

all materials in the record concerning CSA's recognition.

II. Final Decision and Order

OSHA staff examined CSA's expansion application, its capability to meet the requirements of the test

standards, and other pertinent information. Based on its review of this evidence, OSHA finds that CSA meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the specified limitation and conditions listed below. OSHA, therefore, is

proceeding with this final notice to grant CSA's scope of recognition. OSHA limits the expansion of CSA's recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1 below.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN CSA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 1004-1	Standard for Rotating Electrical Machines—General Requirements.
AAMI ES 60601-1: 2005/(R) 2012	Medical Electrical Equipment, Part 1: General Requirements for Basic Safety and Essential Performance.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, an NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, CSA must abide by the following conditions of the recognition:

1. CSA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);
2. CSA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. CSA must continue to meet the requirements for recognition, including all previously published conditions on CSA's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of CSA, subject to the

limitation and conditions specified above.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that TUV SUD America Inc. (TUVAM) is applying for expansion of its current

recognition as an NRTL. TUVAM requests the addition of one recognized testing and certification site and fifteen test standards to its NRTL scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in Title 29, Code of Federal Regulations, Section 1910.7 (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition, and is not a delegation or grant of government authority. Recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL, including TUVAM, which details the NRTL's scope of recognition. These pages are available from the OSHA Web site at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

Each NRTL's scope of recognition has three elements: (1) The type of products the NRTL may test, with each type specified by its applicable test standard; (2) the recognized site(s) that has/have

the technical capability to perform the product testing and product-certification activities for test standards within the NRTL's scope; and (3) the supplemental program(s) that the NRTL may use. Each of these elements allows the NRTL to rely on other parties to perform activities necessary for product testing and certification.

TUVAM currently has three facilities (sites) recognized by OSHA for product testing and certification, with its headquarters located at: TUD SUD America, Inc., 10 Centennial Drive, Peabody, MA 01960. A complete list of TUVAM sites recognized by OSHA is available at <https://www.osha.gov/dts/otpc/nrtl/tuvam.html>.

II. General Background on the Application

TUVAM submitted an application, dated October 16, 2014 (Exhibit 15-3, Application to Add Test Site and Test Standards, OSHA-2007-0043), to expand its recognition to include the addition of one recognized testing and certification site located at: TUV SUD, 1229 Ringwell Drive, Newmarket, ON, L3Y 8T8, Canada. Additionally, this application seeks to expand its recognition to include fifteen additional test standards. OSHA staff also performed an on-site review of TUVAM's testing facilities in Newmarket, ON Canada on July 14-15, 2015, during which the assessors found some nonconformances with the requirements of 29 CFR 1910.7. TUVAM addressed these issues sufficiently, and OSHA staff preliminarily determined that OSHA should grant the application.

Table 1 below lists the appropriate test standards found in TUVAM's application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN TUVAM'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 2202	Standard for Electric Vehicle (EV) Charging System Equipment.
ANSI Z83.8	Gas Unit Heaters, Gas Utility Heaters and Gas-Fired Duct Furnaces.
ANSI Z21.13	Gas-Fired Low Pressure Steam and Hot Water Boilers.
UL 795	Standard for Commercial-Industrial Gas Heating Equipment.
UL 726	Standard for Oil-Fired Boiler Assemblies.
UL 727	Standard for Oil-Fired Central Furnaces.
ANS Z21.10.3	Gas-Fired Water Heaters—Volume III, Storage Water Heaters With Input Ratings Above 75,000 BTU Per Hour, Circulating and Instantaneous.
UL 484	Standard for Room Air Conditioners.
UL 705	Standard for Power Ventilators.
UL 1812	Standard for Ducted Heat Recovery Ventilators.
UL 1815	Standard for Non-ducted Heat Recovery Ventilators.
UL 412	Standard for Refrigeration Unit Coolers.
UL 1042	Standard for Electric Baseboard Heating Equipment.
UL 1996	Standard for Electric Duct Heaters.
UL 2021	Standard for Fixed and Location-Dedicated Electric Room Heaters.

III. Preliminary Finding on the Application

TUVAM submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file and its detailed on-site assessment indicate that TUVAM can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of one site and fifteen standards for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of TUVAM's application.

OSHA welcomes public comment as to whether TUVAM meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0043.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant TUVAM's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.
