On November 20, 2014, FRA published on its Web site public notice of Amtrak’s waiver request. FRA received thirteen (13) online comments to this notice. Only one of the commenters identified a domestic source for any of the Components. The commenter asserted that the potential supplier identified in the table above is a major domestic brake system supplier and is capable of providing the brake systems. However, as described above, FRA has determined that brake systems are not domestically available for HSR trainsets nor can the one potential supplier deliver a brake system within a reasonable time. Of the thirteen (13) comments, ten (10) commenters were in favor of granting the waiver and three were against granting the waiver. Several of the ten (10) commenters in favor of granting the waiver cited safety as their reason. Many commenters also asserted that granting the waiver would be necessary to establish HSR in the United States and would lay a foundation for future domestic HSR manufacturing.

The three commenters opposing the waiver argued that granting a waiver will lead to more waivers and that manufacturers could produce the HSR trainset components in the United States. Though domestic production of the HSR trainset components for which a waiver has been requested is theoretically possible, FRA believes significant safety, capacity, and technology transfer problems would result. Moreover, the delays to overcome these issues would negatively impact the schedules proposed by Amtrak.

FRA believes a waiver is appropriate because the Components are not manufactured in the United States and because domestically-produced Components meeting the specific safety/service-proven, technical, design, and schedule needs of Amtrak cannot be delivered within a reasonable time. FRA bases its determination on the following:

• All of Amtrak’s bidders independently indicated in their responses to Amtrak’s Request for Proposal that the Components, other than vehicle paint, could not be sourced domestically. As noted above, the paint may be able to be manufactured domestically but cannot be produced and exported in time to for use on the car shell components.

• The National Institute of Standards and Technology’s Hollings Manufacturing Extension Partnership (NIST–MEP) did not identify any domestic manufacturer currently producing the Components.

• Amtrak conducted extensive outreach with manufacturers NIST–MEP identified as potential future manufacturers for the non-available components. FRA agrees with Amtrak’s assertion that even if any of the identified manufacturers would attempt to produce the Components domestically, the Components could not be bought or produced in the United States within a reasonable time.

Pursuant to 49 U.S.C. 24405(a)(4), FRA is publishing notice of its decision to grant Amtrak’s waiver request in the Federal Register to provide notice of such finding and an opportunity for public comment after which this waiver will become effective. This waiver applies only to the HSR trainset Components, including spares, for Amtrak’s HSR trainset procurement as identified in its November 3, 2014 waiver request. Moreover, excluding assembly of prototype trainsets, which have been addressed in a separate waiver, the trainsets must be finally assembled in the United States, and all other components that are not described in this waiver must have been produced in the United States or be the subject of a future waiver.

Questions about this letter can be directed to John Johnson, Attorney-Advisor, at john.johnson@dot.gov or 202–493–0078.

Sincerely,
Sarah Feinberg
Administrator
Sarah L. Inderbitzin,
Acting Chief Counsel.

BILLING CODE 4910–06–P
This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Type of Review: New
Affected Public: Individuals and households, businesses and organizations, State, Local or Tribal Governments.

Estimated Number of Respondents: 6,000.
Estimated Annual Responses: 2,000.
Estimated Annual Burden Hours: 2,000 hours.
Frequency: One-time requirement.

Issued in Washington, DC, on November 3, 2015.

Patricia Lawton,
DOT Paperwork Reduction Act Clearance Officer, Office of the Chief Information Officer.

DEPARTMENT OF TRANSPORTATION
Office of the Secretary

60-Day Notice of Request for Renewal of a Previously Approved Collection

AGENCY: Office of the Secretary (OST), Department of Transportation (Department) or (DOT).

ACTION: Notice and requests for comments.

SUMMARY: The OSDBU invites public comments about our intention to request the Office of Management and Budget’s (OMB) approval to renew an information collection. The collection involves the following form with an expiration date of 2/29/2016, and is presently in use.

DATES: Please submit comments by January 12, 2016.

ADDRESSES: You may submit comments [identified by Docket No. DOT–OST–2015–0221] through one of the following methods:
• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the online instructions for submitting comments.
• Fax: 202–493–2251.
• Mail or Hand Delivery: U.S. Department of Transportation, Dockets Management Facility, 1200 New Jersey Avenue SE., West Building, Room W12–140, Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Michelle Harriss 202–366–1930 ext. 62253, Office of Small and Disadvantaged Business Utilization, Office of the Secretary, U.S. Department of Transportation, 1200 New Jersey Avenue SE., Room W56–444, Washington, DC 20590. Office hours are from 9:00 a.m. to 5:00p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:
Title: SBTRC Regional Field Offices Intake Form (DOT F 4500).
OMB Control Number: 2105–0554.
Background: In accordance with Public Law 95–507, an amendment to the Small Business Act and the Small Business Investment Act of 1953, OSDBU is responsible for the implementation and execution of DOT activities on behalf of small businesses, in accordance with Section 8, 15 and 31 of the Small Business Act (SBA), as amended. The Office of Small and Disadvantaged Business Utilization also administers the provisions of Title 49 of the United States Code, Section 332, the Minority Resource Center (MRC) which includes the duties of advocacy, outreach, and financial services on behalf of small and disadvantaged businesses and those certified under CFR 49 parts 23 and or 26 as Disadvantaged Business Enterprises (DBE).

SBTRC’s Regional Field Offices will collect information on small businesses, which includes Disadvantaged Business Enterprise (DBE), Women-Owned Small Business (WOB), Small Disadvantaged Business (SDB), 8(a), Service Disabled Veteran Owned Business (SDVOB), Veteran Owned Small Business (VOSB), HubZone, and types of services they seek from the Regional Field Offices. Services and responsibilities of the Field Offices include business analysis, general management & technical assistance and training, business counseling, outreach services/
