

will be \$500 per site/per day. This is an existing value that has been applied historically at national marine sanctuaries for this activity.

III. Waiver or Reduction of Fees

NOAA may accept in-kind contributions in lieu of a fee, or waive or reduce any fee assessed for any activity that does not derive profit from the access to or use of sanctuary resources. NOAA may consider the benefits of the activity to support the goals and objectives of the sanctuary as an in-kind contribution in lieu of a fee.

IV. Response to Comments

Comment: One commenter supported NOAA's intent to assess and collect fees associated with special use permits and proposed that NOAA should require a larger range of for-profit operators to pay fees for the use of sanctuary resources.

Response: While NOAA appreciates the public support for the use of this authority in protecting sanctuary resources, the suggestion to collect fees for activities which currently do not require a special use permit is not within the scope of this action.

V. Classification

A. National Environmental Policy Act

NOAA has concluded that this action will not have a significant effect, individually or cumulatively, on the human environment. This action is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement in accordance with Section 6.03c3(i) of NOAA Administrative Order 216-6. Specifically, this action is a notice of an administrative and legal nature. Furthermore, individual permit actions by NOAA will be subject to additional case-by-case analysis, as required under NEPA, which will be completed as new permit applications are submitted for specific projects and activities.

NOAA also expects that many of these individual actions will also meet the criteria of one or more of the categorical exclusions described in NOAA Administrative Order 216-6 because SUPs cannot be issued for activities that are expected to result in any destruction of, injury to, or loss of any sanctuary resource. However, the SUP authority may at times be used to allow activities that may meet the Council on Environmental Quality's definition of the term "significant" despite the lack of apparent environmental impacts. In addition, NOAA may, in certain circumstances, combine its SUP authority with other regulatory

authorities to allow activities not described above that may result in environmental impacts and thus require the preparation of an environmental assessment or environmental impact statement. In these situations NOAA will ensure that the appropriate NEPA documentation is prepared prior to taking final action on a permit or making any irretrievable or irreversible commitment of agency resources.

B. Paperwork Reduction Act

Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, unless that collection of information displays a currently valid Office of Management and Budget (OMB) control number. Applications for the SUPs discussed in this notice involve a collection-of information requirement subject to the requirements of the PRA. OMB has approved this collection-of-information requirement under OMB control number 0648-0141.
