Share for the Trusts and their respective NAVs, do commenters agree with the Exchange’s assertions? Have commenters observed any problems with respect to the trading or valuation of FXE or FXY? For example, do commenters believe that the markets for these products closely track the underlying values of their portfolios?  

7. Have commenters observed the Strategy being employed with respect to FXE or FXY, and if so, have commenters observed any deleterious effects of the Strategy?  

8. The Exchange asserts that the Strategy is not available with asset classes other than exchange-traded products. Do commenters agree with this assertion? If commenters believe that the Strategy is available for exchange-traded products, do commenters believe that certain exchange-traded products or types of exchange-traded products are more susceptible to the Strategy than others? For example, would an exchange-traded product be susceptible to Management Fee Decay if the returns on its portfolio exceeded its management fee? Does the nature of the assets held by an exchange-traded product affect its vulnerability to the alleged Strategy?  

9. The Exchange states that the sponsor represents that, “because of large outstanding short positions in the shares . . . it is difficult to borrow shares, particularly for market participants that are not Authorized Participants that are seeking to engage in short selling for trading strategies other than the Strategy.” What are commenters’ views of these assertions?  

10. What are the prevailing securities lending rates that commenters have observed for shares of FXE and FXY? Do commenters have a view regarding whether the Strategy is viable under these observed securities lending rates?  

11. The Exchange states that, according to the sponsor, “the ETF Loan Fee is not expected to negatively affect short selling generally, but rather only affect certain types of short selling activities conducted by certain market participants (namely the Strategy) at the expense of long investors.” What are commenters’ views concerning this assertion? For example, what are commenters’ views about the effect of the proposed rule change on investors who wish to express a bearish view on either the euro or the yen, or to hedge a long position in euros or yen, by holding a short position in shares of the Trusts over some period of time?  

12. The proposal would prohibit any holder of the Shares from lending its shares or from entering into an agreement to repurchase the shares unless the holder (a) self-reports to an agent of the sponsor of the Trusts and (b) remits a fee to that agent equal to the sponsor’s management fee. What are commenters’ views regarding the policy implications of permitting an issuer of securities to place such restrictions on the transfer of shares that it has issued in a public offering and that are listed and traded on a national securities exchange? In particular, are such restrictions consistent with Sections 6(b)(5) and 6(b)(8) of the Act? What are commenters’ views on whether a fee based on self-reporting of lending or repurchase activity can be administered in a manner consistent with Section 6(b)(5) of the Act?

AGENCY: Securities and Exchange Commission (“Commission”).

ACTION: Notice of an application under Section 6(c) of the Investment Company Act of 1940 (“Act”) for an exemption from Section 15(a) of the Act and Rule 18f–2 under the Act, as well as from certain disclosure requirements in Rule 20a–1 under the Act, Item 19(a)(3) of Form N–1A, Items 22(c)(1)(i)(ii), 22(c)(1)(i)(iii), 22(c)(8) and 22(c)(9) of Schedule 14A under the Securities Exchange Act of 1934, and Sections 6–07(2)(a), (b), and (c) of Regulation S–X (“Disclosure Requirements”). The requested exemption would permit an investment adviser to hire and replace certain sub-advisers without shareholder approval and grant relief from the Disclosure Requirements as they relate to fees paid to the sub-advisers.
