

collision with a lead vehicle (time-to-collision) regardless of whether CIB has been activated or not. If CIB activates before DBS, the initial test speed and, thus, the severity of the test would effectively be reduced.

TRW observed that one potential future trend to watch is that as industry confidence and capability to provide CIB functionality increases and the amount of vehicle deceleration is allowed to increase and be applied earlier in the process, the need for DBS as a separate feature may diminish. The potential goal of DBS testing would become one of proving a driver intervention during an AEB event does not detract from the event's outcome, TRW said.

At this time, the agency is aware that many light vehicle DBS systems supply higher levels of braking at earlier activation times for the supplemental brake input compared to the automatic braking of CIB systems. Based on this understanding of current system design, our NCAP AEB test criteria for DBS evaluates crash avoidance resulting from higher levels of deceleration, whereas our CIB test criteria evaluates crash mitigation (with the exception of the CIB lead vehicle moving SV: 25 mph/POV: 10 mph (SV:40 km/h/POV: 16 km/h) scenario, for which crash avoidance is required). NHTSA will keep the speed reduction evaluation criteria as planned for the CIB and DBS tests.

Unless the agency uncovers a reason to be concerned about how the performance metrics of a test protocol may affect system performance in vehicles equipped with both CIB and DBS, the agency will recognize an AEB equipped vehicle as long as it passes the criteria of a given protocol, whether that occurs as a result of the activation of the particular system or a combination of systems.

5. Issues Beyond the Scope of This Notice

Some commenters raised topics outside the scope of the notice, and they will not be addressed here.

These include: A suggested two-stage approach to adding technologies to NCAP, a suggested minimum AEB performance regulation that would function in concert with NCAP, conflicts between rating systems that could cause consumer confusion, other technologies that should be added to NCAP in the future, and a call for flashing brake lights to alert trailing drivers that an AEB system has been activated.

Other topics raised may be addressed as the agency's experience with AEB

systems expands over time. These topics include: Using different equipment, including a different surrogate vehicle; a call to study the interaction of the proposed CIB/DBS systems with tests for FMVSS Nos. 208 and 214 to assess whether such features should be enabled during testing and what the effect may be; a suggestion that the agency should consider the role electronic data recorders (EDRs) may play in assessing AEB false positive field performance; and concern as to how safety systems on a test vehicle other than AEB systems would be dealt with during AEB testing, such as some pre-crash systems that may be activated based on these tests.

A suggestion was made that the agency should consider the potential interactions of AEB systems with vehicle-to-vehicle (V2V) communications technology, both in how AEB tests might be performed and what the performance specifications for those tests should be. The agency is monitoring the interaction of these capabilities.

V. Conclusion

For all the reasons stated above, we believe that it is appropriate to update NCAP to include crash imminent braking and dynamic brake support systems as Recommended Advanced Technologies.

Starting with Model Year 2018 vehicles, we will include AEB systems as a recommended technology and test such systems.

Hainesport Industrial Railroad, LLC— Corporate Family Transaction Exemption

AGENCY: Surface Transportation Board.

ACTION: Correction to Notice of Exemption.

On August 26, 2013, Hainesport Industrial Railroad, LLC (Hainesport), a Class III railroad, filed a verified notice

of exemption under 49 CFR 1180.2(d)(3) for a corporate family transaction pursuant to which Hainesport would transfer ownership and operation of a line of railroad, described as the East Line, in Hainesport, N.J., to a corporate affiliate, Hainesport Secondary Railroad, LLC (Hainesport Secondary).¹ The notice was served and published in the **Federal Register** on September 11, 2013 (78 FR 55,776), and became effective on September 25, 2013.

On August 6, 2015, Hainesport filed a petition to correct or amend the notice. According to Hainesport, the map provided with its notice incorrectly depicted the East Line. Thus, Hainesport requests that the Board substitute the map identified as Exhibit A to its petition for the map submitted in the notice. This correction is recognized here. All remaining information from the September 11, 2013 notice remains unchanged.

Board decisions and notices are available on our Web site at WWW.STB.DOT.GOV.

Decided: November 2, 2015.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

System information may be accessed and used by authorized VA employees, with a legitimate need to know, to conduct duties associated with the management and operation of the FOIA-PA program. Information may also be disclosed as a routine use for the following purposes:

1. VA may disclose information from this system of records to the Office of Management and Budget (OMB) for the performance of its statutory responsibilities for evaluating Federal programs.

2. VA may disclose information from this system of records to the Department of Justice (DOJ), either on VA's initiative or in response to DOJ's request for the information, after either VA or DOJ determines that such information is

relevant to DOJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to the DOJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.

3. VA may disclose information from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

4. VA may disclose information from this system to the National Archives and Records Administration (NARA) and General Services Administration (GSA) in records management inspections conducted under Title 44 U.S.C.

5. VA may disclose information from this system of records to individuals, organizations, private or public agencies, or other entities or individuals with whom VA has a contract or agreement to perform such services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor, subcontractor, public or private agency, or other entity or individual with whom VA has a contract or agreement to perform services under the contract or agreement.

6. VA may, on its own initiative, disclose information in this system, except the names and home addresses of veterans and their dependents, which is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal or regulatory in nature and whether arising by general or program statute or by regulation, rule or order issued pursuant thereto, to a Federal, state, local, tribal, or foreign agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule or order. On its own initiative, VA may also disclose the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order issued pursuant thereto.

7. VA may disclose information from this system to the Equal Employment Opportunity Commission (EEOC) when requested in connection with investigations of alleged or possible discriminatory practices, examination of Federal affirmative employment programs, or other functions of the Commission as authorized by law or regulation.

8. VA may disclose information from this system to the Merit Systems Protection Board (MSPB), or the Office of the Special Counsel, when requested in connection with appeals, special studies of the civil service and other merit systems, review of rules and regulations, investigation of alleged or possible prohibited personnel practices, and such other functions promulgated in 5 U.S.C. 1205 and 1206, or as authorized by law.

9. VA may disclose information from this system to the Federal Labor Relations Authority (FLRA), including its General Counsel, information related to the establishment of jurisdiction, investigation, and resolution of allegations of unfair labor practices, or in connection with the resolution of exceptions to arbitration awards when a question of material fact is raised; for it to address matters properly before the Federal Services Impasses Panel, investigate representation petitions, and conduct or supervise representation elections.

10. VA may, on its own initiative, disclose information from this system to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the potentially compromised information; and (3) the disclosure is to agencies, entities, or persons whom VA determines are reasonably necessary to assist or carry out the Department's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

11. Disclosure to other Federal agencies may be made to assist such agencies in preventing and detecting possible fraud or abuse by individuals in their operations and programs.

12. To the National Archives and Records Administration Office of Government Information Services (OGIS), to the extent necessary to fulfill its responsibilities in 5 U.S.C. 552(b), to review administrative agency policies, procedures and compliance with the Freedom of Information Act (FOIA), and to facilitate OGIS' offering of mediation services to resolve disputes between persons making FOIA requests and administrative agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Electronic data are maintained on Direct Access Storage Devices at AINS Inc., 1355 Piccard Drive, Rockville, Maryland. AINS Inc. stores registry tapes for disaster back up at the storage location. Registry tapes for disaster back up are also maintained at an off-site location. VA Central Office and VA field facilities also maintain paper reports and electronic data.

RETRIEVABILITY:

Records are indexed by name of requester, date and any other identifier deemed appropriate.

SAFEGUARDS:

This list of safeguards furnished in this System of Records is not an exclusive list of measures that has been, or will be, taken to protect individually-identifiable information.

All records are maintained in compliance with applicable VA security policy directives that specify the standards that will be applied to protect sensitive personal information, including protection from unauthorized access through appropriate administrative, physical, and technical safeguards. These safeguards include restricting access to authorized personnel who have a need-to-know, using locks and password protection identification features.

Authorized personnel are required to take annual VA mandatory data privacy and security training. Access to data storage areas is restricted to authorized VA employees or contract staff who have been cleared to work by the VA Office of Security and Law Enforcement. File areas are locked after normal duty hours. VA facilities are protected from outside access by the Federal Protective Service and/or other security personnel. Security complies with applicable Federal Information Processing Standards (FIPS) issued by the National Institute of Standards and Technology (NIST). Contractors and their subcontractors who access the data are

required to maintain the same level of security as VA staff. Access to electronic files is controlled by using an individually unique password entered in combination with an individually unique user identification code.

RETENTION AND DISPOSAL:

Records will be maintained and disposed of in accordance with records disposition authority approved by the Archivist of the United States. Routine records will be disposed of when the agency determines they are no longer needed for administrative, legal, audit or other operational purposes. These retention and disposal statements are pursuant to the National Archives and Records Administration (NARA) General Record Schedules GRS-20, item 1c and GRS 24, item 6a.

Such requests must contain a reasonable description of the records requested. Inquires should also include the following:

- a. Name
- b. Telephone Number and Return Address
- c. Date of Request or Appeal

RECORD ACCESS PROCEDURES:

Individuals wishing to request access to their records maintained under his or her name may write or visit the nearest VA facility or write to their regional VA Public Liaison/FOIA officer listed at http://www.foia.va.gov/FOIA_Contacts.asp.

CONTESTING RECORDS PROCEDURES:

(See "Record Access Procedures above.")

RECORD SOURCE CATEGORIES:

Information in this system of records is obtained from the following: requests and administrative appeals submitted by individuals and organizations pursuant to the FOIA and Privacy Acts; VA personnel assigned to handle such requests and appeals; Agency records searched and identified as responsive to such requests and appeals; and requests referred by Agencies or other entities concerning VA records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

During the course of a FOIA action, exempt materials from other systems of records may in turn become part of the case records in this system. To the extent that copies of exempt records from those 'other' systems of records are entered into this FOIA case record, VA hereby claims the same exemptions for the records from those 'other' systems that are entered into this system, as claimed for the original primary systems of records of which they are a part.
