ENVIRONMENTAL PROTECTION AGENCY

[FRL-9935-20-Region 5]

Notice of Issuance of Part 71 Federal Operating Permit to Great Lakes Transmission Limited Partnership

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that on August 28, 2015, pursuant to title V of the Clean Air Act, the Environmental Protection Agency (EPA) issued a title V permit to operate (title V permit) to Great Lakes Transmission Limited Partnership. This permit authorizes Great Lakes Transmission Limited Partnership to operate a natural gas compressor station at its facility (Facility) in Deer River, Minnesota. The compressor station consists of two stationary natural gas-fired turbines, which in turn drive two natural gas compressors for the Deer River Compressor Station No.4, which is located on the Leech Lake Band of Ojibwe Indian Reservation.

DATES: During the public comment period, which ended June 1, 2015, EPA received comments on the draft title V permit. Therefore, in accordance with 40 CFR 71.11(i)(2), this permit is effective 30 days after service of notice of the decision to issue the permit, October 2, 2015. 40 CFR 71.11(i)(2) provides that the final permit decision

becomes effective 30 days after the service of notice of the decision unless a later effective date is specified, review is requested, or no comments requested a change in the draft permit, in which case the permit becomes effective immediately upon issuance. The exceptions noted above to the 30 days after notice of permit issuance date did not apply in this permitting action. EPA received comments on the draft permit from the Leech Lake Band of Ojibwe and the Minnesota Historical Society State Historic Preservation Office during the public comment period, and changes were made to the final permit.

ADDRESSES: The final signed permit is available for public inspection online at <http://yosemite.epa.gov/r5/r5ard.nsf/Tribal+Permits!OpenView>, or during normal business hours at the following address: EPA, Region 5, 77 West Jackson Boulevard (AR-18)), Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT:

Constantine Blathras, Environmental Engineer, EPA, Region 5, 77 W. Jackson Boulevard (AR-18)), Chicago, Illinois 60604, (312) 886-0671, or blathras.constantine@epa.gov.

SUPPLEMENTARY INFORMATION: This supplemental information is organized as follows:

- A. What is the background information?
- B. What is the purpose of this notice?

A. What Is the background information?

The Deer River Compressor Station No. 4 is owned by Great Lakes Transmission Limited Partnership. Deer River Compressor Station No. 4 consists of two stationary natural gas-fired turbines which, in turn, drive two natural gas compressors. EPA received the permit application on April 25, 2014.

On April 29, 2015, EPA made available for a 30-day public comment a draft Federal title V permit to operate (V-LL-2706100011-14-01) in accordance with the requirements of 40 CFR 71.11(d). This title V permit incorporated all applicable air quality requirements for the Deer River Compressor Station No.4, including the monitoring necessary to ensure compliance with these requirements. EPA received written comments, responded to those comments, finalized the permit and provided copies to the applicant pursuant to 40 CFR 71.11(i).

B. What is the purpose of this notice?

EPA is notifying the public of the issuance of the title V permit to Great Lakes Transmission Limited Partnership on August 28, 2015. Because EPA

received comments on the draft title V permit, it is effective 30 days after notice of permit issuance, October 2, 2015, pursuant to 40 CFR 71.11(i)(2).

Dated: September 25, 2015.

Susan Hedman,

Regional Administrator, Region 5.

Agency Information Collection Activities; Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Health and Safety Data Reporting, Submission of Lists and Copies of Health and Safety Studies

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has submitted the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA): "Health and Safety Data Reporting, Submission of Lists and Copies of Health and Safety Studies" and identified by EPA ICR No. 0575.15 and OMB Control No. 2070-0004. The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized in this document. EPA did not receive any comments in response to the previously provided public review opportunity issued in the **Federal Register** on March 30, 2015 (80 FR 16672). With this submission, EPA is providing an additional 30 days for public review.

DATES: Comments must be received on or before November 9, 2015.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2014-0734, to both EPA and OMB as follows:

- To EPA online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

- To OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Colby Lintner, Environmental Assistance Division (7408M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

ICR status: This ICR is currently scheduled to expire on November 30, 2015. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 8(d) of the Toxic Substances Control Act (TSCA) and 40 CFR part 716 require manufacturers and processors of chemicals to submit lists and copies of health and safety studies relating to the health and/or environmental effects of certain chemical substances and mixtures. In order to comply with the reporting requirements of TSCA section 8(d),

respondents must search their records to identify any health and safety studies in their possession, copy and process relevant studies, list studies that are currently in progress, and submit this information to EPA.

EPA uses this information to construct a complete picture of the known effects of the chemicals in question, leading to determinations by EPA of whether additional testing of the chemicals is required. The information enables EPA to base its testing decisions on the most complete information available and to avoid demands for testing that may be duplicative. EPA will use information obtained via this collection to support its investigation of the risks posed by chemicals and, in particular, to support its decisions on whether to require industry to test chemicals under section 4 of TSCA. This information collection request addresses the reporting requirements found in TSCA section 8(d).

Respondents/Affected Entities: Persons who manufacture, process, or distribute in commerce chemical substances or mixtures, or who propose to do so.

Respondent's obligation to respond: Mandatory. (see 40 CFR part 716).

Estimated total number of potential respondents: 119.

Frequency of response: On occasion.

Estimated total burden: 1,605 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$116,551 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is a net decrease of 6,778 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects in particular EPA's withdrawal of a cadmium reporting rule, the burden for which is included in the currently approved ICR. In addition there was a smaller burden increase resulting from the one-time requirement for respondents to register with EPA's CDX reporting system and to establish electronic signature agreements, plus correcting the estimated number of robust summaries submitted each year. This change is both a program change (in the case of the burden decrease due to the withdrawal of the cadmium rule) and an adjustment (for all other burden changes).

Authority: 44 U.S.C. 3501 *et seq.*

Courtney Kerwin,
Acting Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9935-23-OAR]

Acid Rain Program: Notice of Annual Adjustment Factors for Excess Emissions Penalty

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of annual adjustment factors for excess emissions penalty.

SUMMARY: The Acid Rain Program under title IV of the Clean Air Act provides for automatic excess emissions penalties in dollars per ton of excess emissions for sources that do not meet their annual Acid Rain emissions limitations. This notice states the dollars per ton excess emissions penalty amounts, which must be adjusted for each compliance year commensurate with changes in the Consumer Price Index (CPI), for compliance years 2015 and 2016.

FOR FURTHER INFORMATION CONTACT: Robert L. Miller, Clean Air Markets Division (6204M), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460, at (202) 343-9077 or miller.robertl@epa.gov.

SUPPLEMENTARY INFORMATION: The Acid Rain Program under title IV of the Clean Air Act limits annual sulfur dioxide and nitrogen oxide emissions of fossil fuel-fired utility units. Under the Acid Rain Program, affected sources must hold enough allowances to cover their sulfur dioxide emissions, and certain coal-fired sources must meet an emission limit for nitrogen oxides. Under 40 CFR 77.6, sources that do not meet these requirements must pay a penalty without demand to the Administrator based on the number of excess tons emitted times \$2,000 as adjusted by an annual adjustment factor, which must be published in the **Federal Register**.

The annual adjustment factor for adjusting the penalty for excess emissions of sulfur dioxide and nitrogen oxides under 40 CFR part 77.6(b) for compliance year 2015 is 1.9089. This value is derived using the CPI for 1990 and 2014 (defined respectively at 40 CFR 72.2 as the CPI for August of the year before the specified year for all urban consumers) and results in an automatic penalty of \$3,818 per excess
