consistent with paragraphs (g)(3)(iii)(A) and (B) of this section. No part of any protected species may be retained for personal use by a vessel owner or crew member, or by a first receiver or processing crew member. No part of any protected species may be allowed to reach commercial markets.

(A) *Eulachon and green sturgeon.*

Must be sorted and reported by species on electronic fish tickets and state landing receipts and may not be reported in unspecified categories. Whole body specimens of green sturgeon must be retained, frozen, stored separately by delivery, and labeled with the vessel name, electronic fish ticket number, and date of landing. Arrangements for transferring the specimens must be made by contacting NMFS Southwest Fisheries Science Center at 831–420–3903 within 72 hours after the completion of the offload.

(B) *Seabirds, marine mammals, and sea turtles.*

Albatross must report to NMFS as soon as possible and directions for surrendering or disposing must be followed. Marine mammals and sea turtles must be reported to NMFS as soon as possible (206–526–6550) and directions for surrendering or disposal must be followed. Whole body specimens must labeled with the vessel name, electronic fish ticket number, and date of landing. Whole body specimens must be kept frozen or on ice until arrangements for surrendering or disposing are completed. Unless directed otherwise, after reporting is completed, seabirds, marine mammals, and sea turtles may be disposed by incinerating, rendering, composting, or returning the carcasses to sea.

12. In §660.405, revise paragraph (a) introductory text to read as follows:

§660.405 Prohibitions.

(a) In addition to the general prohibitions specified in §600.725 of this chapter, it is unlawful for any person to do any of the following, except as otherwise authorized under this part:

50 CFR Part 679

[Docket No. 140918791–4999–02]

RIN 0648–XE354

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Central Regulatory Area of the Gulf of Alaska Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; reallocation.

**SUMMARY:** NMFS is reallocating the projected unused amount of Pacific cod from catcher vessels using trawl gear to vessels using pot gear in the Central Regulatory Area of the Gulf of Alaska management area (GOA). This action is necessary to allow the 2015 total allowable catch of Pacific cod in the Central Regulatory Area of the GOA to be harvested.

**DATES:** Effective December 10, 2015, through 2400 hours, Alaska local time (A.l.t.), December 31, 2015.

**FOR FURTHER INFORMATION CONTACT:** Josh Keaton, 907–586–7228.

**SUPPLEMENTARY INFORMATION:**

The 2015 Pacific cod total allowable catch (TAC) specified for catcher vessels using trawl gear in the Central Regulatory Area of the GOA is 18,933 metric tons (mt), as established by the final 2015 and 2016 harvest specifications for groundfish in the GOA (80 FR 10250, February 25, 2015). The Administrator, Alaska Region (Regional Administrator) has determined that catcher vessels using trawl gear in the Central Regulatory Area of the GOA will not be able to harvest 2,000 mt of the 2015 Pacific cod TAC allocated to those vessels under §679.20(a)(12)(i)(B). In accordance with §679.20(a)(12)(ii)(B), the Regional Administrator has also determined that vessels using pot gear in the Central Regulatory Area of the GOA currently have the capacity to harvest this excess allocation and reallocates 2,000 mt to vessels using pot gear.

The harvest specifications for Pacific cod in the Central Regulatory Area of the GOA included in the final 2015 harvest specifications for groundfish in the GOA (80 FR 10250, February 25, 2014) are revised as follows: 16,933 mt for catcher vessels using trawl gear and 14,660 mt for vessels using pot gear.

**Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified from catcher vessels using trawl gear in the Central Regulatory Area of the GOA to vessels using pot.
gear in the Central Regulatory Area of the GOA. Since the fishery is currently ongoing, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December 8, 2015.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Dated: December 9, 2015.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
