Animal and Plant Health Inspection Service

[Docket No. APHIS-2015-0060]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Pork-Filled Pasta Products

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of pork-filled pasta products into the United States.

DATES: We will consider all comments that we receive on or before December 1, 2015.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0060>.

- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2015-0060, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0060> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be

sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of pork-filled pasta products, contact Dr. Magde S. Elshafie, Staff Veterinarian, National Import Export Services, VS, APHIS, 4700 River Road, Unit 40, Riverdale, MD 20737; (301) 851-3332. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851-2727.

SUPPLEMENTARY INFORMATION:

Title: Importation of Pork-Filled Pasta Products.

OMB Control Number: 0579-0214.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals, animal products, and other articles to prevent the introduction into and dissemination within the United States of animal diseases and pests. To fulfill this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, chapter 1, subchapter D, parts 91 through 99, of the Code of Federal Regulations (CFR).

The regulations in 9 CFR part 94 (referred to below as the regulations) prohibit or restrict the importation of specified animals and animal products into the United States to prevent the introduction into the U.S. livestock population of certain contagious animal diseases, including swine vesicular disease (SVD). Section 94.12 of the regulations contains, among other things, specific processing, recordkeeping, and certification requirements for pork-filled pasta products exported to the United States from regions affected with SVD.

The regulations require, among other things, that the pork-filled pasta products be accompanied by a certificate stating that the product has been handled and processed according to the requirements set forth in the

regulations. This certificate must be issued and signed by an official of the national government of the region in which the pork-filled pasta products were processed.

In addition, the processing facility where the pork-filled pasta products are produced must maintain original records for a minimum of 2 years for each lot of pork or pork products used. The records must include the date the cooked or dry-cured pork product was received in the processing facility, the lot number or other identification marks, the health certificate that accompanied the cooked or dry-cured pork from the slaughter/processing facility to the meat-filled pasta product processing facility, and the date the pork or pork product used in the pasta either started dry-curing (if the product used is a dry-cured ham) or the date the product was cooked (if the product used is a cooked pork product). The records must also include the number of packages, the number of hams or cooked pork products per package, and the weight of each package. These records would provide important information in any traceback investigation that may need to be conducted by officials of the region of origin of the pork-filled pasta product or by officials of the USDA.

The information collection activities of a certificate and recordkeeping were approved by the Office of Management and Budget (OMB) under control number 0579-0214. However, when comparing the regulations with the information collection activities, we found that cooperative service agreement and signage were omitted from previous information collections. The operator of a foreign processing establishment must enter into a cooperative service agreement with APHIS stating that: (1) The establishment agrees to process pork in accordance with the regulations; (2) the establishment will allow APHIS representatives unannounced entry into the establishment to inspect the facility, operations, and records of the establishment; and (3) the establishment will pay for the costs of the associated inspections and be current on the payments. Also, any storage room area reserved for pork or pork products eligible for export to the United States must, among other things, be marked by signs. These additions have increased the estimated annual number of

responses from 3 to 5 and the estimated total annual burden on respondents from 3 hours to 5 hours.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Officials of the national government of the region in which the pork-filled pasta is processed and operators of pork filled pasta product processing facilities.

Estimated annual number of respondents: 2.

Estimated annual number of responses per respondent: 2.5.

Estimated annual number of responses: 5.

Estimated total annual burden on respondents: 5 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28th day of September 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS-2015-0063]

International Trade Data System Test Concerning the Electronic Submission to the Automated Commercial Environment of Data Using the Partner Government Agency Message Set

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: The Animal and Plant Health Inspection Service (APHIS), in coordination with U.S. Customs and Border Protection (CBP), has developed a pilot plan to test and assess the International Trade Data System for the electronic submission of data required by APHIS Animal Care, Biotechnology and Regulatory Services, Plant Protection and Quarantine, and Veterinary Services for processing in the Automated Commercial Environment (ACE). The pilot test will use the APHIS Partner Government Agency (PGA) Message Set and the Automated Broker Interface to transmit, and ACE to process, trade data required for the importation of plants, animals, and their products regulated by APHIS. Under this test, PGA Message Set data may be filed only at certain ports.

DATES: The test will commence no earlier than October 2, 2015, and will continue until concluded by publication of a notice ending the test. Participants should consult the PGA Pilot Rollout Plan, available at <http://www.cbp.gov/document/guidance/list-aceitds-pga-message-set-pilot-ports>, to determine which ports are operational and the date they become operational. Comments will be accepted through the duration of the test.

ADDRESSES: You may submit comments by the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0063>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2015-0063, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

- *Email:* Send your comment to Ms. Josephine Baiamonte, ACE Business Office, Office of International Trade, U.S. Customs and Border Protection, DHS, 1400 L Street, NW., 2nd floor, Washington, DC 20229-1225 at josephine.baiamonte@cbp.dhs.gov. In the subject line of the email, please

indicate, "Comment on PGA Message Set Test FRN."

FOR FURTHER INFORMATION CONTACT: For technical questions related to the Automated Commercial Environment or Automated Broker Interface transmissions, contact your assigned CBP client representative. Interested parties without an assigned client representative should direct their questions to Mr. Steven Zaccaro, U.S. Customs and Border Protection, DHS, 1400 L Street NW., 2nd floor, Washington, DC 20229-1225; steven.j.zaccaro@cbp.dhs.gov.

For PGA-related questions, contact Ms. Emi Wallace, U.S. Customs and Border Protection, DHS, 1400 L Street NW., 2nd floor, Washington, DC 20229-1225; emi.r.wallace@cbp.dhs.gov.

For APHIS Program-related questions, contact Ms. Cindy Walters, APHIS Liaison for Automated Commercial Environment, International Trade Data System, Management and Program Analyst, Quarantine Policy and Analysis Staff, PPQ, APHIS, 4700 River Road Unit 60, Riverdale, MD 20720; 301-851-2273; Cindy.L.Walters@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

I. The National Customs Automation Program

The National Customs Automation Program (NCAP) was established in Subtitle B of Title VI—Customs Modernization, in the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057, 2170, December 8, 1993; see 19 U.S.C. 1411). Through NCAP, the initial thrust of customs modernization was on trade compliance and the development of the Automated Commercial Environment (ACE), the planned successor to the Automated Commercial System (ACS). ACE is an automated and electronic system for commercial trade processing intended to streamline business processes, facilitate growth in trade, ensure cargo security, and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for U.S. Customs and Border Protection (CBP) and all of its communities of interest. The ability to meet these objectives depends on successfully modernizing CBP's business functions and the information technology that supports those functions.

CBP's modernization efforts are accomplished through phased releases of ACE component functionality designed to replace specific legacy ACS functions or test new automated
