

Candidate Activities Record, USAFA Form 147; United States Air Force Academy Request for Secondary School Transcript, USAFA Form 148; Air Force Academy PreCandidate Questionnaire, USAFA Form 149; and Candidate Fitness Assessment, USAFA Form 158; OMB Control Number 0701-0026.

Needs and Uses: The information collection requirement is necessary to determine which candidates have been nominated by their Congress person or Senator; to evaluate background and aptitude for commissioned service; to provide a candidate's participation in athletic and non-athletic extracurricular activities, family and personal background, and academic and school background data by a candidate's high school official. This data collection also includes eligibility by verification of age, U.S. citizenship, law infractions, schooling beyond high school, previous active duty tours, and previous applications to service academies. Without this information it would be difficult to accurately determine a candidate's leadership, academic, physical abilities and if an initial applicant would qualified to enter the candidate phase of the process. Final USAF Academy selections could not be made if reviewing committees are not able to determine whether basic requirements have or have not been met.

Affected Public: Individuals or households, Not-for-profit institutions.

Annual Burden Hours: 117,570.

Number of Respondents: 58,785.

Responses per Respondent: 1.

Annual Responses: 58,785.

Average Burden per Response: 2 hours.

Frequency: On occasion.

Respondents are candidates applying to the Air Force Academy, instructors of candidates, and their high school counselors. Information collection is necessary in order to determine which candidates have been nominated by their Congress person or Senator; to evaluate background and aptitude for commissioned service; to provide a candidate's participation in athletic and non-athletic extracurricular activities, family and personal background, and academic and school background data by a candidate's high school official. This data also includes eligibility by verification of age, U.S. citizenship, law infractions, schooling beyond high school, previous active duty tours, and previous applications to service academies. It is also necessary in order to provide a candidate opportunity to show through English, Math, or other instructors that they can meet Air Force academic performance. This data allows the selection panel to evaluate the

“whole person” concept. Without this information it would be difficult to accurately determine if an initial applicant would be qualified to enter into the candidate phase of the process. It would also be difficult to accurately determine a candidate's leadership abilities, physical stamina, and academic abilities. Final USAF Academy selections could not be made if reviewing committees are not able to determine if basic requirements have or have not been met.

Affected Public: Individuals of households.

Annual Burden Hours: 45,000.

Annual Responses: 45,000.

Average Burden per Response: 60 minutes.

Frequency: On occasion.

Respondents are individuals who are interested in applying to attend one of the five Service academies, the four-year

Reserve Officer Training Corps Scholarship Program, Uniformed Services University of the Health Sciences, or Army, Navy, and Air Force Scholarship and Non-Scholarship Programs.

The completed forms are processed through medical reviewers representing their respective services to determine a medical qualification status. Associated forms may or may not be required depending on the medical information contained in the medical examination. If the medical examination and associated forms, if necessary, are not accomplished, individuals reviewing the medical examination cannot be readily assured of the medical qualifications of the individual. Without this process the individual applying to any of these programs could not have a medical qualification determination. It is essential that individuals have a medical qualification determination to ensure compliance with the physical standards established for each respective military service program.
