

i. *FERC Contact*: Mr. Christopher Chaney, (202) 502-6778, or christopher.chaney@ferc.gov.

j. Deadline for filing comments, motions to intervene, and protests is 30 days from the issuance date of this notice by the Commission. The Commission strongly encourages electronic filing. Please file motions to intervene, protests, or comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Please include the project number (P-2485-070) on any comments, motions to intervene, or protests filed.

k. *Description of Request*: FirstLight is seeking authorization to modify the upper reservoir's upper and lower water surface elevation limits from 1,000.5 feet mean sea level (msl) and 938 feet msl, to 1,004.5 feet msl and 920 feet msl, respectively. FirstLight proposes to use the additional storage capacity annually between December 1 and March 31, beginning December 1, 2015, and continuing until the Commission issues a new license for the project. According to FirstLight, approval of changes in the water surface elevation limits would result in an increase in the maximum daily generation from 8,475 megawatt-hours (MWh) to 10,645 MWh, and provide Independent System Operator-New England with additional resources to address winter reliability needs.

l. *Locations of the Application*: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document (*i.e.* P-2485). You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-

866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to the amendment request. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

Dated: September 29, 2015.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15-132-000]

Kern River Transmission Company; Notice of Availability of the Environmental Assessment for the Proposed Summerlin Pipe Replacement Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Summerlin Pipe Replacement Project, proposed by Kern River Transmission Company (Kern River) in the above-referenced docket. Kern River requests authorization to construct, operate, and maintain a new natural gas pipeline and associated facilities in Clark County, Nevada, and remove a corresponding segment of existing pipeline.

The EA assesses the potential environmental effects of the construction and operation of the Summerlin Pipe Replacement Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Bureau of Land Management (BLM) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The BLM will adopt and use the EA to consider the issuance of a right-of-way grant for the portion of the project on BLM lands.

The proposed Summerlin Pipe Replacement Project includes replacing a 1.56-mile-long segment of its existing 36-inch-diameter A-Line pipeline and expanding an existing 0.22-acre valve and pig launcher yard to 0.37 acre to accommodate a new crossover valve and crossover piping.

The FERC staff mailed CD copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes;

potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding.

In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before October 30, 2015.

For your convenience, there are three methods you can use to file your comments to the Commission. In all instances, please reference the project docket number (CP15-132-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and

Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (*i.e.*, CP15-132). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Dated: September 30, 2015.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF14-17-000]

Louisiana LNG Energy, LLC; Supplemental Notice of Intent To Prepare an Environmental Impact Statement for the Planned Mississippi River LNG Project, and Request for Comments on Environmental Issues Related to Project Changes

On October 3, 2014, the Federal Energy Regulatory Commission (FERC or Commission) issued in Docket No. PF14-17-000 a *Notice of Intent to Prepare an Environmental Impact Statement for the Planned Mississippi River LNG Project and Request for Comments on Environmental Issues* (NOI). Since the NOI was issued Louisiana LNG Energy, LLC (Louisiana LNG) has made project changes. This Supplemental Notice is being issued to seek comments on the project changes and opens a new scoping period for interested parties to file comments on environmental issues specific to these facilities.

The October 3, 2014 NOI announced that the FERC is the lead federal agency responsible for conducting the environmental review of the Mississippi River LNG Project (Project) and that the Commission staff will prepare an environmental impact statement (EIS) that discusses the environmental impacts of the Project. Please refer to the NOI for more information about the overall facilities proposed by Louisiana LNG and FERC staff's EIS process. This EIS will be used in part by the Commission to determine whether the Mississippi River LNG Project is in the public convenience and necessity. On November 17, 2015, Louisiana LNG is planning on having another open house to give the new landowners the opportunity to attend and learn about the Project and the FERC process.

This Supplemental Notice is being sent to the Commission's current environmental mailing list for this Project, including new landowners that would be affected by the project changes. We encourage elected officials and government representatives to notify their constituents about the Project and inform them on how they can comment on their areas of concern. Please note that comments on this Notice should be filed with the Commission by October 30, 2015.

If your property would be affected by the Project, you should have already been contacted by a Louisiana LNG representative. A Louisiana LNG

¹ See the previous discussion on the methods for filing comments.
