SUPPLEMENTARY INFORMATION:**A. Purpose**

Section 1322 of the Small Business Jobs Act of 2010 (Jobs Act), Public Law 111-240, amends the Small Business Act (15 U.S.C. 637(d)(6)) to require as part of a subcontracting plan that a prime contractor make good faith effort to utilize a small business subcontractor during performance of a contract to the same degree the prime contractor relied on the small business in preparing and submitting its bid or proposal. If a prime contractor does not utilize a small business subcontractor as described above, the prime contractor is required to explain, in writing, to the contracting officer the reasons why it is unable to do so. The Small Business Administration (SBA) made regulatory changes in its final rule at 78 FR 42391, dated July 16, 2013 to implement the statutory requirements set forth at section 1322. The SBA final rule is being implemented in the FAR at Subpart 19.7 and clause 52.219-9 Small Business Subcontracting Plan through FAR case 2014-003, Small Business Subcontracting Improvements.

B. Annual Reporting Burden

Public reporting burden for the collection of information regarding a contractor's utilization of small business subcontractors to the same degree the prime contractor relied on the small business in preparing and submitting its bid or proposal is estimated to be \$202,464. FPDS for FY 2013 lists 5,327 actions with small business subcontracting plans. However, it is estimated that at most 50% of these contracts with subcontracting plans may have instances of the prime contractor not using a small business subcontractor to the same extent used in preparing the bid or proposal. Using this method provides the number of respondents as 2,664. It is estimated that the average time required to read and prepare

information for this collection is two hours. It is also estimated that the responses per respondent would be once a year since prime contractors have until 30 days of contract completion to submit the written explanation.

Respondents: 2,664.

Responses per respondent: 1.

Total annual responses: 2,664.

Preparation hours per response: 2.

Total response burden hours: 5,328.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 9000-0192, Utilization of Small Business Subcontractors, in all correspondence.
