invite interested Federal, State, and local officials to review and comment on the draft maps for all of the CBRS units in Alabama, all units in Florida (except for one unit that was remapped in 2014), all units in Georgia, several units in Louisiana, all units in Michigan, the only unit in Minnesota, all units in Mississippi, all units in the Great Lakes region of New York, all units in Ohio, and all units in Wisconsin. The Service is specifically notifying the following stakeholders concerning the availability of the draft maps and opportunity to provide comments on the proposed boundary modifications: The Chair and Ranking Member of the House of Representatives Committee on Natural Resources; the Chair and Ranking Member of the Senate Committee on Environment and Public Works; the members of the Senate and House of Representatives for the affected areas; the Governors of the affected areas; and other appropriate Federal, State, and local officials. Federal, State, and local officials may submit written comments and accompanying data to the individual and location identified in the ADDRESSES section. We will also accept digital Geographic Information System (GIS) data files that are accompanied by written comments. Comments regarding specific units should reference the appropriate CBRS unit number and unit name. Please note that boundary modifications through this process can only be made to reflect changes that have occurred in the size or location of any CBRS unit as a result of natural forces, voluntary additions to the CBRS, or additions of excess Federal property to the CBRS (as authorized under 16 U.S.C. 3503(c)(e)); other requests for modifications through this process can be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
