SUPPLEMENTARY INFORMATION:

Title: Associated Form; and OMB Number: SMART Program Documents, OMB Control Number 0704–0446.

Needs and Uses: The information collection requirement is a statutory and functional necessary to administer the SMART scholarship program. The SMART Program requires a competitive application process. All awardees must be U.S. citizens at the time of application, 18 years or older as of 1 August 2015, able to participate in summer internships at DoD laboratories, willing to accept post-graduation employment with the DoD, be a current college student in good standing with a minimum GPA of 3.0 on a 4.0 scale (as calculated by the SMART application), pursuing an undergraduate or graduate degree in one of the 19 program funded disciplines, and eligible to obtain and maintain a secret level security clearance.

Affected Public: Individuals or households.

Annual Burden Hours: 420,000.

Number of Respondents: 2,800.

Responses per Respondent: 6.

Annual Responses: 16,800.

Average Burden per Response: 25 hours.

Frequency: On occasion.

Respondents are college students or current Department of Defense (DoD) employees who provide academic information to the SMART Program Office. The application is an online form requesting academic merit, and compatibility with DoD workforce needs. The information collected consists of applications submitted by members of the general public and current DoD personnel who actively choose to become involved in SMART and thus become subject to information collection. The applications include information on academic records, community and volunteer activities, letters of recommendations from faculty and community leaders, a list of publications, work experience, certification of citizenship and personal contact information. All this information is necessary to evaluate and rank each candidate’s credentials for awarding scholarships and determining whether the candidate meets specific DoD facility workforce needs. Having qualified candidates provide academic and work force compatibility with the mission of the DoD is essential in maintaining a STEM work for DoD Laboratories.
