DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Thirty-Sixth Meeting: Special Committee (224) Airport Security Access Control Systems

AGENCY: Federal Aviation Administration (FAA), U.S. Department of Transportation (DOT).

ACTION: Notice of Thirty-Sixth Special Committee 224 Meeting.

SUMMARY: The FAA is issuing this notice to advise the public of the thirty-sixth Special Committee 224 meeting.

DATES: The meeting will be held October 29th from 10:00 a.m.–3:00 p.m.

ADDRESSES: The meeting will be held at RTCA, Inc., 1150 18th Street NW., Suite 450, Washington, DC 20036, or by telephone at (202) 833–9339, fax at (202) 833–9434, or Web site at http://www.rtca.org or Karan Hofmann, Program Director, RTCA, Inc., khofmann@rtca.org, (202) 330–0680.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C., App.), notice is hereby given for a meeting of Special Committee 224. The agenda will include the following:

Thursday, October 29, 2015

1. Welcome/Introductions/
   Administrative Remarks
2. Review/Approve Previous Meeting Summary
3. Report from the TSA
4. Report on Safe Skies on Document Distribution
5. Review of FRAC comments/ worksheet and committee resolution of comments
6. Approve release of DO–230 F to go to PMC
7. Review of Other DO–230G Sections
8. Action Items for Next Meeting
9. Time and Place of Next Meeting
10. Any Other Business
11. Adjourn

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the person listed in the FOR FURTHER INFORMATION CONTACT section. Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on September 30, 2015.
Lataka Robinson,
Management & Program Analyst, Next Generation, Enterprise Support Services Division, Federal Aviation Administration.

Federal Aviation Administration

Aviation Rulemaking Advisory Committee Meeting on Transport Airplane and Engine Issues

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public meeting.

SUMMARY: This notice announces a public meeting of the FAA’s Aviation Rulemaking Advisory Committee (ARAC) Transport Airplane and Engine (TAE) Subcommittee to discuss TAE issues.

DATES: The meeting is scheduled for Wednesday, November 04, 2015, starting at 9:00 a.m. Pacific Standard Time. Arrange for oral presentations by October 16, 2015.

ADDRESSES: FAA-Northwest Mountain Region Office, Conference Room 122, 1601 Lind Ave. SW., Renton, WA 98057.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C. app. III), notice is given of an ARAC meeting to be held November 4, 2015. The agenda for the meeting is as follows:

- Opening Remarks, Review Agenda and Minutes
- FAA Report
- ARAC Report
- Transport Canada Report
- EASA Report
- Engine HWG Report
- Airworthiness Assurance HWG Report
- Flight Test HWG Report
- Materials Flammability WG Report
- Metallic and Composite Structures WG Report
- Crashworthiness and Ditching WG Report
- Any Other Business
- Action Item Review

Participation is open to the public, but will be limited to the availability of teleconference lines.

To participate, please contact the person listed in FOR FURTHER INFORMATION CONTACT by email or phone for the teleconference call-in number and passcode. Please provide the following information: Full legal name, country of citizenship, and name of your industry association, or applicable affiliation. If you are participating as a public citizen, please indicate so.

Participants are responsible for any telephone, data usage or other similar expenses related to this meeting.

The public must make arrangements by October 16, 2015, to present oral or written statements at the meeting. Written statements may be presented to the Subcommittee by providing a copy to the person listed in the FOR FURTHER INFORMATION CONTACT section. Copies of the documents to be presented to the Subcommittee may be made available by contacting the person listed in the FOR FURTHER INFORMATION CONTACT section.

If you need assistance or require a reasonable accommodation for the meeting or meeting documents, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section.

Issued in Washington, DC, on October 2, 2015.
Lirio Liu,
Designated Federal Officer, Aviation Rulemaking Advisory Committee.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Draft Availability Payment Concessions Public-Private Partnership Model Contract Guide

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice; request for comments.

SUMMARY: On July 17, 2014, the President announced the Build America Investment Initiative, a government-wide effort to increase infrastructure investment and economic growth by engaging with state and local governments and private sector investors to encourage collaboration, expand the market for public-private partnerships (P3s) and put Federal credit programs to greater use. As part of that effort, the Presidential Memorandum tasked the U.S.
Department of Transportation (USDOT) to establish the Build America Transportation Investment Center (BATIC), a one-stop-shop for state and local governments, public and private developers and investors seeking to utilize innovative financing and P3s to deliver transportation projects. USDOT has made significant progress in its work to expand access to USDOT credit programs, spread innovation through tools that build capacity across the country, and deliver project-focused technical assistance to help high-impact projects develop plans, navigate Federal programs and requirements, and evaluate and pursue financing opportunities. This includes an effort to provide a range of technical assistance tools to project sponsors, including a series of model contract provisions for popular P3 project types. Development of these tools fulfills a requirement under Moving Ahead for Progress in the 21st Century Act (MAP–21) that FHWA to develop public-private partnership (P3) transaction model contracts for the most popular type of P3s for transportation projects. Based on public input favoring an educational, rather than prescriptive, contract model, FHWA is publishing a series of guides describing terms and conditions typically adopted in P3 concession agreements. The FHWA values public input in the development of the model contract guides, and seeks continuing input. All documents in this series share the same Docket Number (FHWA–2014–0006).

To address the most popular types of P3s, FHWA is producing separate guides to the two most common agreements for concessionaire compensation: user tolls and availability payments (APs). For the purpose of public comment, the Toll Concessions Guide was divided into two parts. The first part, addressing the highest profile (“Core”) provisions, was published in final form on September 10, 2014. The second part (the “Addendum”), addressing additional substantive provisions, was published in draft form on January 16, 2015. As described below, FHWA is deferring publication of the final version of the Addendum in order to obtain public comment on additional material (provided with this announcement) relevant to the concessions guides.

With this notice, FHWA publishes a Draft Availability Payment Concessions P3 Model Contract Guide (“AP Concessions Guide”) so that the general public and interested stakeholders may provide comments. The AP Concessions Guide can be found on the Docket (FHWA–2014–0006) and at the following link: http://www.fhwa.dot.gov/ipd/pdfs/p3/apguide.pdf. This model contract guide has been prepared solely for informational purposes and should not be construed as a statement of DOT or FHWA policy.

In addition, a separate chapter on Labor Best Practices recommended by the U.S. Department of Labor has been added to the Docket and is available at the following link: http://www.fhwa.dot.gov/ipd/pdfs/p3/laborbestpractices.pdf. This chapter discusses labor provisions recommended by the U.S. Department of Labor for all P3 concession agreements, following a collaboration with USDOT, regardless of source of funding (i.e., Federal, State, or private) or form of compensation (i.e., user tolls or APs). The FHWA intends to incorporate this chapter into the final contract guides for both user toll and AP concessions; therefore, FHWA is seeking public comment on this document prior to finalizing the Toll Concession Addendum.

DATES: Comments must be received on or before October 29, 2015. Late comments will be considered to the extent possible.

ADDRESSES: To ensure that you do not duplicate your docket submissions, please submit them by only one of the following means:

• Federal eRulemaking Portal: Go to http://www.regulations.gov and follow the online instructions for submitting comments.

• Federal eRulemaking Portal: Go to http://www.regulations.gov and follow the online instructions for submitting comments.

• Hand Delivery: West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is (202) 366–9329.

• Instructions: You must include the agency name and docket number at the beginning of your comments. All comments received will be posted without change to http://www.regulations.gov, including any personal information provided.

SUPPLEMENTARY INFORMATION:

Electronic Access and Filing
You may submit or retrieve comments online through the Federal eRulemaking portal at: http://www.regulations.gov. The Web site is available 24 hours every day of the year. Electronic submission and retrieval help and guidelines are available under the help section of the Web site.

Background

P3s are contractual arrangements between public and private sector entities that allow for greater participation by the private sector in the delivery of surface transportation projects and associated services. Generally, in addition to designing or building a project, a private partner in a P3 may be involved in financing, operating and maintaining the project. By transferring certain risks and responsibilities to the private partner, P3s can result in more efficient and effective project delivery. However, P3 contracts are more complex and of a much longer duration than traditional construction contracts. Their terms and conditions address many non-traditional requirements, such as financing arrangements and performance during the lengthy concession period. Public agencies need expertise to negotiate P3 concession agreements successfully. Section 1534(d) of MAP–21 (Pub. L. 112–141; 126 Stat. 584) requires the DOT to develop P3 contracts that could serve as a model to States and other public transportation providers in developing their own P3 contracts.

After considering written comments responding to a notice published at 78 FR 1918 on January 9, 2013, as well as those received during a Listening Session on January 16, 2013, FHWA chose to develop the model contracts as informational guides, rather than prescriptive templates, for State and local governments entering into P3 transactions.

About the Availability Payment Concessions P3 Model Contract Guide

The second most common P3 contract uses APs to compensate a concessionaire. In an AP concession, scheduled government appropriations provide periodic payment to the concessionaire during the term of the agreement, which is typically 30 to 40 years. Payments can be adjusted for
non-availability of the facility or for operational non-performance. Many provisions in AP contracts are similar to those in toll revenue contracts.

The AP Concessions Guide focuses on issues critical to achieving public sector objectives and protecting the interest of the taxpaying and traveling public. The Draft AP Concessions Guide focuses on nineteen specific provisions. Unlike the Toll Concessions Guide, which for reasons of public comment was split into separate Core and Addendum sections, the AP Concessions Guide incorporates all provisions into a single document, with the following chapter headings:

1. Introduction
2. Completion Testing and Performance Security
3. Availability Requirements
4. Maintenance and Handback Requirements
5. Payment Mechanism, Performance Monitoring and Financial Model Adjustments
6. Insurance
7. Contract Term and Nature of the Proprietary Interest
8. Supervening Events
9. Change in Law
10. Department and Developer Changes
11. Assignment and Changes in Equity Interests
12. Defaults, Early Termination, and Termination Compensation
13. Indemnities
14. Federal Requirements
15. Amendment to Key Developer Documents
16. Lenders Rights and Direct Agreement
17. Department Step-In
18. Disputes
19. Intellectual Property

The FHWA intends to incorporate the Labor Best Practices chapter into both of its P3 concession guides. Upon conclusion of the public comment process, the final Toll Concessions Guide (combining the Core and Addendum provisions) and the final AP Concessions Guide will be posted on the FHWA Web site at [http://www.fhwa.dot.gov/ipd/pdfs/p3/](http://www.fhwa.dot.gov/ipd/pdfs/p3/).

Federal Railroad Administration

[Docket No. FRA–2010–0048]

Positive Train Control Safety Plan for the Southern California Regional Rail Authority

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**ACTION:** Notice of availability and request for comments.

**SUMMARY:** This document provides the public notice that by a document dated September 19, 2015, the Southern California Regional Rail Authority (SCRRA) submitted to FRA its Positive Train Control Safety Plan (PTCSP) Version 1.7 for approval under the Federal railroad safety regulations in Title 49 Code of Federal Regulations (CFR) Part 236, Subpart I, Positive Train Control Systems. SCRRA asks FRA to approve its PTCSP and to provide PTC System Certification for SCRRA’s implementation of its Interoperable-Electronic Train Management System (I–ETMS). In its PTCSP, SCRRA asserts that its I–ETMS is designed as a vital overlay PTC system in compliance with the PTCSP requirements. The PTCSP describes the SCRRA I–ETMS implementation and the associated I–ETMS safety processes; safety analyses; and test, validation, and verification processes used during development of I–ETMS. The PTCSP also contains SCRRA operational and support requirements and procedures.

**DATES:** FRA will consider communications received by January 6, 2016 before taking final action on the PTCSP. Comments received after that date will be considered as far as practicable.

**ADDRESSES:** All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:
