Marine Net Pen Enhancement Facilities in Washington State (General Permit). The General Permit authorizes discharges to Waters of the U.S. within the State of Washington. The General Permit contains effluent limitations, along with administrative reporting and monitoring requirements, as well as standard conditions, prohibitions, and management practices.

DATES: The issuance date of the General Permit is September 23, 2015. The effective date of this General Permit will be November 1, 2015. Existing operators

must submit a Notice of Intent (NOI) to discharge no more than 30 days following the effective date of this general permit. New operators must submit NOIs at least 180 days prior to initiation of operations.

ADDRESSES: Copies of the General Permit and Response to Comments are available through written requests submitted to EPA, Region 10, 1200 Sixth Avenue, Suite 900, OWW-191, Seattle, WA 98101. Electronic requests may be sent to: washington.audrey@epa.gov. For requests by phone, call Audrey Washington at (206) 553-0523.

The General Permit, Fact Sheet, and Response to Comments may be found on the Region 10 Web site at <http://yosemite.epa.gov/r10/water.nsf/npdes+permits/general+npdes+permits/>.

FOR FURTHER INFORMATION CONTACT: Catherine Gockel, Office of Water and Watersheds, U.S. Environmental Protection Agency, Region 10, Mail Stop OWW-191, 1200 6th Avenue, Suite 900, Seattle, WA 98101-3140, at (206) 553-0325 or gockel.catherine@epa.gov.

SUPPLEMENTARY INFORMATION:

Endangered Species Act [16 U.S.C. 1531 et al.]: EPA has analyzed the discharges proposed to be authorized by the General Permit, and their potential to adversely affect threatened or endangered species or their designated critical habitat areas in the vicinity of the discharges. Based on this analysis, EPA has determined that the issuance of this permit will have no effect to any threatened or endangered species in the vicinity of the discharge. Therefore, ESA consultation was not required.

National Environmental Policy Act (NEPA) [42 U.S.C. 4321 et seq.] and Other Federal Requirements: Regulations at 40 CFR 122.49 list the federal laws that may apply to the issuance of permits *i.e.*, ESA, National Historic Preservation Act, the Coastal Zone Act Reauthorization Amendments (CZARA), NEPA, and Executive Orders, among others. The NEPA compliance program requires analysis of information regarding potential impacts, development and analysis of options to avoid or minimize impacts, and development and analysis of measures to mitigate adverse impacts. EPA determined that no Environmental Assessments (EAs) or Environmental Impact Statements (EISs) are required under NEPA. EPA also determined that CZARA does not apply.

Essential Fish Habitat (EFH): The Magnuson-Stevens Fishery Management and Conservation Act requires EPA to consult with NOAA-NMFS when a proposed discharge has the potential to

adversely affect a designated EFH. The EFH regulations define an adverse effect as “any impact which reduces quality and/or quantity of EFH . . . [and] may include direct (*e.g.* contamination or physical disruption), indirect (*e.g.* loss of prey, reduction in species’ fecundity), site-specific or habitat-wide impacts, including individual, cumulative, or synergistic consequences of actions.” NMFS may recommend measures for attachment to the federal action to protect EFH; however, such recommendations are advisory, and not prescriptive in nature. EPA has evaluated the General Permit and has made the determination that issuance of the General Permit will have no effect on EFH.

Executive Order 12866: The Office of Management and Budget (OMB) exempts this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

Economic Impact [Executive Order 12291]: The EPA has reviewed the effect of Executive Order 12291 on this General Permit and has determined that it is not a major rule pursuant to that Order.

Paperwork Reduction Act [44 U.S.C. 3501 et seq.]: The EPA has reviewed the requirements imposed on regulated facilities in the General Permit and finds them consistent with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

Regulatory Flexibility Act [5 U.S.C. 601 et seq.]: The Regulatory Flexibility Act (RFA) requires that EPA prepare an initial regulatory flexibility analysis for rules subject to the requirements of the Administrative Procedures Act [APA, 5 U.S.C. 553] that have a significant impact on a substantial number of small entities. However, EPA has concluded that NPDES General Permits are not rulemakings under the APA, and thus not subject to APA rulemaking requirements or the RFA.

Unfunded Mandates Reform Act

Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104-4, generally requires Federal agencies to assess the effects of their regulatory actions (defined to be the same as rules subject to the RFA) on tribal, state, and local governments, and the private sector. However, General NPDES Permits are not rules subject to the requirements of the APA, and are, therefore, not subject to the UMRA.

Appeal of Permit

Any interested person may appeal the General Permit in the Federal Court of Appeals in accordance with section 509(b)(1) of the Clean Water Act, 33

U.S.C. 1369(b)(1). This appeal must be filed within 120 days of the General Permit issuance date. Affected persons may not challenge the conditions of the General Permit in further EPA proceedings (see 40 CFR 124.19). Instead, they may either challenge the General Permit in court or apply for an individual NPDES permit.

Authority: This action is taken under the authority of Section 402 of the Clean Water Act as amended, 42 U.S.C. 1342.

Dated: September 9, 2015.

Daniel D. Opalski,

Director, Office of Water & Watersheds, Region 10.
