

password October22!. The meeting number on October 23 is 997 714 683, password October23!.

The agenda for the meeting includes the following topics:

- Astrophysics Division Update
- Updates on Specific Astrophysics Missions
- Reports from the Program Analysis Groups

Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid picture ID to Security before access to the Goddard Space Flight Center. Due to the Real ID Act, Public Law 109–13, any attendees with driver’s licenses issued from non-compliant states/territories must present a second form of identification: [Federal employee badge; passport; active military identification card; enhanced driver’s license; U.S. Coast Guard Merchant Mariner card; Native American tribal document; school identification accompanied by an item from LIST C (documents that establish employment authorization) from the “List of the Acceptable Documents” on Form I–9]. Non-compliant states/territories are: American Samoa, Arizona, Idaho, Louisiana, Maine, Minnesota, New Hampshire, and New York. Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 working days prior to the meeting: Full name; gender; date/place of birth; citizenship; visa information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee; and home address to Ms. Briana E. Horton, via email at briana.e.horton@nasa.gov or by fax at (301) 286–1714. U.S. citizens and Permanent Residents (green card holders) are requested to submit their name and affiliation 3 working days prior to the meeting to Ms. Briana E. Horton, as noted above. It is imperative that the meeting be held on these dates to the scheduling priorities of the key participants.

Patricia D. Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

**NATIONAL CREDIT UNION
ADMINISTRATION**

**Sunshine Act; Notice of Agency
Meeting**

TIME AND DATE: 6:00 p.m., Thursday, September 24, 2015.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314–3428.

STATUS: Closed.

Pursuant to the provisions of the “Government in Sunshine Act,” notice is hereby given that the NCUA Board unanimously determined that agency business required holding a closed meeting with less than seven days’ notice to the public, and that no earlier notice of the meeting was possible.

MATTERS TO BE CONSIDERED:

1. Consideration of Supervisory Action. Closed pursuant to Exemptions (8), (9) and (9)(ii).

FOR FURTHER INFORMATION CONTACT:

Gerard Poliquin, Secretary of the Board, Telephone: 703–518–6304.

Gerard Poliquin,

Secretary of the Board.

BILLING CODE 7535–01–P

NATIONAL SCIENCE FOUNDATION

**Notice of Permit Modification Received
Under the Antarctic Conservation Act
of 1978**

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Request Received under the Antarctic Conservation Act of 1978, Public Law 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at title 45, part 670 of the Code of Federal Regulations. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 26, 2015. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Li Ling Hamady, ACA Permit Officer, at the above address or ACApermits@nsf.gov or (703) 292–7149.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2015–001) to Dr. Robert Pitman on November 7, 2014. The issued permit allows the applicant to take and import tissue samples from various marine mammal species; tag them with satellite or suction cup tags; take photographs; and salvage dead birds or mammals for research purposes.

Now the applicant proposes a modification to the permit to extend the permit’s duration, which had expired on June 30, 2015, and to include the use of Unmanned Aerial Systems (UASs) for photography, in order to make it consistent with and correspond to their Marine Mammal Protection Act permit (14097–06), which was recently extended and updated to include the aforementioned activity. The applicant would use utilize a remotely operated UAS (Unmanned Aerial System) equipped with a small high resolution camera to fly and take pictures at altitudes of 90–180 ft above the following species: killer whales (≤600 individuals), humpback whales (≤100 individuals), and Antarctic minke whales (≤100 individuals). The applicant wants to collect morphological data on the 4 types of killer whales to assist with taxonomic studies; identify prey species for small type B killer whales; and assess fitness in minke and humpback whales to provide baseline data for assessing the impact of krill fisheries on whale stocks in the Antarctic Peninsula area. The applicant has successfully deployed the equipment array over 200 times in various environments without wildlife disturbance.

Location: Southern Ross Sea, Antarctic Peninsula, and various other location around the continent as opportunities become available via private tour operator.
