Foreign-Trade Zones Board

[S–125–2015]

Approval of Expansion of Subzone 77E; Cummins, Inc.; Memphis, Tennessee

On August 28, 2015, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the City of Memphis, grantee of FTZ 77, requesting to expand Subzone 77E subject to the existing activation limit of FTZ 77, on behalf of Cummins, Inc. in Memphis, Tennessee.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the Federal Register inviting public comment (80 FR 54520–54521, September 10, 2015). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval. Pursuant to the authority delegated to the FTZ Board’s Executive Secretary (15 CFR Sec. 400.36(f)), the application to expand Subzone 77E is approved, subject to the FTZ Act and the Board’s regulations, including Section 400.13, and further subject to FTZ 77’s 2,000-acre activation limit.

Dated: November 13, 2015.

Elizabeth Whiteman,
Acting Executive Secretary.

Foreign-Trade Zones Board

[B–77–2015]

Foreign-Trade Zone 78—Nashville, Tennessee; Application for Expansion of Subzone 78A Nissan North America, Inc. Smyrna, Tennessee

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Metropolitan Government of Nashville and Davidson County, grantee of FTZ 78, requesting to expand Subzone 78A—Site 1 at the facility of Nissan North America, Inc., located in Smyrna, Tennessee. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on November 12, 2015.

Subzone 78A was approved on April 2, 1982 (Board Order 190, 47 FR 16191, April 15, 1982) and expanded on March 18, 1993 (Board Order 632, 58 FR 18050, March 30, 1993). The subzone currently consists of two sites: Site 1 (1,004 acres) located at 983 Nissan Drive, Smyrna; and, Site 2 (958 acres) located at 520 Nissan Powertrain Drive, Decherd.

The applicant is requesting authority to expand Site 1 of the subzone to include 22 additional acres adjacent to the present Site 1. No authorization for additional production activity has been requested at this time.

In accordance with the FTZ Board’s regulations, Kathleen Boyce of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is December 29, 2015. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 13, 2016.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Kathleen Boyce at Kathleen.Boyce@trade.gov or (202) 482–1346.

Dated: November 12, 2015.

Elizabeth Whiteman,
Acting Executive Secretary.

BILLING CODE 3510–09–P
polymer plastics; polycarbonate windows; shims of polyester plastics; Teflon wraps and pads; protection and insulation pads of polyurethane plastics; wipes of polyurethane plastics; plastic templates for facilities layout; plastic film sheets and foam strips for packaging; plastic boxes and crates; reservoirs and tanks of plastics principally in the form of polypropylenes and fluoropolymers; plastic caps; plastic packing materials; plastic o-rings, gaskets, washers, seals, and timing belts; plastic clips and similar attaching devices; plastic tinting lenses; plastic bushings; plastic hole plugs; plastic screws, pins, and similar fasteners; plastic brackets and mounts; plastic wafer clamps; plastic parts not otherwise identified in the HTSUS*; unreinforced rubber tubing with fittings; reinforced rubber tubing with/without fittings; transmission belts; rubber gaskets, washers and seals; rubber caps; rubber sheets, grommets, bladders, collars and parts not otherwise identified in the HTSUS*; wooden crates for packing: paper labels; gaskets, washers and other seals of paper; technical manuals, procedures, and work instructions; certificates, brochures, other work documents other than manuals; duct tape; nonelectrical components and accessories of graphite and carbon fiber made predominantly in the form of fiber plate disks or grafoil liner “choke” rings*; porcelain or china ceramic machinery components, rings, disks, RF “window” disks, plates, liners, shields, guards, end effectors, plugs, screws, components and accessories*; ceramic components, rings, RF “window” disks, plates, guards, end effectors, plugs, and screws*; quartz reactor tubes; fused silica and fused quartz components, disks, windows, liners, rings, tubes, holders, and funnels*; sapphire pins, balls, shims, windows/viewports, liners, tubes, components and accessories*; steel pipes; cast steel fittings; stainless flanges; stainless steel pipes- sleeves; stainless steel pipes- elbows; stainless steel, not cast, fittings for tubes and pipes; other steel fittings; steel roller chains; steel link chains; steel chain links; steel screws- springs; steel socket head screws; steel grub screws; steel nuts; other threaded steel fasteners; steel spring washers; iron or steel washers other than spring washers; steel retaining rings; steel fasteners without threads; steel springs; steel gas springs, wave springs, and plunger springs; compression springs; bolts and inserts of steel; bushings, bushings, nuts, inserts, and plates, bolts, nuts, washers, bolts, nuts, inserts, and plates; saw blades; pliers; knockout punches and hose cutters; hand-operated adjustable-flat spanners and torque wrenches; hand-operated adjustable spanners and wrenches—other; socket wrenches; drills; screwdrivers; other hand tools; extraction tools, debar tools, and epoxy removal tips, and install tools; grease guns; metal clamps; manual drills; drill bits; padlocks; locks other than padlocks; keys; hinges and parts; casters; metal fittings of a type for buildings; metal fittings of a type for furniture; iron/steel/aluminum/zinc mountings, fittings, straps, clamps, brackets, levelers, struts and valves; base metal brackets; braided steel tubing and hoses; braided metal tubing; air cylinders and other pneumatic power engines; pneumatic power engines other than linear acting; shock absorbers; parts for pneumatic engines; diaphragm pumps for liquids and gases; centrifugal pumps for liquids and gases; syringe and other pumps; parts of centrifugal pumps; vacuum pumps; fans; parts of fans- metal wires, pump actuators; heat exchange units; evaporators for use in semiconductor manufacturing equipment; heaters for use in semiconductor manufacturing equipment; parts of heat exchange units; parts of heaters; water filters; liquid filtration devices; air and other gas filtration devices; filter parts; chemical applicators; nozzles and orifices; lift and handling fixtures; housing bearings and plain shaft bearings; computer laptops; computers; keyboards and computer peripherals; hard disk drives and optical drives; hubs; interface and input/output cards and similar interface articles; “dongles”: Peripheral pieces of hardware intended to interface with a computer to enable additional functions such as copy protection or authentication; optical readers; printed circuit assemblies; teaching pendants and terminals; valves (pressure) reducers, check valves, safety, solenoid, liquid control, electric, pneumatic, bellows, butterfly, ball and vacuum); other manual valves of steel; vacuum and other manual valves of fluorocarbons, polyethers, and polyvinyl chloride; valve parts; bearings (ball, roller, bearing rings, transmission shaft, roller, housing, and plain shaft); fixed, multiple and variable ration speed changers, ball or roller screws; pulleys; shaft couplings; gear parts made of steel; mechanical gaskets; mechanical seals; gaskets sets; machines for the production of semiconductor; tools and process modules for chemical vapor deposition/physical vapor deposition/plasma dry etch/stripping of photo resist/ultraviolet thermal processing/wafer cleaning for semiconductor production; conductor material deposition process modules and machines for wafer packaging; transport modules; wafer transport robots; baffles, bellowes, bezels, wafer chuck related parts designed specifically for semiconductor manufacturing equipment; complex elements in the form of tubing for distribution of gases and fluids and pneumatic harnesses, designed specifically for semiconductor manufacturing equipment; radio frequency and high frequency electrodes and related parts; drive units for process modules gap management; structural elements designed specifically for semiconductor manufacturing equipment and transport modules; fluid and gas distribution modules and assemblies and structural parts and components designed for these modules; printed circuit board assemblies and control assemblies for system management or signal interface and distribution; metal and plastic (including silicon) parts designed for semiconductor manufacturing equipment and transport modules; plasma sources for semiconductor manufacturing equipment; silicon rings; radio frequency and high frequency coils and electrodes and related parts designed specifically for semiconductor manufacturing equipment for plasma generation; radio frequency generators and related structural components designed specifically for semiconductor manufacturing equipment; radio frequency matching networks and related structural; metal and plastic (including silicon) parts designed for semiconductor transport equipment; fluid management tanks; mechanical brakes; electric motors; universal AC/DC motors; lamp ballasts; electrical transformers; power suppliers; static converters; Inductors; parts of power supplies; magnetes; inductors; manganese dioxide batteries; lithium batteries; portable electric lamps;
resistive heating elements; network equipment; training videos on tape; unrecorded magnetic media; software on CD–ROM or similar optical storage units; video cameras; LCD computer; general use motors; LED indicators; electric sound or visual signaling apparatus; tantalum fixed capacitors; single layer ceramic dielectric fixed capacitors; multi-layer ceramic dielectric fixed capacitors; fixed electrical capacitors; variable or adjustable capacitors; composition or film type fixed carbon resistors and attenuators; other resistors; other fixed carbon resistors and attenuators; potentiometers; electrical variable resistors other than other potentiometers; raw circuit boards; ion bars; fuses made of glass and other materials with both high and low amps; circuit breakers; electromechanical relays; switches; lamp holders and contacts; terminals and connectors; connectors—assemblies, converters, receptacle panels, interlock converters, electrical ducts and lock-outs; electrical terminals and terminal blocks; conduit assemblies, backshells, buses, and similar connectors; control apparatus—assemblies, couplers, cards, valve cards, drivers, load ports, terminal boards, programmable controllers, and motion controllers; connector sockets; tungsten lamps; fluorescent lamps; arc lamps; ultra violet lamps; parts of electrical analysis systems; parts of gas analysis systems; sensors; PH analysis sensors, spectrometers; optical temperature sensors; PH analysis sensors, controllers, probes and complete systems; parts of gas analysis systems; spectrometers and tachometers; power analyzers principally in the form of voltage detectors, probes, monitors and measurement cards; test fixtures and similar electrical analysis systems; wafer measurement equipment; leak detectors; parts of equipment used for checking electrical quantities; equipment for inspecting semiconductor wafers; optical inspection equipment; measuring equipment associated with semiconductor production; panels, frames, boards, blocks, doors, jigs, shafts, sides, and structural bases for test fixtures and electrical analysis systems; automatic thermostats and temperature control equipment; automatic manostats; vapor on demand injectors; process control equipment, (temperature controllers, pressure controllers, liquid controllers, mass flow controllers, pump controllers, and similar process control equipment); temperature controller parts; time switches, time relays and other timers; carts and racks for servers; and brushes (duty rates range from free to 10.7%).

*See Lam’s production notification for additional descriptions of these products.*

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is December 29, 2015.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Diane Finver at Diane.Finver@trade.gov or (202) 482–1367.

Dated: November 13, 2015.

Elizabeth Whiteman, Acting Executive Secretary.

National Oceanic and Atmospheric Administration

RIN 0648–XE324

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council (Council) will hold a four-day meeting.

DATES: The meeting will be held on Monday, Tuesday, Wednesday, and Thursday, December 7–10, 2015, starting at 9:30 a.m. on Monday, 8:30 a.m. on Tuesday, 9 a.m. on Wednesday, and 8 a.m. on Thursday.

ADDRESSES: On Monday, December 7, the meeting will be held at O’Callaghan Hotel, 174 West Street, Annapolis, MD 21401; telephone: (410) 263–7700 and on Tuesday, Wednesday, and Thursday, December 8–10 at the Westin Annapolis, 100 Westgate Circle, Annapolis, MD 21401; telephone: (410) 972–4300.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331 or on their Web site at www.mafmfc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION:

Agenda

Monday, December 7, 2015

In the morning session the Executive Committee will meet in closed session to review nominees for the Ricks E Savage Award and other awards. The Council will review and approve the Comprehensive 5-year Research Priority Plan. The Council will also review and approve policies regarding non-fishing activities that impact fish habitat.

During the afternoon session, Golden Tilefish Framework 2 will be discussed. The Council will review the public hearing document for Blueline Tilefish. The Council will review the findings from the Scientific and Statistical Committee and adjust specification recommendations for Spiny Dogfish Committee Meeting as a committee of the whole.
