Antidumping/Countervailing Duty (AD/CVD) Foreign Government Export License: Uranium products from Russia; AD/CVD Foreign Government Export Certificate: Uranium products from Russia; AD/CVD Declaration of Intent to Re-Export: Uranium products from Russia; AD/CVD Processor Certification: Uranium Products from Russia; AD/CVD End-User Certification: Uranium products from Russia; AD/CVD Purchase and/or Delivery Order: Uranium products from Russia; AD/CVD Origin Certification: Uranium products from any country including Russia; and AD/CVD Anticircumvention Certification: Uranium products from any country including Russia. All documentation required for entries of Russian uranium products must still be timely filed with Commerce, in accordance with the Suspension Agreement’s requirements, through ACCESS, E&c’s electronic filing system.

IV. Test Participation Criteria and Participation Procedure

Any party seeking to participate in this test must provide CBP, in their request to participate, their file code and the port(s) at which they are interested in filing the appropriate DIS information. Requests to participate in this test will be accepted throughout the duration of the test. To be eligible to apply for this test, the applicant must be a self-filing importer or broker who has the ability to file entries in ACE. All test participants are required to use a software program that has completed ACE certification testing for DIS. Applicants will be notified of their acceptance into the test and of the date they may begin participation.

V. Anticipated Process Changes

For participants accepted into the test, the current paper process for the submission to CBP of documentation for shipments of Russian uranium products subject to the Suspension Agreement will be replaced by the submission of scanned document images through DIS. Entry data submissions will be subject to validation edits and any applicable PGA business rules programmed into ACE. Once entry data has cleared the initial stage of validation edits and PGA business rules, the filer will receive messages as to the status of the shipment from the time of entry data submission until the time of release. Once all of the PGAs have concluded their review of the shipment and have unset any remaining holds, CBP will send a “One U.S.C.” release message to the filer to indicate that the filer has fulfilled all U.S. Government filing requirements at the port of entry for the shipment. Filers should note, however, that the filing of documentation with CBP through DIS does not replace the separate filing requirements with Commerce pursuant to the Suspension Agreement’s requirements, as noted above.

VI. Confidentiality

All data submitted and entered into ACE is subject to the Trade Secrets Act (18 U.S.C. 1905) and is considered confidential information to the extent as otherwise provided by law. Participation in ACE tests is not confidential, and a name(s) of an approved participant(s) may be disclosed by CBP.

Dated: November 12, 2015.

Paul Piquado,
Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE
Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Institute of Standards and Technology.
Title: NIST Generic Clearance for Usability Data Collections.
OMB Control Number: 0693–0043.
Form Number(s): None.
Type of Request: Regular Submission.
Number of Respondents: 8,500.
Average Hours per Response: Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire may be 15 minutes or 2 hours to participate in an empirical study.
Burden Hours: 5,000 Hours.

Summary: NIST will conduct information collections of usability data involving usage of technological devices (such as Web sites, handheld computers, cell phones, and robots.) This information will enable NIST researchers to study human-computer interactions and help establish guidelines and standards for more effective and efficient interactions.

Affected Public: Individually or households; State, Local or Tribal Government; Federal Government.
Frequency: On occasion.
Respondent’s Obligation: Voluntary.

Authorization for this information collection is being requested for a period of 1 year. NMFS is also requesting comments, information, and suggestions concerning NIST’s application and the structure and content of future regulations.
