

CFR 1.2105(c). Statutory authority for the revised information collection is contained in sections 154(i), 309(j), and 1452(a)(3) of the Communications Act, as amended, 47 U.S.C. 4(i), 309(j)(5), 1452(a)(3), and sections 1.2105(c) and 1.2205 of the Commission's rules, 47 CFR 1.2105(c), 1.2205.

Estimated Total Annual Burden: 50 hours.

Total Annual Costs: \$9,000.

Nature and Extent of Confidentiality:

The Commission will take all reasonable steps to protect the confidentiality of all Commission-held data of a reverse auction applicant consistent with the confidentiality requirements of the Spectrum Act and the Commission's rules. See 47 U.S.C. 1452(a)(3); 47 CFR 1.2206. In addition, to the extent necessary, a full power or Class A television broadcast licensee may request confidential treatment of any report of a prohibited communication submitted to the Commission that is not already being treated as confidential pursuant to section 0.459 of the Commission's rules, 47 CFR 0.459. Forward auction applicants are entitled to request confidentiality in accordance with section 0.459 of the Commission's rules, 47 CFR 0.459.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On February 22, 2012, the President signed the Spectrum Act, which, among other things, authorized the Commission to conduct incentive auctions, and directed that the Commission use this innovative tool for an incentive auction of broadcast television spectrum to help meet the Nation's growing spectrum needs. See Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. 112-96, sections 6402, 6403, 125 Stat. 156 (2012) (Spectrum Act), codified at 47 U.S.C. 309(j)(8)(G), 1452. The Commission's broadcast incentive auction (BIA) will have three main components: (1) A reverse auction in which broadcast television licensees will submit bids to voluntarily relinquish their spectrum usage rights in exchange for defined shares of proceeds from the forward auction; (2) a repacking of the broadcast television bands; and (3) a forward auction of initial licenses for flexible use of the newly available spectrum.

The Commission is revising the currently approved information collection to implement new collection requirements resulting from the Commission's adoption of new and modified rules prohibiting certain communications for full power and Class A television broadcast licensees and for applicants seeking to participate in the forward auction component of the

BIA and requiring such covered parties to file a report with the Commission within a specified period of time if they make or receive a prohibited communication. Subject to certain exceptions, section 1.2205(b) of the Commission's rules provides that, beginning on the deadline for submitting applications to participate in the reverse auction and until the results of the incentive auction are announced by public notice, all full power and Class A broadcast television licensees are prohibited from communicating directly or indirectly any incentive auction applicant's bids or bidding strategies to any other full power or Class A broadcast television licensee or to any forward auction applicant. Section 1.2205(c) requires any party that makes or receives a prohibited communication to report such communication in writing to the Commission immediately, and in no case later than five business days after the communication occurs. Section 1.2205(d) provides the procedures for filing any reports required under section 1.2205(c). Subject to certain exceptions, forward auction applicants in the BIA are subject to a BIA-specific provision in section 1.2105(c) of the Commission's rules (in addition to the Commission's existing prohibited communications rule applicable to applicants in traditional Commission auctions), which provides that, beginning on the deadline for submitting applications to participate in the forward auction and until the results of the incentive auction have been announced by public notice, all forward auction applicants are prohibited from communicating directly or indirectly any incentive auction applicant's bids or bidding strategies to any full power or Class A broadcast television licensee. Section 1.2105(c) requires forward applicants that make or receive a prohibited communications that is prohibited under section 1.2105(c) to file a report of such a communication with the Commission.

The Commission's rules prohibiting certain communications in Commission auctions are designed to reinforce existing antitrust laws, facilitate detection of collusive conduct, and deter anticompetitive behavior, without being so strict as to discourage pro-competitive arrangements between auction participants. They also help assure participants that the auction process will be fair and objective, and not subject to collusion. The information collected through the Commission's existing reporting requirement under section 1.2105(c) allows the Commission to enforce the

prohibition on forward auction applicants by making clear the responsibility of parties who receive information that potentially violates the rules to promptly report to the Commission, thereby enhancing the competitiveness and fairness of its spectrum auctions. The revised information collection under the BIA-specific rule in section 1.2105(c) and in sections 1.2205(c) and 1.2205(d) will likewise help the Commission enforce the prohibition on covered parties in the BIA, further assuring incentive auction participants that the auction process will be fair and competitive. The prohibited communication reporting requirement required of covered parties will enable the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions and thus enhances the competitiveness and fairness of Commission's auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

FEDERAL HOUSING FINANCE AGENCY

[No. 2015-N-11]

Proposed Collection; Comment Request

AGENCY: Federal Housing Finance Agency.

ACTION: 60-day Notice of Submission of Information Collection for Approval from Office of Management and Budget.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995, the Federal Housing Finance Agency (FHFA) is seeking public comments concerning the information collection known as the "National Survey of Existing Mortgage Borrowers" (NSEMB). This is a new collection that has not yet been assigned a control number by the Office of Management and Budget (OMB). FHFA intends to submit the information collection to OMB for review and approval of a three-year control number.

DATES: Interested persons may submit comments on or before January 11, 2016.

ADDRESSES: Submit comments to FHFA, identified by “Proposed Collection; Comment Request: ‘National Survey of Existing Mortgage Borrowers, (No. 2015–N–11)’ ” by any of the following methods:

- *Agency Web site:* www.fhfa.gov/open-for-comment-or-input.
- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments. If you submit your comment to the *Federal eRulemaking Portal*, please also send it by email to FHFA at RegComments@fhfa.gov to ensure timely receipt by the agency.

- *Mail/Hand Delivery:* Federal Housing Finance Agency, Eighth Floor, 400 Seventh Street SW., Washington, DC 20219, ATTENTION: Proposed Collection; Comment Request: “National Survey of Existing Mortgage Borrowers, (No. 2015–N–11)”.

We will post all public comments we receive without change, including any personal information you provide, such as your name and address, email address, and telephone number, on the FHFA Web site at <http://www.fhfa.gov>. In addition, copies of all comments received will be available for examination by the public on business days between the hours of 10 a.m. and 3 p.m., at the Federal Housing Finance Agency, Eighth Floor, 400 Seventh Street SW., Washington, DC 20219. To make an appointment to inspect comments, please call the Office of General Counsel at (202) 649–3804.

FOR FURTHER INFORMATION CONTACT: Forrest Pafenberg, Supervisory Policy Analyst, Office of the Chief Operating Officer, by email at Forrest.Pafenberg@fhfa.gov or by telephone at (202) 649–3129; or Eric Raudenbush, Assistant General Counsel, by email at Eric.Raudenbush@fhfa.gov or by telephone at (202) 649–3084, (these are not toll-free numbers), Federal Housing Finance Agency, 400 Seventh Street SW., Washington, DC 20219. SUPPLEMENTARY INFORMATION:

A. Need for and Use of the Information Collection

The NSEMB will be a periodic, voluntary survey of individuals who currently have a first mortgage loan secured by single-family residential property. The survey questionnaire will consist of approximately 80–85 questions designed to learn directly from mortgage borrowers about their

mortgage experience, any challenges they may have had in maintaining their mortgage and, where applicable, terminating a mortgage. It will request specific information on: The mortgage; the mortgaged property; the borrower’s experience with the loan servicer; and the borrower’s financial resources and financial knowledge. FHFA is also seeking clearance to pretest the survey questionnaire and related materials from time to time through the use of focus groups. A preliminary draft of the survey questionnaire (which at this time includes only 66 questions) appears at the end of this notice.

The NSEMB will be a component of the larger “National Mortgage Database” (NMDB) Project (Project), which is a multi-year joint effort of FHFA and the Consumer Financial Protection Bureau (CFPB) (although the NSEMB is being sponsored only by FHFA). The Project is designed to satisfy the Congressionally-mandated requirements of section 1324(c) of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992, as amended by the Housing and Economic Recovery Act of 2008.¹ Section 1324(c) requires that FHFA conduct a monthly survey to collect data on the characteristics of individual prime and subprime mortgages, and on the borrowers and properties associated with those mortgages in order to enable it to prepare a detailed annual report on the mortgage market activities of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) for review by the appropriate Congressional oversight committees. Section 1324(c) also authorizes and requires FHFA to compile a database of timely and otherwise unavailable residential mortgage market information to be made available to the public.

In order to fulfill those and other statutory mandates, as well as to support policymaking and research efforts, FHFA and CFPB committed in July 2012 to fund, build and manage the NMDB Project. When fully complete, the NMDB will be a de-identified loan-level database of closed-end first-lien residential mortgages. It will: (1) Be representative of the market as a whole; (2) contain detailed, loan-level information on the terms and performance of mortgages, as well as characteristics of the associated borrowers and properties; (3) be continually updated; (4) have an historical component dating back before the financial crisis of 2008; and (5)

provide a sampling frame for surveys to collect additional information.

The core data in the NMDB are drawn from a random 1-in-20 sample of all closed-end first-lien mortgage files outstanding at any time between January 1998 and the present in the files of Experian, one of the three national credit repositories. A random 1-in-20 sample of mortgages newly reported to Experian is added each quarter. The NMDB also draws information on mortgages in the NMDB datasets from other existing sources, including the Home Mortgage Disclosure Act (HMDA) database that is maintained by the Federal Financial Institutions Examination Council (FFIEC), property valuation models, and data files maintained by Fannie Mae and Freddie Mac and by federal agencies. Currently, FHFA obtains additional data from its quarterly National Survey of Mortgage Borrowers (NSMB), which provides critical and timely information on newly-originated mortgages and those borrowing that are not available from any existing source, including: The range of nontraditional and subprime mortgage products being offered, the methods by which these mortgages are being marketed, and the characteristics of borrowers for these types of loans.²

While the quarterly NSMB provides information on newly-originated mortgages, it does not solicit borrowers’ experience with maintaining their existing mortgages; nor is detailed information on that topic available from any other existing source. The NSEMB will solicit such information, including information on borrowers’ experience with maintaining a mortgage under financial stress, their experience in soliciting financial assistance, their success in accessing federally-sponsored programs designed to assist them, and, where applicable, any challenges they may have had in terminating a mortgage loan. The NSEMB questionnaire will be sent out to a stratified random sample of 10,000 borrowers in the NMDB. The NSEMB assumes a 25 percent overall response rate, which would yield 2,500 survey responses.

The information collected through the NSEMB questionnaire will be used, in combination with information obtained from existing sources in the NMDB, to assist FHFA in understanding how the performance of existing mortgages is influencing the residential mortgage market, what different borrower groups are discussing with their servicers when they are under financial stress, and

² OMB has cleared the NSMB under the PRA and assigned it control no. 2590–0012. The current OMB clearance expires on December 31, 2016.

¹ 12 U.S.C. 4544(c).

consumers' opinions of federally-sponsored programs designed to assist them. This important, but currently unavailable, information will assist the agency in the supervision of its regulated entities (Fannie Mae, Freddie Mac, and the Federal Home Loan Banks) and in the development and implementation of appropriate and effective policies and programs. The information may also be used for research and analysis by other federal agencies that have regulatory and supervisory responsibilities/mandates related to mortgage markets and to provide a resource for research and analysis by academics and other interested parties outside of the government.

FHFA expects that, in the process of developing the initial and any subsequent NSEMB survey questionnaires and related materials, it will sponsor one or more focus groups to pretest those materials. Such pretesting will ultimately help to ensure that the survey respondents can and will answer the survey questions and will provide useful data on their experiences with maintaining their existing mortgages. FHFA will use information collected through the focus groups to assist in drafting and modifying the survey questions and instructions, as well as the related communications, to read in the way that will be most readily understood by the survey respondents and that will be most likely to elicit usable responses. Such information will also be used help the agency decide on how best to

organize and format the survey questionnaire.

B. Burden Estimate

While FHFA currently has firm plans to conduct the survey only once—in the second quarter of 2016—it may decide to conduct further periodic NSEMB surveys once the first survey is completed. The agency therefore estimates that the survey will be conducted, on average, once annually over the next three years and that it will conduct pre-testing on each set of annual survey materials. FHFA has analyzed the hour burden on members of the public associated with pre-testing the survey materials (24 hours) and with conducting the survey (5,000 hours) and estimates the total annual hour burden imposed on the public by this information collection to be 5,024 hours. The estimate for each phase of the collection was calculated as follows:

Pre-Testing the Materials

FHFA estimates that it will sponsor two focus groups prior to conducting each survey, with 12 participants in each focus group, for a total of 24 focus group participants. It estimates the participation time for each focus group participant to be one hour, resulting in a total annual burden estimate of 24 hours for the pre-testing phase of the collection (2 focus groups per year $\times$ 12 participants in each group $\times$ 1 hour per participant = 24 hours).

Conducting the Survey

FHFA estimates that the NSEMB questionnaire will be sent to 10,000

recipients each time it is conducted. Although the agency expects only 2,500 of those surveys to be returned, it assumes that all of the surveys will be returned for purposes of this burden calculation. Based on the reported experience of respondents to the quarterly NSMB questionnaire, which contains a similar number of questions, FHFA estimates that it will take each respondent 30 minutes to complete each survey, including the gathering of necessary materials to respond to the questions. This results in a total annual burden estimate of 5,000 hours for the survey phase of this collection (1 survey per year $\times$ 10,000 respondents per survey $\times$ 30 minutes per respondent = 5,000 hours).

C. Comment Request

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) The accuracy of FHFA's estimates of the burdens of the collection of information; (3) Ways to enhance the quality, utility, and clarity of the information collected; and (4) Ways to minimize the burden of the collection of information on survey respondents, including through the use of automated collection techniques or other forms of information technology.
