modifying the financial as of date from September 30th to December 31st. This revision is effective for the 2016 stress test cycle (with reporting in July 2016).

In addition, the FDIC proposes to clarify the FDIC DFAST 10–50 reporting form instructions to change the submission date from March 31st to July 31st, to change references to the financial “as of” date from September 30th to December 31st, and to update the line items references to the new Call Report Instructions.

Burden Estimates

The FDIC estimates the burden of this collection of information as follows:

Current

Number of Respondents: 22.
Annual Burden per Respondent: 469 hours.
Total Annual Burden: 10,318 hours.

Proposed

Estimated Number of Respondents: 22.
Estimated Annual Burden per Respondent: 469 hours.
Estimated Total Annual Burden: 10,318 hours.

The FDIC does not expect that the changes to the DFAST 10–50 Summary Schedule and reporting form instructions will result in an increase in burden. The burden for each $10 billion to $50 billion covered bank that completes the FDIC DFAST 10–50 Results Template and FDIC DFAST 10–50 Scenario Variables Template is estimated to be 469 hours. The burden to complete the FDIC DFAST 10–50 Results Template is estimated to be 440 hours, including 20 hours to input these data and 420 hours for work related to modeling efforts. The burden to complete the FDIC DFAST 10–50 Scenario Variables Template is estimated to be 29 hours. The total burden for all 22 respondents to complete both templates is estimated to be 10,318 hours.

Comments are invited on all aspects of the proposed changes to the information collection, particularly:
(a) Whether the collection of information is necessary for the proper performance of the functions of the FDIC, including whether the information has practical utility;
(b) The accuracy of the FDIC’s estimate of the burden of the collection of information;
(c) Ways to enhance the quality, utility, and clarity of the information to be collected;
(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology;
(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information; and
(f) The ability of FDIC-supervised banks and savings associations with assets between $10 billion and $50 billion to provide the requested information to the FDIC by July 31, 2016.
