

CDBG–DR funds to support tourism promotion activities, increasing the amount covered by the waiver from \$500,000 to \$1,268,300. In addition, this revised waiver permits the State to support its tourism industry and promote travel to the most impacted and distressed counties that had a declared major disaster in 2011, 2012, or 2013, including those impacted by disasters other than flooding.

Using the funds provided under the initial waiver, the State established its first CDBG–DR Tourism Marketing Grant Program and received applications requesting a total of \$787,927. Through this program, the State awarded eight grants totaling \$500,000 in CDBG–DR funding to support a variety of activities such as advertising, marketing campaigns, promotion of community and spectator events, and Web site improvements in targeted areas that had experienced a reduction in tourism revenues following the 2013 floods in Colorado. This funding fell short of meeting the tourism promotion priorities identified through the initial round of State funding by \$287,927. The State has also subsequently identified \$480,373 in additional funding opportunities for the original applicants who were constrained by the initial grant size limitation, as well as for potential new applicants made eligible through the inclusion of areas impacted by disasters other than flooding.

In support of this request, the State has conducted an analysis of retail sales that indicates that the flooding and wildfire disasters continue to negatively affect local tourism revenues. Tourism is the primary economic contributor to the State of Colorado's economy and provides a valuable source of business revenue, taxes, and employment. According to analyses provided by the State, businesses supported by tourism, including hotels, lodges, restaurants, and grocery stores, are still experiencing weakened sales revenue. Tax revenue from these businesses benefits the State's economy and provides funding for other State activities and services. In addition, this industry employs many individuals who are of low- and moderate-income; thus, this population has been inordinately affected by the decrease in tourism revenue. Some of these jobs have been lost as a result of the disasters.

Because communities are diverting disposable tax revenue to physical recovery projects, funding for tourism marketing is scarce and communities face a worsening economic cycle from which the areas cannot recover without the injection of supplemental assistance.

Therefore, the State has requested that an additional \$768,300 of its total CDBG–DR award be made eligible for such tourism promotion activities. HUD continues to support the use of CDBG–DR funds in this scenario as a recovery tool in a damaged regional economy that depends on tourism for many of its jobs and tax revenue.

As the State of Colorado is proposing to use these additional funds for advertising and marketing activities that broadly support its tourism industry, rather than direct assistance to tourism-dependent businesses, and because long-term benefit from the proposed activities must be derived using indirect means, 42 U.S.C. 5305(a) is waived only to the extent necessary to make eligible an additional \$768,300 to support tourism promotion activities. The State must award the additional \$768,300 in CDBG–DR funds competitively through its existing CDBG–DR Tourism Marketing Grant Program to public or nonprofit entities that promote travel to or within a community or communities in general, provided the assisted activities are designed to support tourism to areas most impacted and distressed by a major disaster declared in 2011, 2012, or 2013.

As an additional condition of expanding this waiver, the State must demonstrate that funds will supplement and not replace State and local funding sources for this purpose. In its request for this waiver, the State indicated that entities selected for an award also pledged nearly a one-for-one match for their projects. The State may demonstrate that CDBG–DR funds will supplement, but not replace, local funding by requiring a match, including provision for in-kind contributions, similar to the existing competitive grant program offered by the Colorado Tourism Office. However, if the State does not require a match, the State must identify another means to adequately demonstrate that funds will supplement, but not supplant, State and local resources typically dedicated to promote tourism in these impacted areas.

The additional funds provided through this waiver for the State's CDBG–DR Tourism Marketing Grant Program are subject to all requirements in the notice published on June 3, 2014 (79 FR 31964), unless otherwise modified through this notice. The funds permitted under this waiver are subject to the same obligation and expenditure deadline applicable to all funds under the Appropriations Act. Therefore, this waiver remains in effect until 2 years following HUD's obligation of the funds permitted under this waiver.

The State is reminded that this expanded waiver will allow them to add new beneficiaries described within their CDBG–DR action plans for disaster recovery. These changes would constitute substantial amendments as described in the March 5, 2013 notice (78 FR 14329), at paragraph VI.A.3.a. If applicable, the State must submit a Substantial Action Plan Amendment revising its description of its CDBG–DR Tourism Marketing Grant Program to include potential beneficiaries, and this amendment will be subject to the citizen participation requirements of the March 5, 2013, notice at VI.A.3, which requires no less than 7 calendar days to solicit public comment.
