DEPARTMENT OF ENERGY
[FE Docket No. 15–149–LNG]

ConocoPhillips Alaska Natural Gas Corporation; Application for Blanket Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on September 28, 2015, by ConocoPhillips Alaska Natural Gas Corporation (CPANGC), requesting blanket authorization to export a quantity of liquefied natural gas (LNG) in an amount up to the equivalent of 40 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period. In the portion of the Application subject to this Notice, CPANGC seeks blanket authorization to export this volume of LNG from facilities located near Kenai, Alaska (Kenai LNG Facility), to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries).1 CPANGC seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. CPANGC requests the authorization for a two-year term to commence on February 19, 2016.2 The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in CPANGC’s Application, posted on the DOE/FE Web site at: http://energy.gov/sites/prod/files/2015/10/f27/ConocoPhillips15_149 LNG.pdf.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, December 9, 2015.

ADDRESSES:

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

1 In the Application, CPANGC also requests blanket authorization to export LNG from Alaska to non-FTA countries, issued in DOE/FE Order No. 3418, began on April 14, 2014, and extends through April 13, 2016. CPANGC states, however, that if the requested non-FTA authorization is granted to commence on February 19, 2016, CPANGC will relinquish the remainder of its non-FTA authorization in DOE/FE Order No. 3418 in light of DOE’s policy against allowing a single entity to hold duplicate permits running concurrently. App. at 3.

2 According to CPANGC, February 19, 2016, is the day after its existing blanket authorization to export LNG from the Kenai LNG Facility to FTA countries will expire. CPANGC further states that its existing

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). In reviewing this LNG export Application, DOE will consider issues required by law or policy. The Application is considered a renewal of previously issued authority (see supra n.2). To the extent determined to be relevant or appropriate, DOE/FE’s review will include the impact of LNG exports associated with this Application on Alaskan regional domestic need for the natural gas proposed for export, adequacy of domestic natural gas supply in Alaska, and other issues, including whether the arrangement is consistent with DOE’s policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose the Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Interested persons will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, notices of intervention, or motions for additional procedures.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention, as applicable. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the
DEPARTMENT OF ENERGY
[OE Docket No. EA–373–A]

Application To Export Electric Energy; EDF Trading North America, LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: EDF Trading North America, LLC (Applicant) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 9, 2015.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202–586–8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Foreign Agreements Act (section 301(b) and 402(f) of the Federal Power Act (16 U.S.C. 824a(e)). On November 30, 2010, DOE issued Order No. EA–373 to the Applicant, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on November 30, 2015. On November 3, 2015, the Applicant filed an application with DOE for renewal of the export authority contained in Order No. EA–373 for an additional five-year term. In its application, the Applicant states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that the Applicant proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. The Applicant is also requesting expedited treatment of this renewal application as current export authority expires on November 30, 2015.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning the Applicant’s application to export electric energy to Mexico should be clearly marked with OE Docket No. EA–373–A. An additional copy is to be provided directly to Gerald Nemec, EDF Trading North America, LLC, 4700 West Sam Houston Parkway North, Suite 250, Houston, TX 77041 and to both Kenneth Irvin and Terence Healey, Sidley Austin LLP, 1501 K Street NW., Washington, DC 20005.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://energy.gov/node/11845, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on November 3, 2015.

Brian Mills,
Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.
