POLICY JUSTIFICATION

Kingdom of Saudi Arabia—UH–60M Black Hawk Utility Helicopters

The Government of Saudi Arabia has requested a possible sale of:

Major Defense Equipment (MDE):
 Nine (9) UH–60M Black Hawk Utility Helicopters
 Twenty-one (21) T700–GE–701D Engines (eighteen (18) installed and three (3) spares)
 Twenty (20) Embedded Global Positioning Systems with Inertial Navigation System (GPS/INS) (eighteen (18) installed and two (2) spares)
 Twelve (12) AN/AAR–57, Common Missile Warning Systems (CMWS) (nine (9) installed and three (3) spares)
 Twenty (20) M240H 7.62mm Machine Guns

Also included are the following non-MDE items and support: Aircraft Survivability Equipment; M134 Miniguns; Electro-optical Infrared (EO/IR) system; Dual Mode (normal light/infrared) Controllable Search Lights; Fast Rope Insertion/Extraction System (FRIES); External Electric Hoists; Internal Auxiliary Fuel Tank Systems (IAFS); Dual Patient Litter System; Ballistic Armor Protection System; aircraft warranty; air worthiness support; spare and repair parts; communications equipment; personnel training and training equipment; site surveys; tool and test equipment; ground support equipment; repair and return; publications and technical documentation; Quality Assurance Team (QAT); U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistics and program support. The estimated cost is \$495 million.

The proposed sale will make a positive contribution to the foreign policy and national security objectives of the United States by helping to improve the security of an important regional partner that has been, and continues to be, a significant U.S. partner for political stability and economic progress in the Middle East.

The Royal Saudi Land Forces Aviation Command (RSLFAC) plans to use these helicopters for search and rescue, disaster relief, humanitarian support, counterterrorism, and combat operations.

The proposed sale will not introduce new technology to or alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aircraft Company (GEAC) in Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale.

Implementation of this sale will require an estimated forty (40) to sixty (60) U.S. Government and contractor representatives to travel to Saudi Arabia for up to sixty (60) months for equipment de-processing, fielding, system checkout, training, and technical logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 15–66

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) *Sensitivity of Technology:*

1. The UH–60M Black Hawk Utility Helicopter is a medium lift aircraft which includes two T700–GE–701D Engines and an advanced cockpit that features four multi-function displays, four-axis coupled flight director, digital map, and Dual Embedded Global Positioning System/Inertial Navigation System (GPS/INS) (EGI).

a. Embedded Global Positioning System/Inertial Navigation System (GPS/INS) (EGI)—The EGI is a Selective Availability Anti-Spoofing Module (SAASM) based navigation platform that combines an inertial sensor assembly with a fixed reception pattern antenna GPS receiver. The EGI system is the primary source for position information and is UNCLASSIFIED. The GPS crypto variables needed for the highest GPS accuracy are classified up to SECRET.

b. AN/AAR–57 Common Missile Warning System (CMWS)—The CMWS detects threat missiles in flight, evaluates potential false alarms, declares validity of threat and selects the appropriate Infrared Countermeasure (IRCM). Each platform includes: Electro-Optical Missile Sensors, an Electronic Control Unit (ECU), Sequencer, and the Improved Countermeasures Dispenser (ICMD). The hardware is classified CONFIDENTIAL. Releasable technical manuals for operation and maintenance are classified SECRET. Reverse engineering is not a major concern.

c. AN/APR–39A Radar Warning System—This radar signal detecting set provides warning of a radar directed air defense threat to allow appropriate countermeasures. Hardware is classified CONFIDENTIAL when programmed

with U.S. threat data. Releasable technical manuals for operation and maintenance are classified CONFIDENTIAL. Releasable technical data (technical performance) are classified SECRET. The system can be programmed with threat data provided by the purchasing country.

d. AN/AVR-2B, Laser Warning Set—A passive laser warning system that receives, processes, and displays threat information resulting from aircraft illumination by lasers, on the multi-functional display. The hardware is classified CONFIDENTIAL. Releasable technical manuals for operation and maintenance are classified SECRET. Reverse engineering is not a major concern.

2. Software, hardware, and other data/information that is classified or sensitive is reviewed prior to release to protect system vulnerabilities, design data, and performance parameters. Some end-item hardware, software, and other data identified above are classified at the CONFIDENTIAL level.

3. Loss of this hardware, software, documentation and/or data could permit development of information which may lead to a significant threat to future U.S. military operations. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Saudi Arabia can provide substantially the same degree of protection for this technology as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All of the defense articles and services listed in this transmittal have been authorized for release and export to the Kingdom of Saudi Arabia.

Office of the Secretary

[Docket ID: DoD-2015-OS-0110]

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary of Defense, DoD.

ACTION: Notice to delete a system of records.

SUMMARY: The Office of the Secretary of Defense is deleting a system of records notice from its existing inventory of record systems subject to the Privacy Act of 1974, as amended. The system of records notice is WUSU 19, entitled "Travel Records" (February 22, 1993, 58 FR 10920).

DATES: Comments will be accepted on or before November 30, 2015. This proposed action will be effective on the day following the end of the comment period unless comments are received which result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

* *Mail:* Department of Defense, Office of the Deputy Chief Management Officer, Directorate of Oversight and Compliance, Regulatory and Audit Matters Office, 9010 Defense Pentagon, Washington, DC 20301-9010.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Mrs. Cindy Allard at (571) 372-0461.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense systems of records notices subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy and Civil Liberties Division Web site at <http://dpcl.d.defense.gov/>. The Office of the Secretary of Defense proposes to delete one system of records notice from its inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended. The proposed deletion is not within the purview of subsection (r) of the Privacy Act of 1974 (5 U.S.C. 552a), as amended, which requires the submission of a new or altered system report.

Dated: October 23, 2015.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DELETION

WUSU 19

Travel Records (February 22, 1993, 58 FR 10920)

Reason: Based on a recent review of WUSU 19, Travel Records, it has been determined that this system of records is covered by system of records notice DHRA 08 DoD, Defense Travel System (March 24, 2010, 75 FR 14142); therefore, WUSU 19, Travel Records can be deleted.
