SUPPLEMENTARY INFORMATION: The BLM developed this Draft EIS to address a NEPA defect identified by the IBLA related to the issuance of the oil and gas leases on WRNF lands from 1995 to 2004. In 2007, the Interior Board of Land Appeals (IBLA) ruled that before including WRNF parcels in an oil and gas lease sale, the BLM must either formally adopt NEPA analysis completed by the U.S. Forest Service (USFS) or conduct a NEPA analysis of its own (Board of Commissioners of Pitkin County, 173 IBLA 173 (2007)). The BLM has identified 65 existing leases with effective dates ranging from 1995 to 2012 that were leased by the BLM without adopting USFS NEPA or without the BLM preparing its own NEPA analysis. The most recent USFS decision to make these lands available for oil and gas leasing was analyzed in the 1993 WRNF Oil and Gas Leasing EIS, a decision that was reaffirmed in the 2002 WRNF Plan. Before offering and subsequently issuing the leases at issue in an oil and gas lease sale, the BLM obtained concurrence from the USFS; however, as noted above, it did not adopt the USFS's NEPA analysis or prepare its own. As a result, the BLM has determined additional actions need to be taken to correct this defect. Because the BLM has determined that the WRNF NEPA analysis conducted is no longer adequate, the BLM is conducting its own NEPA analysis through this EIS regarding previous decisions to lease WRNF lands for oil and gas development.

The BLM will determine whether these 65 leases should be cancelled, reaffirmed, or modified with additional or different terms. Under a separate effort, the WRNF updated its 1993 Oil and Gas Leasing EIS to address future oil and gas leasing availability. The USFS released the Final EIS and Draft Record of Decision in December 2014. The BLM incorporated as much of the new USFS NEPA analysis of future oil and gas leasing on WRNF lands as possible into its analysis of existing leases.

Five alternatives are considered in the BLM's Draft EIS. The No Action alternative reaffirms the lease stipulations in the 65 leases as they were issued; the BLM would take no action by continuing to administer the leases with their current stipulations.

Alternative 2 would address inconsistencies by adding stipulations identified in the 1993 WRNF EIS that were not attached to eight leases. Alternative 3 would modify the 65 leases to match the stipulations identified for future leasing in the 2014 USFS Final EIS Proposed Action. Alternative 4 is the BLM's Proposed Action. It would modify or cancel the 65 leases to match the stipulations and availability decision for future leasing identified in the 2014 USFS Draft Record of Decision. In areas the USFS identified as open to future leasing, lease stipulations would be modified; all or part of 25 existing leases in areas identified as closed to future leasing would be cancelled. Alternative 5 would cancel all 65 leases.

The BLM developed this range of alternatives to respond to public comments received during public scoping and input from cooperating agencies. The BLM held a public scoping period from April 1 to May 16, 2014, and received more than 32,000 public comments. The BLM held four public meetings during the scoping period. Since the end of the public scoping period, the BLM worked with cooperating agencies (including the EPA; USFS; the Colorado Department of Natural Resources including Colorado Parks and Wildlife; Garfield, Mesa, Pitkin, and Rio Blanco counties; the Town of Carbondale; the City of Glenwood Springs; the Town of New Castle; the Town of Parachute; the City of Rifle; and the town of Silt) to prepare the Draft EIS.

Please note that public comments and information submitted including names, street addresses and email addresses of persons who submit comments will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-548 and 731-TA-1298 (Preliminary)]

Welded Stainless Steel Pressure Pipe From India

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of welded stainless steel pressure pipe from India, provided for in subheadings 7306.40.50 and 7306.40.10 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”), and are allegedly subsidized by the government of India.

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission’s rules, upon notice from the Department of Commerce

(“Commerce”) of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On September 30, 2015, Bristol Metals, LLC, Bristol, Tennessee; Felker Brothers Corp., Marshfield, Wisconsin; Marcegaglia USA, Munhall, Pennsylvania; and Outokumpu Stainless USA LLC, Inc., Wildwood, Florida filed a petition with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV and subsidized imports of welded stainless steel pressure pipe from India. Accordingly, effective September 30, 2015, the Commission, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No. 701-TA-548 and antidumping duty investigation No. 731-TA-1298 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 7, 2015 (80 FR 60715). The conference was held in Washington, DC, on October 21, 2015, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on November 16, 2015. The views of the Commission are contained in USITC Publication 4582 (November 2015),

entitled *Welded Stainless Steel Pressure Pipe from India: Investigation Nos. 701-TA-548 and 731-TA-1298 (Preliminary)*.

By order of the Commission.

Issued: November 16, 2015.

Lisa R. Barton,

Secretary to the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-972]

Certain Automated Teller Machines, ATM Modules, Components Thereof, and Products Containing the Same; Institution of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on October 19, 2015, under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, on behalf of Diebold, Incorporated of North Canton, Ohio and Diebold Self-Service Systems of North Canton, Ohio. A supplement to the complaint was filed November 6, 2015. The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain automated teller machines, ATM modules, components thereof, and products containing the same by reason of infringement of certain claims of U.S. Patent No. 6,082,616 (“the ‘616 Patent’”); U.S. Patent No. 7,121,461 (“the ‘461 Patent’”); U.S. Patent No. 7,229,010 (“the ‘010 Patent’”); U.S. Patent No. 7,249,761 (“the ‘761 Patent’”); U.S. Patent No. 7,314,163 (“the ‘163 Patent’”); and U.S. Patent No. 7,832,631 (“the ‘631 Patent’”). The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337.

The complainants request that the Commission institute an investigation and, after the investigation, issue a limited exclusion order and cease and desist orders.

ADDRESSES: The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Room 112, Washington, DC 20436, telephone
