CMS-10079 Hospital Wage Index Occupational Mix Survey and Supporting Regulations in 42 CFR, Section 412.64

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing

collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Hospital Wage Index Occupational Mix Survey and Supporting Regulations in 42 CFR, Section 412.64; *Use:* Section 304(c) of Public Law 106-554 amended section 1886(d) (3) (E) of the Social Security Act to require CMS to collect data every three years on the occupational mix of employees for each short-term, acute care hospital participating in the Medicare program, in order to construct an occupational mix adjustment to the wage index, for application beginning October 1, 2004 (the FY 2005 wage index). The purpose of the occupational mix adjustment is to control for the effect of hospitals' employment choices on the wage index. For example, hospitals may choose to employ different combinations of registered nurses, licensed practical nurses, nursing aides, and medical assistants for the purpose of providing nursing care to their patients. The varying labor costs associated with these choices reflect hospital management decisions rather than geographic differences in the costs of labor. The FY 2016 survey will provide for the collection of hospital-specific wages and hours data for calendar year 2016 (that is, payroll periods ending between January 1, 2016 and December 31, 2016). The 2016 Medicare occupational mix survey will be applied beginning with the FY 2019 wage index. *Form Number:* CMS-10079 (OMB control number: 0938-0907); *Frequency:* Yearly; *Affected Public:* Private sector (Business or other for-profits and Not-for-profit institutions), State, Local and Tribal Governments; *Number of Respondents:* 3,400; *Total Annual Responses:* 3,400; *Total Annual Hours:* 1,632,000. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Request for Information From Non-Federal Stakeholders on Progress and Accomplishments (2010–2015) Towards the Goals of the National Vaccine Plan

AGENCY: National Vaccine Program Office, Office of the Assistant Secretary for Health, Office of the Secretary, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The development of a National Vaccine Plan was mandated by Congress as a mechanism for the Director of the National Vaccine Program (the Assistant Secretary for Health) to communicate priorities for achieving the Program’s responsibilities of ensuring adequate supply of and access to vaccines and ensuring the effective and optimal use of vaccines. The National Vaccine Plan, released in 2010, provides a comprehensive 10-year national strategy for enhancing all aspects of the National Vaccine Program including: Research and development, supply, financing, distribution, safety, informed decision making by consumers and health care providers, vaccine preventable disease surveillance, vaccine effectiveness and use monitoring, and global cooperation (http://www.hhs.gov/nvpo/vacc_plan/index.html).

In accordance with the 2010 National Vaccine Plan (NVP), the National Vaccine Program Office (NVPO) is

conducting a mid-course review of the Plan following five years of its implementation. This review is intended to ensure that the priorities and activities outlined in the NVP are appropriately aligned towards the goals described therein given significant changes in the immunization landscape that have occurred since the NVP was released in 2010.

The NVP is intended to be a national plan that includes contributions from both federal and non-federal stakeholders. In order to collect information from non-federal stakeholders in a uniform and systematic way, the NVPO is issuing a Request for Information (RFI) through a structured survey accessed on the NVPO Web site at http://www.hhs.gov/nvpo/vacc_plan/index.html#mid-course-review. The RFI will solicit specific information regarding the priorities, goals, and objectives within the NVP, significant accomplishments since 2010, remaining gaps, and stakeholder perspectives on priorities of the vaccine and immunization community for the remaining years of the NVP (2016–2020). Finally, stakeholders will also be provided the opportunity to briefly inform NVPO of the top contributions from their organization.

DATES: Survey responses on the National Vaccine Plan must be completed and submitted online by midnight, 12:00 a.m. EDT on November 9, 2015.

ADDRESSES: All those interested in participating in the survey to provide information on the National Vaccine Plan should do so by clicking on the survey link provided on the NVPO Web site at http://www.hhs.gov/nvpo/vacc_plan/index.html#mid-course-review.

FOR FURTHER INFORMATION CONTACT: National Vaccine Program Office, Office of the Assistant Secretary for Health, Department of Health and Human Services; telephone (202) 690-5566; email: nvpo@hhs.gov.
