

accurately represent the conditions of a Clearing Member liquidation scenario since the positions are not eligible for use in this scenario under Commission rules. For the foregoing reasons, OCC believes that the proposed rule change is in the public interest, would be consistent with the requirements of the Act applicable to clearing agencies and would impose a burden on competition, with respect to more significant margin increases for customer accounts, that is necessary and appropriate in furtherance of the purposes of the Act.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were not and are not intended to be solicited with respect to the proposed rule change and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

The proposal shall not take effect until all regulatory actions required with respect to the proposal are completed.²⁷

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-OCC-2015-016 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-OCC-2015-016. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of OCC and on OCC's Web site at http://www.optionsclearing.com/components/docs/legal/rules_and_bylaws/sr_occ_15_016.pdf. SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-76135; File No. SR-BX-2015-058]

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Mini Options

October 13, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 8, 2015, NASDAQ OMX BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Supplementary Material .08 to Chapter IV, Section 6 (Series of Options Contracts Open for Trading), entitled "Mini Options Contracts." Specifically, the Exchange proposes to replace the name "Google Inc." with "Alphabet Inc."

The Exchange requests that the Commission waive the 30-day operative delay period contained in Exchange Act Rule 19b-4(f)(6)(iii).³

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaqomxbx.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of

²⁷ OCC also filed this proposal as an advance notice pursuant to Section 802(e)(1) of the Payment, Clearing, and Settlement Supervision Act of 2010 and Rule 19b-4(n)(1) under the Act. See *supra* note 3.

the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Supplementary Material .08 to Chapter IV, Section 6, regarding Mini Options traded on BX, to replace the name "Google Inc." with "Alphabet Inc." Google Inc. ("Google") recently announced plans to reorganize and create a new public holding company, which will be called Alphabet Inc. ("Alphabet"). As a result of the holding company reorganization, each share of Class A Common Stock ("GOOGL"), which the Exchange has listed as a Mini Option, will automatically convert into an equivalent corresponding share of Alphabet Inc. stock.⁴ The symbol "GOOGL" remains unchanged.

The Exchange is proposing to make this change to Supplementary Material .08 to Chapter IV, Section 6 to enable the continued trading of Mini Options on Google's, now Alphabet's Class A shares. The Exchange is proposing to make this change because, on October 5, 2015 Google reorganized and as a result underwent a name change.

The purpose of this change is to ensure that Supplementary Material .08 to Chapter IV, Section 6 reflects the intention and practice of the Exchange to trade Mini Options on only an exhaustive list of underlying securities outlined in Supplementary Material .08. This change is meant to continue the inclusion of Class A shares of Google in the current list of underlying securities that Mini Options can be traded on, while continuing to make clear that class C shares of Google are not part of that list as that class of options has not been approved for Mini Options trading. As a result, the proposed change will help avoid confusion.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁵ Specifically, the Exchange believes the proposed rule change is consistent with the Section

6(b)(5)⁶ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁷ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the proposed rule change to change the name Google to Alphabet to reflect the new ownership structure is consistent with the Act because the proposed change is merely updating the current name associated with the stock symbol GOOGL to allow for continued mini option trading on Google's class A shares. The proposed change will allow for continued benefit to investors by providing them with additional investment alternatives.

B. Self-Regulatory Organization's Statement on Burden on Competition

BX does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change does not impose any burden on intra-market competition because it applies to all members and member organizations uniformly. There is no burden on inter-market competition because the Exchange is merely attempting to continue to permit trading of GOOGL as a Mini Options, as is the case today. As a result, there will be no substantive changes to the Exchange's operations or its rules.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant

burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁸ and Rule 19b-4(f)(6) thereunder.⁹

A proposed rule change filed under Rule 19b-4(f)(6)¹⁰ normally does not become operative for 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6)(iii)¹¹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest.

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the Exchange to continue to list mini options on the Google Class A shares, now Alphabet's Class A shares, following Google's reorganization. For this reason, the Commission designates the proposed rule change to be operative upon filing.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

⁸ 15 U.S.C. 78s(b)(3)(A).

⁹ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Commission deems this requirement to have been met.

¹⁰ 17 CFR 240.19b-4(f)(6).

¹¹ 17 CFR 240.19b-4(f)(6)(iii).

¹² For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

⁴ The Class C Capital Stock ("GOOG") which is also impacted by the reorganization are not eligible to be listed as Mini Options on the Exchange, only the Class A Common Stock.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-76136; File No. SR-ICEEU-2015-010]

Self-Regulatory Organizations; ICE Clear Europe Limited; Order Approving Proposed Rule Change, as Modified by Amendment No. 1 Thereto, Relating to Credit Default Swap Risk Policies

October 13, 2015.

I. Introduction

On June 25, 2015, ICE Clear Europe Limited ("ICE Clear Europe") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend certain of its credit default swap ("CDS") risk policies (the "Risk Policy Amendments") in order to enhance its current risk model (SR-ICEEU-2015-010). The proposed rule change was published for comment in the **Federal Register** on July 16, 2015.³ On July 21, 2015, ICE Clear Europe filed Amendment No. 1 to the proposed rule change solely to reflect the formal approval of the Risk Policy Amendments by the ICE Clear Europe Board.⁴ ICE Clear Europe consented to an extension of the time period in which the Commission shall approve, disapprove, or institute proceedings to determine whether to disapprove the proposed rule change to October 14, 2015. The Commission received no comment letters regarding the proposed change. For the reasons discussed below, the Commission is approving the proposed rule change, as modified by Amendment No. 1.

II. Description of the Proposed Rule Change

ICE Clear Europe has proposed amending certain risk policies relating to the CDS product category to incorporate enhancements to the existing CDS risk model. The relevant policies to be modified are the CDS Risk Policy ("CDS Risk Policy") and the CDS

Risk Model Description ("Risk Model Description"). ICE Clear Europe did not propose to make any changes to its Clearing Rules or Procedures in connection with these amendments.

ICE Clear Europe has proposed to, among other matters, (i) modify the credit spread response component of the risk model to devolatilize returns, (ii) enhance the portfolio spread response component of the risk model to limit procyclicality, (iii) establish a new framework for recovery rate sensitivity requirement ("RRSR") parameters, (iv) modify the CDS Guaranty Fund allocation methodology, (v) modify index liquidity and concentration charges and (vi) revise procedures for intraday margin calls. The Risk Policy Amendments would also include certain other clarifications and conforming changes.

The following is a summary of the principal changes to be made by the Risk Policy Amendments:

Devolatilization of Credit Spread Response. Under the revised Risk Model Description, the credit spread response component of the margin model would be revised to provide that the tail estimation of the relevant fitted returns distribution is based on devolatilized returns. ICE Clear Europe has represented that the use of devolatilized returns in this manner facilitates the comparison of returns for periods with different volatilities.

Procyclicality of Portfolio Spread Response. In order to limit procyclicality of the spread response component of the model, ICE Clear Europe has proposed to modify the CDS Risk Policy and Risk Model Description to use an additional portfolio analysis that features price changes observed during and immediately after the Lehman Brothers default. According to ICE Clear Europe, the analysis considers price scenarios derived from the greatest price decrease and increase during and immediately after the Lehman Brothers default. ICE Clear Europe has designed these scenarios to capture the default of a major participant in the credit market and the market response to the event. ICE Clear Europe has defined the introduced scenarios in price terms to maintain the stress severity during periods of low credit spread levels (high price) when the spread response requirements, computed under the current framework, are expected to be lower. Furthermore, ICE Clear Europe has also incorporated the Lehman default price scenarios into the

⁴ In its filing on June 25, 2015, ICE Clear Europe represented that the Risk Policy Amendments would be approved by the ICE Clear Europe Board before implementation. ICE Clear Europe subsequently filed Amendment No. 1 to state that the ICE Clear Europe Board approved the Risk Policy Amendments on July 8, 2015. Amendment No. 1 is not subject to notice and comment because it is a technical amendment that does not alter the substance of the proposed rule change or raise any novel regulatory issues.
