engine replacement. Alion concluded that the Voith propulsion units were paired appropriately (in terms of performance and cost) with the engines manufactured domestically by Caterpillar.

With certain exceptions, FTA’s Buy America requirements prevent FTA from obligating an amount that may be appropriated to carry out its program for a project unless “the steel, iron, and manufactured goods used in the project are produced in the United States.” 49 U.S.C. 5323(f)(1). If, however, FTA determines that “the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality.” then FTA may issue a non-availability waiver. 49 U.S.C. 5323(f)(2)(B); 49 CFR 661.7(c).

FTA also conducted a scouting search through its Interagency Agreement with the U.S. Department of Commerce’s National Institute of Standards and Technology (NIST). The scouting search identified one domestic manufacturer as a potential match for this opportunity, Astro Manufacturing and Design in Ohio. This manufacturer produces a similar item to the Vertical Axis Cycloidal Propeller and possesses the capabilities to produce the propeller. However, the U.S. manufacturer identified does not currently produce the exact propeller that VDOT is seeking, as described in this Notice.

On Tuesday, September 29, 2015, and in accordance with 49 U.S.C. 5323(f)(3)(A), FTA published a notice in the Federal Register announcing the VDOT Buy America waiver request (80 FR 58530), seeking comment from all interested parties, including potential vendors and suppliers. The comment period closed on Thursday, October 29, 2015 and no comments were received. Based on the representations from VDOT, the lack of any comments, and the fact that the NIST supplier scouting search did not identify any domestically made propulsion units utilizing a vertical axis cycloidal propeller, FTA is granting a non-availability waiver for the procurement of Voith Turbo Schneider Propeller GmbH (Voith) 21/ R5 propulsion units described above.

Issued on: December 7, 2015.
Dana Nifosi,
Deputy Chief Counsel.

DEPARTMENT OF TRANSPORTATION
National Highway Traffic Safety Administration
[Docket No. NHTSA–2015–0107; Notice 1]
Notice of Receipt of Petition for Decision That Nonconforming Model Year 2012 Fisker Karma Passenger Cars Are Eligible for Importation
AGENCY: National Highway Traffic Safety Administration, DOT.
ACTION: Receipt of petition.
SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that model year (MY) 2012 Fisker Karma passenger cars (PC) that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards (FMVSS), are eligible for importation into the United States because they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards (the U.S.-certified version of the 2012 Fisker Karma PC) and they are capable of being readily altered to conform to the standards.
DATES: The closing date for comments on the petition is January 11, 2016.
ADDRESSES: Comments should refer to the docket and notice numbers above and be submitted by any of the following methods:
• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the online instructions for submitting comments.
• Mail: Docket Management Facility: U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001
• Hand Delivery or Courier: West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.
• Fax: 202–493–2251.
• Instructions: Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to http://www.regulations.gov, including any personal information provided. Please see the Privacy Act heading below.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT’s complete Privacy Act Statement in the Federal Register published on April 11, 2000 (65 FR 19477–78).

How To Read Comments submitted to the Docket: You may read the comments received by Docket Management at the address and times given above. You may also view the documents from the Internet at http://www.regulations.gov. Follow the online instructions for accessing the dockets. The docket ID number and title of this notice are shown at the heading of this document notice. Please note that even after the comment closing date, we will continue to file relevant information in the Docket as it becomes available. Further, some people may submit late comments. Accordingly, we recommend that you periodically search the Docket for new material.

SUPPLEMENTARY INFORMATION:
Background
Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the Federal Register of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then
publishes this decision in the Federal Register.

Wallace Environmental Testing Laboratories (WETL), Inc. of Houston, Texas (Registered Importer R–90–005) has petitioned NHTSA to decide whether nonconforming 2012 Fisker Karma PC’s are eligible for importation into the United States. The vehicles which WETL believes are substantially similar are MY 2012 Fisker Karma PC’s sold in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified MY 2012 Fisker Karma PC’s to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS. WETL submitted information with its petition intended to demonstrate that non-U.S. certified MY 2012 Fisker Karma PC’s, as originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that the non-U.S.-certified MY 2012 Fisker Karma PC’s, as originally manufactured, conform to: Standard No. 102 Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect, 103 Windshield Defrosting and Defogging Systems, 104 Windshield Wiping and Washing Systems, 105 Hydraulic and Electric Brake Systems, 106 Brake Hoses, 113 Hood Latch System, 114 Theft Protection, 116 Motor Vehicle Brake Fluids, 118 Power-Operated Window, Partition, and Roof panel System, 124 Accelerator Control Systems, 126 Electronic Stability Control Systems, 138 Tire Pressure Monitoring Systems, 201 Occupant Protection in Interior Impact, 202a Head Restraints, 204 Steering Control Rearward Displacement, 205 Glazing Materials, 206 Door Locks and Door Retention Components, 207 Seating Systems, 210 Seat Belt Assembly Anchorage, 212 Windshield Mounting, 214 Side Impact Protection, 216 Roof Crush Resistance, 219 Windshield Zone Intrusion, 225 Child Restraint Anchorage Systems, 301 Fuel System Integrity, 302 Flammability of Interior Materials, and 401 Interior Trunk Release.

The petitioner also contends that the subject non-U.S. certified vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 Controls and Displays: Replacement of the speedometer with U.S. model components and addition of the brake warning indicator to fully comply with the standard.

Standard No. 110 Tire Selection and Rims: Installation of the required tire information placard.

Standard No. 111 Rearview Mirrors: Inscription of the required warning statement on the face of the passenger mirror.

Standard No. 208 Occupant Crash Protection: Replacement of the passenger seat belt assembly, passenger front airbag module, left knee bolster, right knee bolster, and the instrument cluster with U.S. model components.

Standard No. 209 Seat Belt Assemblies: Replacement of the passenger seat belt assembly with U.S. model components.

The petitioner additionally states that a vehicle identification plate must be affixed to the vehicle near the left windshield pillar to meet the requirements of 49 CFR part 565. All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the Federal Register pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B), and (b)(1); 49 CFR 593.7; delegation of authority at 49 CFR 1.95 and 501.8.

Jeffrey M. Giuseppe,
Director, Office of Vehicle Safety Compliance.

BILLING CODE 4910–59–P

DEPARTMENT OF TRANSPORTATION
Surface Transportation Board

CSX Transportation, Inc.—Discontinuance of Service Exemption—in St. Clair and Clinton Counties, Ill.

CSX Transportation, Inc. (CSXT), filed a verified notice of exemption under 49 CFR pt. 1152 subpart F—Exempt Abandonments and Discontinuances of Service to discontinue service over an approximately 23.9-mile rail line on its Southern Region, Nashville Division, Illinois Subdivision between milepost BC 304.00, near Avison, Clinton County, Ill., to milepost BC 327.9, near Caseyville, St. Clair County, Ill. (the Line). The Line traverses United States Postal Service Zip Codes 62232, 62208, 62269, 62254, 62293, and 62216.

CSXT has certified that: (1) No freight traffic has moved over the Line for at least two years; (2) no formal complaint filed by a user of rail service on the Line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the Line either is pending with the Surface Transportation Board or any U.S. District Court or has been decided in favor of a complainant within the two-year period; and (3) the requirements at 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the discontinuance shall be protected under Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho. 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) to subsidize continued rail service has been received, this exemption will become effective on January 9, 2016, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues and formal expressions of intent to file an OFA to subsidize continued rail service under 49 CFR 1152.27(c)(2) must be filed by December 21, 2015. 2 Petitions to reopen must be filed by December 30, 2015, with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423–0001.

A copy of any petition filed with the Board should be sent to CSXT’s representative: Louis E. Gitomer, Law Offices of Louis E. Gitomer, 600 Baltimore Avenue, Suite 301, Towson, MD 21204.

If the verified notice contains false or misleading information, the exemption is void ab initio.

Because there will be an environmental review during an abandonment, this discontinuance does not require an environmental review.

---

1 Each OFA must be accompanied by the filing fee, which is currently set at $1,600. See 49 CFR 1002.2(b)(25).
2 Because this is a discontinuance proceeding and not an abandonment, interim trail use/ail banking and public use conditions are not appropriate.
