Description: The Interim Final Rule on Statutory Exemption for Cross-Trading of Securities implements the content requirements for the written cross-trading policies and procedures required under section 408(b)(19)(H) of ERISA, as added by section 611(g) of the Pension Protection Act of 2006, Public Law 109–280 (PPA). Section 611(g)(1) of the PPA created a new statutory exemption, added to section 408(b) of ERISA as subsection 408(b)(19), that exempts from the prohibitions of sections 406(a)(1)(A) and 406(b)(2) of ERISA those cross-trading transactions involving the purchase and sale of a security between an account holding assets of a pension plan and any other account managed by the same investment manager, provided that certain conditions are satisfied. Section 611(g)(3) of the PPA further directed the Secretary to issue regulations, within 180 days after enactment, regarding the content of the policies and procedures to be adopted by an investment manager to satisfy the conditions of the new statutory exemption.

The Department issued a final cross-trading regulation on October 7, 2008. The recordkeeping requirement in the regulation constitutes an information collection within the meaning of the PRA, for which the Department has obtained approval from OMB under control number 1210–0145, on July 26, 2013. The current approval will expire on July 31, 2016.

II. Focus of Comments

The Department is particularly interested in comments that:

- Evaluate whether the collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the collections of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., by permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or included in the ICRs for OMB approval of the extension of the information collection; they will also become a matter of public record.
