Uncovered Innerspring Units from the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On October 23, 2015, the Department of Commerce (“the Department”) published the affirmative preliminary determination of circumvention of the antidumping duty order on uncovered innerspring units (“innerspring units”) from the People's Republic of China (“PRC”).¹ The Department invited interested parties to comment on the *Preliminary Determination*. No parties commented. Accordingly, our *Preliminary Determination* remains unchanged in this final determination.

DATES: *Effective Date:* November 30, 2015.

FOR FURTHER INFORMATION CONTACT: Susan Pulongbarit, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4031.

SUPPLEMENTARY INFORMATION:**Background**

On October 23, 2015, the Department published the *Preliminary Determination* finding that innerspring units completed or assembled in Malaysia by Goldon Bedding Manufacturing Sdn. Bhd. (“Goldon”) using components from the PRC, and exported to the United States, are circumventing the antidumping duty order on innerspring units from the PRC,² as provided in section 781(b) of the Tariff Act of 1930, as amended (“the Act”). We invited interested parties to comment on the *Preliminary Determination*, but no comments were received.

Scope of the Antidumping Duty Order

The merchandise subject to the order is uncovered innerspring units composed of a series of individual metal

springs joined together in sizes corresponding to the sizes of adult mattresses (e.g., twin, twin long, full, full long, queen, California king, and king) and units used in smaller constructions, such as crib and youth mattresses. All uncovered innerspring units are included in the scope regardless of width and length. Included within this definition are innersprings typically ranging from 30.5 inches to 76 inches in width and 68 inches to 84 inches in length. Innersprings for crib mattresses typically range from 25 inches to 27 inches in width and 50 inches to 52 inches in length.

Uncovered innerspring units are suitable for use as the innerspring component in the manufacture of innerspring mattresses, including mattresses that incorporate a foam encasement around the innerspring. Pocketed and non-pocketed innerspring units are included in this definition. Non-pocketed innersprings are typically joined together with helical wire and border rods. Non-pocketed innersprings are included in this definition regardless of whether they have border rods attached to the perimeter of the innerspring. Pocketed innersprings are individual coils covered by a “pocket” or “sock” of a nonwoven synthetic material or woven material and then glued together in a linear fashion.

Uncovered innersprings are classified under subheading 9404.29.9010 and have also been classified under subheadings 9404.10.0000, 7326.20.0070, 7320.20.5010, or 7320.90.5010 of the Harmonized Tariff Schedule of the United States (“HTSUS”). The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope of the order is dispositive.

Scope of the Anticircumvention Inquiry

The products covered by this inquiry are innerspring units, as described above, that are manufactured in Malaysia by Goldon with PRC-origin components and other direct materials, such as helical wires, and that are subsequently exported from Malaysia to the United States.

Final Determination

In the *Preliminary Determination*, the Department found, on the basis of adverse facts available, that innerspring units completed and assembled in Malaysia by Goldon using components from the PRC and exported from Malaysia to the United States are circumventing the *PRC Innerspring*

Units Order,³ pursuant to section 781(b) of the Act. Moreover, because we are unable to distinguish between those innerspring units Goldon is exporting to the United States which contain PRC-origin components and those that do not, the Department preliminarily determined that it is appropriate to instruct U.S. Customs and Border Protection (“CBP”) to suspend liquidation of all entries of innerspring units produced in and/or exported from Malaysia by Goldon as subject to the *PRC Innerspring Units Order*.⁴

Because no party provided any additional information or comments regarding our *Preliminary Determination*, our final determination remains unchanged from our *Preliminary Determination*. Accordingly, the Department continues to determine that Goldon's merchandise is circumventing the *PRC Innerspring Units Order* within the meaning of section 781(b) of the Act and that it is appropriate to continue to instruct CBP to suspend all entries of innerspring units from Malaysia produced by Goldon. If Goldon would like to be reviewed under the *PRC Innerspring Units Order*, it must request a review of its exports. In such a review, the Department would determine Goldon's antidumping margin. Should the Department conduct an administrative review, and determine in the context of that review that Goldon did not produce for export innerspring units using PRC-origin innerspring components, the Department will consider initiating a changed circumstances review pursuant to section 751(b) of the Act to determine if the continued suspension of all innerspring units produced by Goldon is warranted.

Continuation of Suspension of Liquidation

In accordance with section 781(b) of the Act and 19 CFR 351.225(1)(3), the Department will continue to direct CBP to suspend liquidation and to require a

cash deposit of estimated duties at the rate applicable to the exporter on all unliquidated entries of innerspring units from produced in and/or exported from Malaysia by Goldon that were entered, or withdrawn from warehouse, for consumption on or after December 22, 2014, the date of initiation of the anticircumvention inquiry.⁵

Notice to Parties

This notice serves as the only reminder to parties subject to the administrative protective order (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This final affirmative circumvention determination is published in accordance with section 781(b) of the Act and 19 CFR 351.225(h).

Dated: November 20, 2015.

Brass Sheet and Strip From Italy; Preliminary Results of Antidumping Duty Administrative Review; 2014–2015

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on brass sheet and strip (BSS) from Italy.¹ This review covers one company. The period of review (POR) is March 1, 2014, through February 28, 2015.

DATES: *Effective Date:* November 30, 2015.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The merchandise subject to the antidumping duty order is brass sheet and strip, other than leaded brass and tin brass sheet and strip, from Italy, which is currently classified under subheading 7409.21.00.50, 7409.21.00.75, 7409.21.00.90, 7409.29.00.50, 7409.29.00.75, and 7409.29.00.90 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS numbers are provided for convenience and customs purposes. A full description of the scope of the order is contained in the Preliminary Decision Memorandum.² The written description is dispositive.

The Preliminary Decision Memorandum is a public document and is on file electronically *via* Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the Internet at <http://enforcement.trade.gov/frn/index.html>. A list of the topics discussed in the Preliminary Decision Memorandum is attached as an Appendix to this notice.

Methodology

In accordance with sections 776(a) and (b) of the Tariff Act of 1930, as amended (the Act), we relied on facts available with an adverse inference with respect to KME Italy SpA (KME Italy), the only company for which a review was requested. Thus, we preliminarily assign a rate of 22.00 percent as the dumping margin for KME Italy. In making these findings, we relied on facts available because KME Italy failed to respond to the Department’s antidumping duty questionnaire, and

² See Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, “Decision Memorandum for Preliminary Results of the 2014–2015 Antidumping Duty Administrative Review: Brass Sheet and Strip from Italy” (Preliminary Decision Memorandum), dated concurrently with this notice.

thus withheld requested information, failed to provide requested information by the established deadlines, and significantly impeded this proceeding. See sections 776(a)(2)(A)–(C) of the Act. Furthermore, because we preliminarily determine that KME Italy failed to cooperate by not acting to the best of its ability to comply with the Department’s requests for information, we drew an adverse inference in selecting from among the facts otherwise available. See section 776(b) of the Act.

For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum.

Preliminary Results of Review

As a result of our review, we preliminarily determine that the following dumping margin on BSS from Italy exists for the period March 1, 2014, through February 28, 2015:

Exporter/Manufacturer	Dumping margin (percent)
KME Italy SpA	22.00 percent
