

perinatal transmission, whereas transmission via saliva is a common route of exposure for KSHV and EBV. Although MCV is found in the skin and saliva, it is not clear how people are infected. Additional information about the evaluation of these viruses for the RoC is available at <http://ntp.niehs.nih.gov/go/733995>.

### Meeting and Registration

This meeting is open to the public with time set aside for oral public comment. The public may attend the meeting at NIEHS, where attendance is limited only by the space available, or view the webcast. Registration is required to view the webcast; the URL for the webcast will be provided in the email confirming registration. Individuals who plan to provide oral comments (see below) are encouraged to register online at the meeting Web site (<http://ntp.niehs.nih.gov/go/38853>) by December 10, 2015, to facilitate planning for the meeting.

The preliminary agenda and draft monographs should be posted on the NTP Web site (<http://ntp.niehs.nih.gov/go/38853>) by the week of November 2, 2015. Additional information will be posted when available or may be requested in hardcopy, see **FOR FURTHER INFORMATION CONTACT**. Following the meeting, a report of the peer review will be prepared and made available on the NTP Web site. Interested individuals are encouraged to access the meeting Web site to stay abreast of the most current information regarding the meeting.

Visitor and security information is available at <http://www.niehs.nih.gov/about/visiting/index.cfm>. Individuals with disabilities who need accommodation to participate in this event should contact Ms. Robbin Guy at phone: (919) 541-4363 or email: [guyr2@niehs.nih.gov](mailto:guyr2@niehs.nih.gov). TTY users should contact the Federal TTY Relay Service at (800) 877-8339. Requests should be made at least five business days in advance of the event.

### Request for Comments

The NTP invites written and oral public comments on the draft monographs. The deadline for submission of written comments is December 3, 2015, to enable review by the peer-review panel and NTP staff prior to the meeting. Registration to provide oral comments is by December 10, 2015, at <http://ntp.niehs.nih.gov/go/38853>. Public comments and any other correspondence on the draft monographs should be sent to the **FOR FURTHER INFORMATION CONTACT**. Persons submitting written comments should include their name, affiliation (if

applicable), phone, email, and sponsoring organization (if any) with the document. Written comments received in response to this notice will be posted on the meeting Web site, and the submitter identified by name, affiliation, and/or sponsoring organization.

Public comment at this meeting is welcome, with time set aside for the presentation of oral comments on the draft monographs. In addition to in-person oral comments at the meeting at the NIEHS, public comments can be presented by teleconference line. There will be 50 lines for this call; availability will be on a first-come, first-served basis. The lines will be open from 8:30 a.m. until adjournment on December 17, 2015; oral comments will be received only during the formal public comment period indicated on the preliminary agenda. Each organization (sponsoring organization or affiliation) is allowed one time slot. At least 7 minutes will be allotted to each speaker, and if time permits, may be extended to 10 minutes at the discretion of the chair.

Persons wishing to make an oral presentation are asked to register online at <http://ntp.niehs.nih.gov/go/38853> by December 10, 2015, and if possible, to send a copy of their slides and/or statement or talking points at that time. Written statements can supplement and may expand the oral presentation. Registration for in-person oral comments will also be available at the meeting, although time allowed for presentation by on-site registrants may be less than that for registered speakers and will be determined by the number of speakers who register on-site.

### Background Information on the RoC

Published biennially, each edition of the RoC is cumulative and consists of substances newly reviewed in addition to those listed in previous editions. For each listed substance, the RoC contains a substance profile, which provides information on cancer studies that support the listing—including those in humans, animals, and studies on possible mechanisms of action—information about potential sources of exposure to humans, and current federal regulations to limit exposures. The 13th RoC, the latest edition, was published on October 2, 2014 (available at <http://ntp.niehs.nih.gov/go/roc13>), and the 14th RoC is under development.

### Background Information on NTP Peer-Review Panels

NTP panels are technical, scientific advisory bodies established on an “as needed” basis to provide independent scientific peer review and advise the

NTP on agents of public health concern, new/revised toxicological test methods, or other issues. These panels help ensure transparent, unbiased, and scientifically rigorous input to the program for its use in making credible decisions about human hazard, setting research and testing priorities, and providing information to regulatory agencies about alternative methods for toxicity screening. The NTP welcomes nominations of scientific experts for upcoming panels. Scientists interested in serving on an NTP panel should provide a current *curriculum vitae* to the **FOR FURTHER INFORMATION CONTACT**. The authority for NTP panels is provided by 42 U.S.C. 217a; section 222 of the Public Health Service (PHS) Act, as amended. The panel is governed by the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees.

Dated: October 7, 2015.

### National Institutes of Health

### Nominations to the Report on Carcinogens and Office of Health Assessment and Translation; Request for Information; Amended Notice

**SUMMARY:** This notice amends **Federal Register** notice 80 FR 60692, published October 7, 2015, requesting information on nominations to the Report on Carcinogens and Office of Health Assessment and Translation. The correct CASRN for vinylidene chloride is 75-35-4. All other information in the original notice has not changed. Information on nominations is available at <http://ntp.niehs.nih.gov/go/rocnom> and <http://ntp.niehs.nih.gov/go/763346>.

**DATES:** Deadline for receipt of information is November 6, 2015.

Dated: October 7, 2015.
