Scope of the Investigation

The merchandise covered by this investigation is circular welded carbon and alloy steel (other than stainless steel) pipe of a kind used for oil or gas pipelines (welded line pipe), not more than 24 inches in nominal outside diameter, regardless of wall thickness, length, surface finish, end finish, or stenciling. Welded line pipe is normally produced to the American Petroleum Institute (API) specification 5L, but can be produced to comparable foreign specifications, to proprietary grades, or can be non-graded material. All pipe meeting the physical description set forth above, including multiple-stenciled pipe with an API or comparable foreign specification line pipe stencil is covered by the scope of this investigation.

The welded line pipe that is subject to this investigation is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.5000, 7305.12.1030, 7305.12.5000, 7305.19.1030, 7305.19.5000, 7306.19.1010, 7306.19.1050, 7306.19.5110, and 7306.19.5150. The subject merchandise may also enter in HTSUS 7305.11.1060 and 7305.12.1060. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Welded Line Pipe From the Republic of Korea: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) determines that welded line pipe from the Republic of Korea (Korea) is being, or is likely to be, sold in the United States at less than fair value (LTFV), as provided in section 733(b) of the Tariff Act of 1930, as amended (the Act). The period of investigation (POI) is October 1, 2013, through September 30, 2014. The final dumping margins of sales at LTFV are listed below in the “Final Determination” section of this notice.

DATES: *Effective Date:* October 13, 2015.

FOR FURTHER INFORMATION CONTACT: David Goldberger or Ross Belliveau, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Ave. NW., Washington, DC 20230; telephone: (202) 482-4136 or (202) 482-4952, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 22, 2015, the Department published the *Preliminary Determination* of sales at LTFV of welded line pipe from Korea.¹ For a history of events following the publication of the *Preliminary Determination*, see the Issues and Decision Memorandum,² which is hereby adopted by this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed Issues and Decision Memorandum and electronic version of the Issues and Decision Memorandum are identical in content.

Scope of the Investigation

The scope of the investigation covers welded line pipe, which is carbon and alloy steel pipe of a kind used for oil and gas pipelines, not more than 24 inches in nominal outside diameter. For a complete description of the scope of the investigation, see Appendix I.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum,³ which is hereby adopted by this notice. A list of the issues raised is attached to this notice as Appendix II.

Verification

As provided in section 782(i) of the Act, during the period June through August 2015, we verified the sales and cost information submitted by HYSCO and SeAH for use in our final determination. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by HYSCO and SeAH.⁴

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made certain changes to the margin calculations for HYSCO and SeAH. For a discussion of these changes, see the “Margin Calculations” section of the Issues and Decision Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted-average of the estimated weighted-average dumping margins

³ See *Id.*

⁴ See Memoranda to the File entitled “Verification of the Cost Response of SeAH Steel Corporation in the Antidumping Duty Investigation of Welded Line Pipe from Korea,” and “Verification of the Cost Response of Hyundai HYSCO Co. Ltd. in the Antidumping Duty Investigation of Welded Line Pipe from South Korea,” dated July 31, 2015; Memorandum to the File entitled “Verification of the Sales Responses of Hyundai HYSCO (HYSCO),” dated August 18, 2015; and Memorandum to the File entitled “Verification of the Sales Responses of SeAH Steel Corporation (SeAH) and Pusan Pipe America (PPA),” dated August 24, 2015.

established for exporters and producers individually investigated excluding any zero or *de minimis* margins, and margins determined entirely under section 776 of the Act. In this investigation, we calculated weighted-average dumping margins for both mandatory respondents that are above *de minimis* and which are not based on section 776 of the Act. However, because there are only two relevant weighted-average dumping margins for this final determination, using a weighted-average of these two rates risks disclosure of business proprietary data. Therefore, the Department assigned a margin to the all-others rate companies based on the simple average of the two mandatory respondents' rates.⁵

Final Determination

The final weighted-average dumping margins are as follows:

Exporter/Manufacturer	Weighted Average dumping margin (percent)
Hyundai HYSKO ⁶	6.19
SeAH Steel Corporation	2.53
All-Others	4.36

Disclosure

We will disclose the calculations performed within five days of the date of any public announcement of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of welded line pipe from Korea, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after May 22, 2015, the date of publication of the preliminary determination of this investigation in the **Federal Register**.

Further, the Department will instruct CBP to require a cash deposit equal to the amount by which normal value exceeds U.S. price as follows: (1) For the mandatory respondents listed above, the cash deposit rate will be equal to the dumping margin which the Department

determined in this final determination adjusted, as appropriate, for export subsidies found in the final determination of the companion countervailing duty investigation;⁷ (2) if the exporter is not a mandatory respondent identified in this investigation, but the producer is, the cash deposit rate will be the rate established for the producer of the subject merchandise; and (3) the cash deposit rates for all other producers or exporters will be 4.36 percent. The suspension of liquidation instructions will remain in effect until further notice.

ITC Notification

In accordance with section 735(d) of the Act, we will notify the ITC of the final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of welded line pipe from Korea no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Orders (APO)

This notice serves as a reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated; October 5, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Department will instruct U.S. Customs and Border Protection (CBP) to liquidate all appropriate entries for TFM without regard to antidumping duties.

Consistent with the Department's assessment practice, for entries of subject merchandise during the POR produced by TFM for which it did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate un-reviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.⁵

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of OBAs from Taiwan entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for TFM will be 0.00 percent, the weighted average dumping margin established in the final results of this administrative review; (2) for other manufacturers and exporters covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 6.19 percent, the all-others rate established in the less than fair value investigation.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.
