j. *Deadline for filing motions to intervene and protests, comments, terms*

and conditions, and recommendations: Due to the small size and location of this project and the close coordination with state and federal agencies during preparation of the application, the 60-day timeframe in 18 CFR 4.34(b) is shortened. Instead, motions to intervene and protests, comments, terms and conditions, and recommendations are due 30 days from the issuance date of this notice. All reply comments must be filed with the Commission within 45 days from the issuance date of this notice.

The Commission strongly encourages electronic filing. Please file motions to intervene, protests, comments, and recommendations using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-13806-004.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Waiver of Pre-filing Consultation:* In its application, the New England Hydropower Company requested that the Commission waive the requirement to conduct second stage consultation pursuant to section 4.38(c) of the Commission's regulations. The applicant provided documentation indicating that the Connecticut Department of Energy and Environmental Protection, National Marine Fisheries Service, and United States Fish and Wildlife Service had agreed to waive second stage consultation on September 10, 2015, August 26, 2015, and August 26, 2015, respectively. Therefore, we are waiving the requirement to conduct second stage consultation pursuant to section 4.38(c) of the regulations and accepting the application.

l. This application has been accepted for filing and is now ready for environmental analysis.

m. *The proposed Hanover Pond Dam Hydroelectric Project would consist of:* (1) An existing 25-foot-high, 150-foot-long earth embankment dam with four low-level sluice gates and a 250-foot-long concrete spillway; (2) an existing 71.0-acre impoundment (*i.e.*, Hanover Pond) with a storage capacity of 1,800 acre-feet at a normal operating elevation of about 87.3 feet National Geodetic Vertical Datum of 1929 (NGVD29); (3) an existing 175-foot-long, 16.0-foot-wide fish ladder; (4) a new 8-foot-high, 12.5-foot-wide hydraulically-powered sluice gate equipped with a new 8-foot-high, 17-foot-wide trashrack with 9-inch bar spacing; (5) a new 78-foot-long, 12-foot-diameter buried precast concrete penstock; (6) a new 46.5-foot-long, 11.65-foot-wide Archimedes screw generator unit, with an installed capacity of 192 kilowatts; (7) a new 12-foot-high, 18-foot-long, 16.0-foot-wide concrete powerhouse containing a new gearbox, generator, and electrical controls; (8) a new 15-foot-long, variable-width concrete tailrace; (9) a new 500-foot-long, 35-kilovolt above-ground transmission line connecting the powerhouse to Connecticut Light and Power's distribution system; and (10) appurtenant facilities. The estimated annual generation of the proposed Hanover Pond Dam Hydroelectric Project would be about 900 megawatt-hours.

n. Due to the applicant's close coordination with federal and state agencies during the preparation of the application, completed studies during pre-filing consultation, and agency recommended preliminary terms and conditions, we intend to waive scoping and expedite the exemption process. Based on a review of the application, resource agency consultation letters including the preliminary 30(c) terms and conditions, and comments filed to date, Commission staff intends to prepare a single environmental assessment (EA). Commission staff determined that the issues that need to be addressed in its EA have been adequately identified during the pre-filing period, which included a public scoping meeting and site visit, and no new issues are likely to be identified through additional scoping. The EA will consider assessing the potential effects of project construction and operation on geology and soils, aquatic, terrestrial, threatened and endangered species, recreation and land use, aesthetic, and cultural and historic resources.
