SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Special Nutrition Programs Quick Response Surveys (SNP QRS).

Form Number: N/A.

OMB Number: 0584-NEW.

Expiration Date: Not Yet Determined.

Type of Request: New Generic Collection.

Abstract: The Food and Nutrition Service (FNS) intends to request approval from the Office of Management and Budget (OMB) for a generic clearance that will allow FNS to conduct short quick turnaround surveys of State, Local and Tribal agencies that receive food, funds and nutrition information through the Child Nutrition and Supplemental Nutrition and Safety Programs.

These programs include the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), National School Lunch Program (NSLP), School Breakfast Program (SBP), Special Milk Program (SMP), Fresh Fruit and Vegetable Program (FFVP), Summer Food Service Program (SFSP), the Child and Adult Care Food Program (CACFP), and the Food Distribution Programs. WIC provides Federal grants to States for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk. NSLP is a federally assisted meal program operating in approximately 100,000 public and non-profit private schools and residential childcare institutions. School districts that participate in NSLP receive cash subsidies and donated commodities from USDA for each meal they serve. SBP is also a federally assisted meal program operating in over 89,000 public and nonprofit private schools and residential childcare institutions. FFVP provides free fresh fruits and vegetables to students in participating elementary schools during the school day. The fresh fruits and vegetables are provided separately from the lunch or breakfast meal, in one or more areas of the school. When school is not in session, the SFSP provides meals to all children under 19 years of age at approved SFSP sites in areas with significant concentrations of low-income children. CACFP subsidizes nutritious meals and snacks served to children and adults in participating day care facilities. Meals also are provided to children in emergency shelters and eligible after school programs. The Food Distribution Programs include the Commodity Supplemental Food Program (CSFP), the Food Distribution

Program on Indian Reservations (FDPIR), and The Emergency Food Assistance Program (TEFAP). CSFP provides nutritious USDA commodity foods and administrative funds to supplement the diets of low-income seniors at least 60 years of age.¹ FDPIR provides USDA commodity foods to low-income households, including the elderly living on Indian reservations, and to Native American families residing in designated areas near reservations. TEFAP provides USDA commodity foods and administrative funds to States, which then provide the food to local agencies that they have selected, usually food banks, which then distribute the food to soup kitchens and food pantries that directly serve the public.

The Healthy Hunger-Free Kids Act of 2010 (Pub. L. 111-296, Sec. 305) mandates programs under its authorization to cooperate with USDA program research and evaluation activities. Traditionally, FNS conducts program-specific large studies to collect information on numerous features of each program. Such studies often take several years to complete. The Quick Response Surveys provide a system for rapidly collecting current information on a specific feature or issue, and, therefore, enable FNS to administer the programs more effectively.

Following standard OMB requirements, FNS will submit a change request to OMB for each data collection activity undertaken under this generic clearance. The respondents will be identified at the time that each change request is submitted to OMB. FNS will provide OMB with the instruments and supporting materials describing the research project and specific pre-testing activities.

Affected Public: Respondent categories of affected public and the corresponding study participants will include: State, local and Tribal agencies. Respondents will include: (1) State Program Directors including WIC State agency directors, WIC State nutrition education and breastfeeding coordinators, directors of the Child Nutrition programs (NSLP/SBP, FFVP), directors of SFSP and CACFP, directors of State Distributing agencies (CSFP, TEFAP) and Indian Tribal Organization contacts for FDPIR; (2) Local-level

¹ CSFP originally included supplemental foods for pregnant, breastfeeding, and postpartum women, infants, and children, but changes in the program turned the focus towards low-income adults age 60 and older. Women, infants and children who were certified as of February 6, 2014, may continue receiving CSFP benefits until they are no longer eligible under the program rules that existed in 2014.

program administrators including School Food Authorities, Local Education Agencies, Schools, Local WIC Agencies and Sites, SFSP Sponsors and Sites, TEFAP Eligible Recipient Agencies (ERAs), TEFAP Emergency

Food Organizations (EFOs), and CACFP Sponsors and Providers.

Number of Respondents: 21,023 annually.

Frequency of Responses: 1.98 times per year.

Average Burden Hours per Response: 0.28 hours.

Total Annual Burden Hours: 11,597 hours. See the table below for estimated total annual burden for each type of respondent.
