Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork

Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project—Performance Monitoring for Partnerships for Success (PFS)—NEW

The Substance Abuse and Mental Health Services Administration (SAMHSA)'s Center for Substance Abuse Prevention (CSAP) aims to address two of SAMHSA's top substance abuse prevention priorities: Underage drinking (UAD; age 12 to 20) and prescription drug misuse and abuse (PDM; age 12 to 25) through the Strategic Prevention Framework Partnerships For Success (SPF-PFS) program. The program is scheduled through September 2018 to systematically collect and maintain community sub-recipient information, quarterly progress reports (QPR) and outcomes data submitted by the PFS grantees through the online Program for Evaluation in Prevention Contract (PEP-C) Management Reporting Tool (MRT). This data collection will place a new emphasis on the SPF-PFS impact on outcomes related to Prescription Drug Misuse, including the prevalence of prescription drug misuse and related consequences such as prescription drug poisonings and overdoses. SAMHSA is requesting approval for data collection through the PEP-C MRT using the instruments listed below:

- *Contact Information:* This instrument includes sections for Grantee Information, Grantee Staff, Sub-State Information, Community Subrecipient information, and Subrecipient Staff.
- *QPR:* This instrument will gather data related to implementation of the

SPF-PFS grant based on the SPF steps (Assessment, Capacity, Planning, Implementation, and Evaluation).

- **Outcome Data:** This instrument includes 4 separate sub-instruments that grantees will complete in varying time frames dependent on requirements.

- Grantee Target Outcome Data
- PFS Selected Grantee-Level Outcome Data
- Community-Level Outcome Data for Subrecipients
- Substitute Data Source Request

These SPF-PFS performance monitoring measures will primarily be

tools for SAMHSA project officers to systematically collect data to monitor grant program performance and outcomes along with grantee technical assistance needs. In addition to assessing activities related to and progress through the SPF steps, the performance monitoring instruments covered in this statement collect data to assess the following grantee required specific performance measures:

- Number of training and technical assistance activities per funded community provided by the grantee to support communities;

- Reach of training and technical assistance activities (numbers served) provided by the grantee;

- Percentage of subrecipient communities that submit data to the grantee data system.

The instruments also collect data to provide information for the following PFS required Government Performance and Results Act (GPRA) measure:

- Number of sub-recipient communities that improved on one or more targeted NOMs indicators (Outcome).

ANNUALIZED DATA COLLECTION BURDEN

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information

are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Cross-Site Evaluation of the Minority Substance Abuse/HIV Prevention Program (MAI)—(OMB No. 0930-0298)—Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) is requesting from the Office of Management and Budget (OMB) approval for the revision of data collection activities for the cross-site evaluation of the Minority Substance Abuse/HIV Prevention Program (MAI), which includes both youth and adult questionnaires. This revision includes the inclusion of 4 cohorts, substantial revisions to the youth and adult questionnaires, updates to the data used to estimate response rates and expected numbers of participants by service duration (see Table 1 below), and addition of two brief forms to collect dosage information. The current

approval is under OMB No. 0930-0298, which expires on 2/29/16.

This cross-site evaluation supports two of SAMHSA's 6 Strategic Initiatives: Prevention of Substance Abuse and Mental Illness and Health Care and Health Systems Integration. It builds on evaluations of data collected by ten previous cohorts of grantees funded by SAMHSA's CSAP to provide substance abuse and HIV prevention services for minority populations. The first two cohorts were planning grant programs and the rest were service grant programs. The goals for the Cohort 3-10 grants were to add, increase, or enhance integrated substance abuse (SA) and HIV prevention services by providing supportive services and strengthening linkages between service providers for at-risk minority populations. Cohorts 1-3 previously received clearance under OMB No. 0930-0208 and Cohort 6-10 grants previously received clearance under OMB No. 0930-0298. Since neither the Cohort 4 nor Cohort 5 Programs were cross-site studies, they did not require OMB clearance. The grant period for Cohort 9 and 10 grants will end on 9/30/2015.

The cohorts of grantees funded by the MAI and included in this clearance request are:

- Minority Serving Institutions (MSI) in Partnerships with Community-Based Organizations (CBO): 29 three-year grants funded at the end of FY 2013 (MSI CBO 2013).
