

it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder. A proposed rule change filed under Rule 19b-4(f)(6)¹⁸ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest.

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest as it will allow the Exchange to incorporate changes required under Regulation SCI, such as establishing standards for designating BC/DR participants, prior to the November 3, 2015 compliance date. Accordingly, the Commission designates the proposed rule change to be operative upon filing.²⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

[Release No. 34-76368; File No. SR-NASDAQ-2015-134]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt Business Continuity and Disaster Recovery Plans Testing Requirements

November 5, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 2, 2015, The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to adopt business continuity and disaster recovery plans (“BC/DR Plans”) testing requirements applicable to Exchange Members³ and Options Participants⁴ in

connection with Regulation Systems Compliance and Integrity (“Regulation SCI”).⁵

The text of the proposed rule change is available on the Exchange’s Web site at <http://nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq is proposing to adopt new Rule 1170 to implement the BC/DR Plans requirements of Rule 1004 of Regulation SCI. As adopted by the Commission, Regulation SCI applies to certain self-regulatory organizations (including the Exchange), alternative trading systems (“ATs”), plan processors, and exempt clearing agencies (collectively, “SCI entities”), and will require these SCI entities to comply with requirements with respect to the automated systems central to the performance of their regulated activities. Among the requirements of Regulation SCI is Rule 1001(a)(2)(v), which requires the Exchange and other SCI entities to maintain “[b]usiness continuity and disaster recovery plans that include maintaining backup and recovery capabilities sufficiently resilient and geographically diverse and that are reasonably designed to achieve next business day resumption of trading and two-hour resumption of critical SCI systems following a wide-scale

disruption.”⁶ The Exchange has put extensive time and resources toward planning for system failures and already maintains robust BC/DR Plans consistent with the Rule. As set forth below, in connection with Regulation SCI, the Exchange is proposing to require certain Members to participate in testing of the operation of the Exchange’s BC/DR Plans.

With respect to an SCI entity’s BC/DR Plans, including its backup systems, paragraph (a) of Rule 1004 of Regulation SCI requires each SCI entity to:

“[e]stablish standards for the designation of those members or participants that the SCI entity reasonably determines are, taken as a whole, the minimum necessary for the maintenance of fair and orderly markets in the event of the activation of such plans.”⁷ Paragraph (b) of Rule 1004 of Regulation SCI further requires each SCI entity to “[d]esignate members or participants pursuant to the standards established in paragraph (a) of [Rule 1004] and require participation by such designated members or participants in scheduled functional and performance testing of the operation of such plans, in the manner and frequency specified by the SCI entity, provided that such frequency shall not be less than once every 12 months.”⁸ In order to comply with Rule 1004 of Regulation SCI, the Exchange proposes to adopt new Rule 1170, which incorporates the requirements of Rule 1004 of Regulation SCI as part of the Exchange’s rules, and sets forth the notice, selection criteria and obligations of Members and Participants with respect to BC/DR Plans testing. Nasdaq proposes to adopt Rule 1170(a), which will set forth the Exchange’s obligations with respect to the selection of Members and Participants for testing. Specifically, the rule will require Nasdaq to “[e]stablish standards for the designation of those Members and Options Participants that Nasdaq reasonably determines are, taken as a whole, the minimum necessary for the maintenance of fair and orderly markets in the event of the activation of such plans.” The proposed new rule further provides that “[s]uch standards may include volume-based and/or market share-based criteria, and may be adjusted from time to time by Nasdaq.” Lastly, the proposed new rule will require Nasdaq to provide public notice of the standards that it adopts.

Nasdaq is proposing to adopt Rule 1170(b), which will set forth the obligations of Nasdaq and its Members
