SUPPLEMENTARY INFORMATION:

Titles: Development of the Deployment Risk and Resilience Inventory (DRRI).

OMB Control Number: 2900–0730.

Type of Review: Revision of an approved collection.

Abstract: The need to validate measures for use with the newest deployment cohort, including Veterans of the wars in Iraq and Afghanistan, has been identified as a critical need by both VA and DoD. The current request for a revision to OMB 2900–0730 is responsive to this identified need by proposing additional data collection with a sample of Operation Enduring Freedom/Operation Iraqi Freedom (OEF/OIF) Veterans for the purpose of validating updated scales for assessing deployment-related risk and resilience factors that have documented implications for PTSD and other mental health problems among Veteran and military samples.

Legal authority for this data collection is found under 38 U.S.C., Part I, Chapter 5, Section 527 that authorizes the collection of data that will allow measurement and evaluation of the Department of Veterans Affairs Programs, the goal of which is improved health care for veterans.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The Federal Register Notice with a 60-day comment period soliciting comments on this collection of information was published at 80 FR 44200 on July 24, 2015.

Affected Public: Individuals or Households.

Estimated Annual Burden: 1,383 burden hours.

Estimated Average Burden per Respondent: 50 minutes.

Frequency of Response: Annually.

Estimated Number of Respondents: 2,000.

By direction of the Secretary.

Kathleen M. Manwell,
Program Analyst, VA Privacy Service, Office of Privacy and Records Management, Department of Veterans Affairs.
