[DOT–OST–1999–5129]

Department Regulatory Agenda; Semiannual Summary

AGENCY: Office of the Secretary, DOT.
ACTION: Semiannual regulatory agenda.

SUMMARY: The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the Agenda is to provide the public with information about the Department of Transportation's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. The public is also invited to submit comments on any aspect of this Agenda.

FOR FURTHER INFORMATION CONTACT:**General**

You should direct all comments and inquiries on the Agenda in general to Jonathan Moss, Assistant General Counsel for Regulation, Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590; (202) 366–4723.

Specific

You should direct all comments and inquiries on particular items in the Agenda to the individual listed for the regulation or the general rulemaking contact person for the operating administration in appendix B.

SUPPLEMENTARY INFORMATION:**Background**

Improvement of our regulations is a prime goal of the Department of Transportation (Department or DOT). Our regulations should be clear, simple, timely, fair, reasonable, and necessary. They should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to ensure that they continue to meet the needs for which they originally were designed. To view additional information about the Department's regulatory activities online, go to <http://www.dot.gov/regulations>. Among other things, this Web site provides a report updated monthly on the status of the DOT significant rulemakings listed in the semiannual regulatory agenda.

To help the Department achieve its goals and in accordance with Executive Order (E.O.) 12866, "Regulatory Planning and Review," (58 FR 51735; Oct. 4, 1993) and the Department's Regulatory Policies and Procedures (44 FR 11034; Feb. 26, 1979), the Department prepares a semiannual regulatory agenda. It summarizes all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the next 12 months or for which action has been completed since the last Agenda.

The Agendas are based on reports submitted by the offices initiating the rulemaking and are reviewed by OST.

The Internet is the basic means for disseminating the Unified Agenda. The complete Unified Agenda is available online at www.reginfo.gov in a format that offers users a greatly enhanced ability to obtain information from the Agenda database.

Because publication in the **Federal Register** is mandated for the regulatory flexibility agendas required by the Regulatory Flexibility Act (5 U.S.C. 602), DOT's printed Agenda entries include only:

1. The agency's Agenda preamble;
2. Rules that are in the agency's regulatory flexibility agenda, in accordance with the Regulatory Flexibility Act, because they are likely to have a significant economic impact on a substantial number of small entities; and
3. Any rules that the agency has identified for periodic review under section 610 of the Regulatory Flexibility Act.

Printing of these entries is limited to fields that contain information required by the Regulatory Flexibility Act's Agenda requirements. These elements are: Sequence Number; Title; Section 610 Review, if applicable; Legal Authority; Abstract; Timetable; Regulatory Flexibility Analysis Required; Agency Contact; and Regulation Identifier Number (RIN). Additional information (for detailed list, see section heading "Explanation of Information on the Agenda") on these entries is available in the Unified Agenda published on the Internet.

Significant Rulemakings

The Agenda covers all rules and regulations of the Department. We have classified rules as significant in the Agenda if they are, essentially, very beneficial, controversial, or of substantial public interest under our Regulatory Policies and Procedures. All DOT significant rulemaking documents are subject to review by the Secretary of Transportation. If the Office of Management and Budget (OMB) decided a rule is subject to its review under Executive Order 12866, we have also classified it as significant in the Agenda.

Explanation of Information on the Agenda

An Office of Management and Budget memorandum, dated August 13, 2015, requires the format for this Agenda.

First, the Agenda is divided by initiating offices. Then the Agenda is divided into five categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, (4) long-term actions, and (5) completed actions. For each entry, the Agenda provides the following information: (1) Its "significance"; (2) a short, descriptive title; (3) its legal basis; (4) the related regulatory citation in the Code of Federal Regulations; (5) any legal deadline and, if so, for what action (e.g., NPRM, final rule); (6) an abstract; (7) a timetable, including the earliest expected date for when a rulemaking document may publish; (8) whether the rulemaking will affect small entities and/or levels of Government and, if so, which categories; (9) whether a Regulatory Flexibility Act (RFA) analysis is required (for rules that would have a significant economic impact on a substantial number of small entities); (10) a listing of any analyses an office will prepare or has prepared for the action (with minor exceptions, DOT requires an economic analysis for all its rulemakings); (11) an agency contact office or official who can provide further information; (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the

Agenda and facilitate tracing further action on the issue; (13) whether the action is subject to the Unfunded Mandates Reform Act; (14) whether the action is subject to the Energy Act; and (15) whether the action is major under the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act. If there is information that does not fit in the other categories, it will be included under a separate heading entitled "Additional Information." One such example of this is the letters "SB," "IC," and "SLT." These refer to information used as part of our required reports on Retrospective Review of DOT rulemakings. A "Y" or an "N," for yes and no, respectively, follow the letters to indicate whether or not a particular rulemaking would have effects on: Small businesses (SB); information collections (IC); or State, local, or tribal (SLT) governments.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, we only include the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations; we do not list individual regulations.

In the "Timetable" column, we use abbreviations to indicate the particular documents being considered. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, and NPRM for Notice of Proposed Rulemaking. Listing a future date in this column does not mean we have made a decision to issue a document; it is the earliest date on which a rulemaking document may publish. In addition, these dates are based on current schedules. Information received after the issuance of this Agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (•) preceding an entry indicates that the entry appears in the Agenda for the first time.

Request for Comments

General

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful

information, as well as making the Agenda easier to use. We would like you, the public, to make suggestions or comments on how the Agenda could be further improved.

Reviews

We also seek your suggestions on which of our existing regulations you believe need to be reviewed to determine whether they should be revised or revoked. We particularly draw your attention to the Department's review plan in appendix D. In response to Executive Order 13563 "Retrospective Review and Analysis of Existing Rules," in 2011 we prepared a retrospective review plan providing more detail on the process we use to conduct reviews of existing rules, including changes in response to Executive Order 13563. Any updates related to our retrospective plan and review results can be found at <http://www.dot.gov/regulations>.

Regulatory Flexibility Act

The Department is especially interested in obtaining information on requirements that have a "significant economic impact on a substantial number of small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please submit them to us, along with your explanation of why they should be reviewed.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that we have targeted for review under section 610 of the Act. The phrase (sec. 610 Review) appears at the end of the title for these reviews. Please see appendix D for the Department's section 610 review plans.

Consultation With State, Local, and Tribal Governments

Executive Orders 13132 and 13175 require us to develop an accountable process to ensure "meaningful and timely input" by State, local, and tribal officials in the development of regulatory policies that have federalism or tribal implications. These policies are defined in the Executive orders to include regulations that have "substantial direct effects" on States or Indian tribes, on the relationship between the Federal Government and them, or on the distribution of power and responsibilities between the Federal Government and various levels of Government or Indian tribes. Therefore, we encourage State and local Governments or Indian tribes to provide us with information about how the Department's rulemakings impact them.

Purpose

The Department is publishing this regulatory Agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity and should result in more effective public participation. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the Agenda. Regulatory action, in addition to the items listed, is not precluded.

Dated: October 8, 2015.

Anthony R. Foxx,

Secretary of Transportation.

Appendix A—Instructions for Obtaining Copies of Regulatory Documents

To obtain a copy of a specific regulatory document in the Agenda, you should communicate directly with the contact person listed with the regulation at the address below. We note that most, if not all, such documents, including the Semiannual Regulatory Agenda, are available through the Internet at <http://www.regulations.gov>. See appendix C for more information.

(Name of contact person), (Name of the DOT agency), 1200 New Jersey Avenue SE., Washington, DC 20590. (For the Federal Aviation Administration, substitute the following address: Office of Rulemaking, ARM-1, 800 Independence Avenue SW., Washington, DC 20591).

Appendix B—General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

FAA—Lirio Liu, Director, Office of Rulemaking, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-7833.

FHWA—Jennifer Outhouse, Office of Chief Counsel, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-0761.

FMCSA—Steven J. LaFreniere, Regulatory Ombudsman, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-0596.

NHTSA—Steve Wood, Office of Chief Counsel, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-2992.

FRA—Kathryn Gresham, Office of Chief Counsel, 1200 New Jersey Avenue

SE., Washington, DC 20590; telephone (202) 493-6063.

FTA—Bonnie Graves, Office of Chief Counsel, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-4011.

SLSDC—Carrie Mann Lavigne, Chief Counsel, 180 Andrews Street, Massena, NY 13662; telephone (315) 764-3200.

PHMSA—Karin Christian, Office of Chief Counsel, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-4400.

MARAD—Christine Gurland, Office of Chief Counsel, Maritime Administration, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-5157.

OST—Jonathan Moss, Assistant General Counsel for Regulation, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-4723.

Appendix C—Public Rulemaking Dockets

All comments via the Internet are submitted through the Federal Docket Management System (FDMS) at the following address: <http://www.regulations.gov>. The FDMS allows the public to search, view, download, and comment on all Federal agency rulemaking documents in one central online system. The above referenced Internet address also allows the public to sign up to receive notification when certain documents are placed in the dockets.

The public also may review regulatory dockets at or deliver comments on proposed rulemakings to the Dockets Office at 1200 New Jersey Avenue SE, Room W12-140, Washington, DC 20590, 1-800-647-5527. Working Hours: 9:00 a.m. to 5:00 p.m.

Appendix D—Review Plans for Section 610 and Other Requirements

Part I—The Plan

General

The Department of Transportation has long recognized the importance of regularly reviewing its existing regulations to determine whether they need to be revised or revoked. Our Regulatory Policies and Procedures require such reviews. We also have responsibilities under Executive Order 12866, “Regulatory Planning and Review,” and section 610 of the Regulatory Flexibility Act to conduct such reviews. This includes the use of plain language techniques in new rules and considering its use in existing rules when we have the opportunity and resources to permit its use. We are committed to continuing our reviews of

existing rules and, if it is needed, will initiate rulemaking actions based on these reviews.

In accordance with Executive Order 13563, “Improving Regulation and Regulatory Review,” issued by the President on January 18, 2011, the Department has added other elements to its review plan. The Department has decided to improve its plan by adding special oversight processes within the Department, encouraging effective and timely reviews, including providing additional guidance on particular problems that warrant review, and expanding opportunities for public participation. These new actions are in addition to the other steps described in this appendix.

Section 610 Review Plan

Section 610 requires that we conduct reviews of rules that: (1) Have been published within the last 10 years, and (2) have a “significant economic impact on a substantial number of small entities” (SEIOSNOSE). It also requires that we publish in the **Federal Register** each year a list of any such rules that we will review during the next year. The Office of the Secretary and each of the Department’s Operating Administrations have a 10-year review plan. These reviews comply with section 610 of the Regulatory Flexibility Act.

Changes to the Review Plan

Some reviews may be conducted earlier than scheduled. For example, to the extent resources permit, the plain language reviews will be conducted more quickly. Other events, such as accidents, may result in the need to conduct earlier reviews of some rules. Other factors may also result in the need to make changes; for example, we may make changes in response to public comment on this plan or in response to a presidentially mandated review. If there is any change to the review plan, we will note the change in the following Agenda. For any section 610 review, we will provide the required notice prior to the review.

Part II—The Review Process

The Analysis

Generally, the agencies have divided their rules into 10 different groups and plan to analyze one group each year. For purposes of these reviews, a year will coincide with the fall-to-fall schedule for publication of the Agenda. Thus, Year 1 (2008) begins in the fall of 2008 and ends in the fall of 2009; Year 2 (2009) begins in the fall of 2009 and ends in the fall of 2010, and so on. We

request public comment on the timing of the reviews. For example, is there a reason for scheduling an analysis and review for a particular rule earlier than we have? Any comments concerning the plan or particular analyses should be submitted to the regulatory contacts listed in appendix B, General Rulemaking Contact Persons.

Section 610 Review

The agency will analyze each of the rules in a given year’s group to determine whether any rule has a SEIOSNOSE and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. The level of analysis will, of course, depend on the nature of the rule and its applicability. Publication of agencies’ section 610 analyses listed each fall in this Agenda provides the public with notice and an opportunity to comment consistent with the requirements of the Regulatory Flexibility Act. We request that public comments be submitted to us early in the analysis year concerning the small entity impact of the rules to help us in making our determinations.

In each fall Agenda, the agency will publish the results of the analyses it has completed during the previous year. For rules that had a negative finding on SEIOSNOSE, we will give a short explanation (e.g., “these rules only establish petition processes that have no cost impact” or “these rules do not apply to any small entities”). For parts, subparts, or other discrete sections of rules that do have a SEIOSNOSE, we will announce that we will be conducting a formal section 610 review during the following 12 months. At this stage, we will add an entry to the Agenda in the prerulemaking section describing the review in more detail. We also will seek public comment on how best to lessen the impact of these rules and provide a name or docket to which public comments can be submitted. In some cases, the section 610 review may be part of another unrelated review of the rule. In such a case, we plan to clearly indicate which parts of the review are being conducted under section 610.

Other Reviews

The agency will also examine the specified rules to determine whether any other reasons exist for revising or revoking the rule or for rewriting the rule in plain language. In each fall Agenda, the agency will also publish information on the results of the examinations completed during the previous year.

Part III—List of Pending Section 610 Reviews

The Agenda identifies the pending DOT section 610 Reviews by inserting “(Section 610 Review)” after the title for the specific entry. For further

information on the pending reviews, see the Agenda entries at www.reginfo.gov. For example, to obtain a list of all entries that are in section 610 Reviews under the Regulatory Flexibility Act, a user would select the desired responses

on the search screen (by selecting “advanced search”) and, in effect, generate the desired “index” of reviews.

Office of the Secretary

Section 610 and Other Reviews

Year	Regulations to be reviewed	Analysis year	Review year
1	49 CFR parts 91 through 99 and 14 CFR parts 200 through 212	2008	2009

 14 CFR part 211—Applications for Permits to Foreign Air Carriers
 14 CFR part 212—Charter Rules for U.S. and Foreign Direct Air Carriers

Federal Aviation Administration

Section 610 Review Plan

The FAA has elected to use the two-step, two-year process used by most DOT modes in past plans. As such, the FAA has divided its rules into 10 groups as displayed in the table below. During the first year (the “analysis year”), all rules published during the previous 10 years within a 10% block of the regulations will be analyzed to identify those with a SEIOSNOSE. During the second year (the “review year”), each rule identified in the analysis year as having a SEIONOSE will be reviewed in accordance with Section 610 (b) to determine if it should be continued without change or changed to minimize impact on small entities. Results of those reviews will be published in the DOT Semiannual Regulatory Agenda.

Year	Regulations to be reviewed	Analysis year	Review year
1	14 CFR parts 119 through 129 and parts 150 through 156	2008	2009
2	14 CFR parts 133 through 139 and parts 157 through 169	2009	2010
3	14 CFR parts 141 through 147 and parts 170 through 187	2010	2011
4	14 CFR parts 189 through 198 and parts 1 through 16	2011	2012
5	14 CFR parts 17 through 33	2012	2013
6	14 CFR parts 34 through 39 and parts 400 through 405	2013	2014
7	14 CFR parts 43 through 49 and parts 406 through 415	2014	2015
8	14 CFR parts 60 through 77	2015	2016
9	14 CFR parts 91 through 105	2016	2017
10	14 CFR parts 417 through 460	2017	2018

Year 9 (2016) List of Rules To Be Analyzed During the Next Year

14 CFR part 91—General Operating and Flight Rules
 14 CFR part 93—Special Air Traffic Rules
 14 CFR part 95—IFR Altitudes
 14 CFR part 97—Standard Instrument Procedures
 14 CFR part 99—Security Control of Air Traffic
 14 CFR part 101—Moored Balloons, Kites, Amateur Rockets and Unmanned Free Balloons
 14 CFR part 103—Ultralight Vehicles
 14 CFR part 105—Parachute Operations

14 CFR Part 61—Certification: Pilots, Flight Instructors, and Ground Instructors

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

language review of these rules indicates no need for substantial revision.

14 CFR Part 67—Medical Standards and Certification

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

Year 8 (2015) List of Rules Analyzed and Summary of Results

14 CFR Part 60—Flight Simulation Training Device Initial and Continuing Qualification and Use

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

14 CFR Part 63—Certification: Flight Crewmembers Other Than Pilots

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

14 CFR Part 71—Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

14 CFR Part 65—Certification: Airmen Other than Flight Crewmembers

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain

14 CFR Part 73—Special Use Airspace

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and

impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

14 CFR Part 77—Safe, Efficient Use, and Preservation of the Navigable Airspace

- Section 610: The agency conducted a Section 610 review of this part and found no SEISNOSE.
- General: No changes are needed. These regulations are cost effective and

impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

Federal-Aid Highway Program

The Federal Highway Administration (FHWA) has adopted regulations in title 23 of the CFR, chapter I, related to the Federal-Aid Highway Program. These regulations implement and carry out the provisions of Federal law relating to the administration of Federal aid for highways. The primary law authorizing Federal aid for highway is chapter I of title 23 of the U.S.C. 145 of title 23, expressly provides for a federally assisted State program. For this reason, the regulations adopted by the FHWA in title 23 of the CFR primarily relate to the requirements that States must meet to receive Federal funds for the construction and other work related to highways. Because the regulations in title 23 primarily relate to States, which are not defined as small entities under the Regulatory Flexibility Act, the FHWA believes that its regulations in title 23 do not have a significant economic impact on a substantial number of small entities. The FHWA solicits public comment on this preliminary conclusion.

Year 7 (Fall 2014) List of Rules Analyzed and a Summary of Results

23 CFR Part 710—Right-of-Way and Real Estate

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: An updated rule was promulgated implementing section 1302 of MAP-21 by adding the new authorities for early acquisition of property to part 710, clarifying the Federal-aid eligibility of a broad range of real property interests that constitute less than full fee ownership, streamlining program requirements, clarifying the Federal-State partnership,

and carrying out a comprehensive update of part 710.

23 CFR Part 750—Highway Beautification

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 FR Part 751—Junkyard Control and Acquisition

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 752—Landscape and Roadside Development

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 771—Environmental Impact and Related Procedures

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: An updated rule was promulgated to conform with MAP-21, and proposes additional substantive and nonsubstantive changes to streamline or clarify this part.

23 CFR Part 772—Procedures for Abatement of Highway Traffic Noise and Construction Noise

- Section 610: No SEIOSNOSE. No small entities are affected.

- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 773—Surface Transportation Project Delivery Program Application Requirements and Termination

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 774—Parks, Recreation Areas, Wildlife and Waterfowl Refuges, and Historic Sites (Section 4(f))

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 777—Mitigation of Impacts to Wetlands and Natural Habitat

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 810—Mass Transit and Special Use Highway Projects

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR Part 924—Highway Safety Improvement Program

- Section 610: No SEIOSNOSE. No small entities are affected.
- General: An updated rule was promulgated to incorporate amendments made to the program by section 1112 of MAP–21 and to incorporate necessary changes to align with the safety performance management rulemaking.

Year 6 (Fall 2014) List of Rules Analyzed and a Summary of Results

49 CFR Part 360—Fees for Motor Carrier Registration and Insurance

- Section 610: There is no SEISNOSE. This administrative rule allows FMCSA to collect one-time nominal registration and insurance fees for commercial motor carriers. The fees do not place any significant cost burden on small entities.

- General: FMCSA will integrate plain language techniques to the extent possible as it rewrites various rulemakings to address Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU) and MAP–21 provisions that authorize the replacement of three current identification and registration systems with a single online Federal “Unified Registration System (URS).” The authority to set and collect fees is found in 31 U.S.C. 9701 and 49 U.S.C. 13908.

49 CFR Part 3659—Rules Governing Applications for Operating Authority

- Section 610: There is no SEISNOSE. This administrative rule describes the operating authority application process and does not require extensive time to complete. The rule also allows commercial motor vehicle (CMV) carriers to protest a rejected application for operating authority. Because no entity is obliged to file a protest; and the filing process requires minimal time to complete, we find that the rule does not impose any significant costs upon a significant number of small entities.

- General: FMCSA will integrate plain language techniques as it rewrites

these rulemakings and will integrate this part into 49 CFR part 360 consistent with the Federal “Unified Registration System.” This part is still relevant as it provides carriers with the authority to operate.

49 CFR Part 366—Designation of Process Agent

- Section 610: There is no SEISNOSE. These rules require motor carriers to designate court-related process agents for every State in which they operate to enable the claimant to adjudicate a claim in the jurisdiction where the claim arises. Many small motor carriers contract with organizations which provide a nationwide blanket authority at a reasonable cost.

- General: The process-agent designation is imposed by statute: 49 U.S.C. 13303 and 13304; consequently FMCSA has no discretion regarding costs associated with this rulemaking. FMCSA will integrate plain language techniques as it rewrites these rulemakings and will integrate this part into 49 CFR part 360 consistent with the Federal “Unified Registration System.”

49 CFR Part 368—Application for a Certificate of Registration to Operate in Municipalities in the United States on the United States-Mexico International Border or Within the Commercial Zones of Such Municipalities

- Section 610: There is no SEISNOSE. The issuance of “Certificates of Registration” to Mexican motor carriers of property desiring to operate in the United States commercial border zones applies only to Mexican carriers and

therefore has no cost impact to U.S. small entities.

- General: This rule remains important since the North American Free Trade Agreement has not been fully implemented. The FMCSA will integrate plain language techniques as it rewrites these rulemakings and will integrate this part into 49 CFR part 360, consistent with SAFETEA–LU and the proposed Federal “Unified Registration System.”

49 CFR Part 374—Discrimination in Operations of Interstate Motor Common Carriers of Passengers

- Section 610: There is no SEISNOSE. This regulation is administrative in nature and was transferred to the Department of Transportation upon the enactment of the Interstate Commerce Commission Termination Act (ICCTA) of 1995. This rule prohibits certain forms of discrimination and smoking on interstate motor carriers of passengers, ticketing requirements, and excess baggage requirements regarding commercial travel on Interstate motor carriers of passengers. These rules promote standard business practices that a prudent person should undertake in the proper management of transportation operations consistent with existing laws to include the Americans with Disabilities Act (ADA) and the Civil Rights Amendment. There are no substantial additive costs borne by small entities as a result of this rule.

- General: These regulations are cost effective and impose minimal burden. FMCSA will rewrite the regulations using plain language techniques as resources permit.

49 CFR Part 377—Payment of Transportation Charges

- Section 610: There is no SEISNOSE. The rules and regulations in this part apply to the transportation by motor vehicle of collect on delivery shipments by common carriers of property subject to 49 U.S.C. 13702, and extending credit to shippers. The rules do not constrain business decisions or impose costly fees upon small entities.

- General: These rules support 49 U.S.C. 13702, and require certain carriers to publish tariffs in support of non-contiguous domestic trade. FMCSA will rewrite its regulations using plain language techniques as resources permit.

49 CFR Part 378—Procedures Governing the Processing, Investigation, and Disposition of Overcharge, Duplicate Payment, or Over-Collection Claims

- Section 610: There is no SEISNOSE. These rules involve standard business practices that a prudent carrier should undertake in the proper management of claim disputes even in the absence of the rules. The benefits of the rule justify their costs, and impose only a minimal cost burden on small entities.

- General: These rules support 49 U.S.C. 13301, 14101, 14704, 14705, and 13702(a), which regulate the management of claim disputes. FMCSA will rewrite the regulations using plain language techniques as resources permit.

Year 7 (Fall 2015) List of Rules That Will Be Analyzed During the Next Year

- 49 CFR part 356—Motor Carrier Routing Regulations;
- 49 CFR part 367—Standards for Registration with States;

Year 7 (Fall 2014) List of Rules Analyzed and a Summary of the Results

49 CFR Part 571.111—Rear Visibility

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.113—Hood Latch System

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.114—Theft Protection and Rollaway Prevention

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.116—Motor Vehicle Brake Fluids

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.117—Retreaded Pneumatic Tires

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.118—Power-Operated Window, Partition, and Roof Panel Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.119—New Pneumatic Tires for Motor Vehicles With a GVWR of More Than 4,536 Kilograms (10,000 Pounds) and Motorcycles

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.120—Tire Selection and Rims and Motor Home/Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles With a GVWR of More Than 4,536 Kilograms (10,000 Pounds)

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.121—Air Brake Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain

language review of these rules indicates no need for substantial revision.

49 CFR Part 571.122—Motorcycle Brake Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.122a—Motorcycle Brake Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.123—Motorcycle Controls and Displays

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.124—Accelerator Control Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.125—Warning Devices

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 571.126—Electronic Stability Control Systems

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain

language review of these rules indicates no need for substantial revision.

49 CFR Part 571.129—New Non-pneumatic Tires for Passenger Cars

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 580—Odometer Disclosure Requirements

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 581—Bumper Standard

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 582—Insurance Cost Information Regulation

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 583—Automobile Parts Content Labeling

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 585—Phase-In Reporting Requirements

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain

language review of these rules indicates no need for substantial revision.

49 CFR Part 587—Deformable Barriers

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

49 CFR Part 588—Child Restraint Systems Recordkeeping Requirements

- Section 610: There is no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. NHTSA’s plain language review of these rules indicates no need for substantial revision.

Year 8 (Fall 2015) List of Rules That Will Be Analyzed During the Next Year

Year 7 (Fall 2014) List of Rules Analyzed and a Summary of Results
 49 CFR Part 223—Safety Glazing Standards—Locomotives, Passenger Cars and Caboose

- Section 610: There is no SEIOSNOSE.
- General: The rule provides minimum requirements for glazing materials, and is necessary to protect railroad employees and railroad passengers from injury as a result of objects striking the windows of locomotives, passenger cars and cabooses. Recent amendments with regard to the clarification existing regulations related to the use of glazing materials in the windows of locomotives, passenger cars, and cabooses are expected to reduce paperwork and other economic burdens

on the rail industry by removing a stenciling requirement for locomotives, passenger cars, and cabooses. FRA’s plain language review of this rule indicates no need for substantial revision.

49 CFR Part 233—Signal Systems Reporting Requirements

- Section 610: There is no SEIOSNOSE.
- General: FRA proposed to eliminate the five-year reporting requirement in a notice of proposed rulemaking (NPRM) that was published on June 19, 2013. The final rule eliminated the regulatory requirement that each railroad file a Signal Systems Five-Year Report with FRA which became effective on September 2, 2014. This would reduce paperwork burdens, and protect public

health, welfare, safety and environment. FRA’s plain language review of this rule indicates no need for substantial revision.

6	49 CFR part 622	2013	2014
7	49 CFR part 630	2014	2015
8	49 CFR part 639	2015	2016
9	49 CFR parts 659 and 663	2016	2017
10	49 CFR part 665	2017	2018

Year 7 (Fall 2014) List of Rules Analyzed and Summary of Results
 49 CFR Part 630—National Transit Database

- Section 610: The agency has determined that the rule continues to not have a significant effect on a substantial number of small entities. FTA is proposing to amend the rule to align with the statutory requirement to report performance measures and targets for the National Transit Asset Management System as required under 49 U.S.C. 5326(c)(3). Currently, the NTD reporting requirements are limited, in some instances, to recipients and sub-recipients of section 5307 urban formula funds and 5311 rural formula funds. The proposed reporting requirements would apply to all recipients and sub-recipients of Chapter 53 funds that own, operate, or manage capital assets used in

the provision of public transportation. However, FTA is not proposing to apply all existing NTD reporting requirements to all recipients of chapter 53 funds. FTA has evaluated the likely effects of the proposed rule on small entities and is requesting public comment during the rulemaking process. FTA has determined that the proposed revisions will not have a significant economic impact on a substantial number of small entities.

- General: The rule was promulgated to prescribe requirements and procedures for compliance with Federal data reporting requirements dictated by statute. Recently, Congress included additional reporting requirements for the management of transit asset when it enacted the Moving Ahead for Progress in the 21st Century Act (MAP-21), Public Law 112–141, (2012). FTA is promulgating a notice of proposed

rulemaking to implement specific reporting requirements of the National Asset Management System in accordance with 49 U.S.C. 5326. The proposal includes revising 49 CFR part 630 to apply to all recipients of Federal public transit funds instead of being limited to just recipients of Federal funds under 49 U.S.C. 5307 and 5311. However, the proposed rule will not extend all current reporting requirements to all recipients. This proposal will revise the regulation to be consistent with current statutory requirements.

10	49 CFR parts 173 and 194	2017	2018

Year 7 (Fall 2015) List of Rules Analyzed and a Summary of Results
49 CFR Part 176—Carriage by Vessel
• Section 610: There is no SEIOSNOSE. This rule prescribes

minimum safety standards for the transportation of hazardous materials by vessel. Some small entities may be affected, but the economic impact on small entities will not be significant.

• General: The requirements in this rule are necessary to protect workers and the general public from the dangers associated with incidents involving hazardous materials transported by vessel. These provisions closely align

with international standards for the safe transportation of dangerous goods. PHMSA works in consultation with the United States Coast Guard to promote a harmonized international framework for the vessel transport of hazardous materials through participation in relevant international standards setting bodies including the International Maritime Organization’s Sub-Committee on Carriage of Cargoes and Containers and strives to harmonize domestic regulations with that framework wherever such harmonization provides an acceptable level of safety and is in the public interest. PHMSA’s plain

language review of this rule indicates no need for substantial revision.
 49 CFR Part 199—Drug and Alcohol Testing
 • Section 610: There is no SEIOSNOSE. Based on regulated entities, PHMSA found that the majority of operators are not small businesses. Therefore, though some small entities may be affected, the economic impact on small entities will not be significant.
 • General: No changes are needed. These regulations are cost effective and impose the least burden. PHMSA’s plain language review of this rule indicates no need for substantial revision.

DEPARTMENT OF TRANSPORTATION (DOT)

Office of the Secretary (OST)

Final Rule Stage

336. +Airline Pricing Transparency and Other Consumer Protection Issues

Legal Authority: 49 U.S.C. 41712; 49 U.S.C. 40101; 49 U.S.C. 41702

Abstract: The Department is seeking comment on a number of proposals to enhance protections for air travelers and to improve the air travel environment, including a proposal to clarify and codify the Department’s interpretation of the statutory definition of “ticket agent.” This NPRM would also require airlines and ticket agents to disclose at all points of sale the fees for certain basic ancillary services associated with the air transportation consumers are buying or considering buying. Other proposals in this NPRM to enhance airline passenger protections include: Expanding the pool of “reporting” carriers; requiring enhanced reporting by mainline carriers for their domestic code-share partner operations; requiring large travel agents to adopt minimum customer service standards; codifying the statutory requirement that carriers and ticket agents disclose any code-share arrangements on their Web sites; and prohibiting unfair and deceptive practices such as undisclosed biasing and post-purchase price increases. The Department is also considering whether to require ticket agents to disclose the carriers whose tickets they sell in order to avoid having consumers mistakenly believe they are searching all possible

flight options for a particular city-pair market when in fact there may be other options available. Additionally, this NPRM would correct drafting errors and make minor changes to the Department’s second Enhancing Airline Passenger Protections rule to conform to guidance issued by the Department’s Office of Aviation Enforcement and Proceedings (Enforcement Office) regarding its interpretation of the rule.

342. Changing the Collective Risk Limits for Launches and Reentries and Clarifying the Risk Limit Used To Establish Hazard Areas for Ships and Aircraft

Legal Authority: 51 U.S.C. 50901 to 50923

Abstract: This rulemaking would revise the collective risk limits for commercial launches and reentries. With this rulemaking, the FAA would separate its expected-number-of-casualties limits for launches and reentries. For commercial launches, the FAA would aggregate the expected-number-of-casualties posed by the following hazards: (1) Impacting inert and explosive debris, (2) toxic release, and (3) far field blast overpressure to one times ten to the minus four. This rulemaking would also clarify the regulatory requirements concerning hazard areas for ships and aircraft.

RIN: 2120-AK06

343. Flight Simulation Training Device (FSTD) Qualification Standards for Extended Envelope and Adverse Weather Event Training

Legal Authority: 49 U.S.C. 106(g); 49 U.S.C. 40113; 49 U.S.C. 44701; Pub. L. 111-216

Abstract: This rulemaking would amend evaluation qualifications for simulators to ensure the simulators are technically capable of performing new flight training tasks as identified in the Airline Safety and Federal Aviation Administration Extension Act of 2010 (Pub. L. 111-216) and that are included in a separate rulemaking (2120-AJ00). By ensuring the simulators provide an accurate and realistic simulation, this rulemaking would allow for training on the following tasks: (1) Full/aerodynamic stall, and (2) upset recognition and recovery, as identified in Pub. L. 111-216. Furthermore, this rulemaking would improve the minimum FSTD evaluation requirements for gusting crosswinds (takeoff/landing), engine and airframe icing, and bounced landing recovery methods in response to NTSB and Aviation Rulemaking Committee recommendations. The intended effect is to ensure an adequate level of simulator fidelity.

344. Acceptance Criteria for Portable Oxygen Concentrators Used Onboard Aircraft (RRR)

Legal Authority: 49 U.S.C. 106(f); 49 U.S.C. 106(g); 49 U.S.C. 1155; 49 U.S.C. 40103; 49 U.S.C. 40105; 49 U.S.C. 40109; 49 U.S.C. 40113; 49 U.S.C. 40119; 49 U.S.C. 40120; 49 U.S.C. 41706; 49 U.S.C. 44101; 49 U.S.C. 44110; 49 U.S.C. 44111; 49 U.S.C. 44502; 49 U.S.C. 44701; 49 U.S.C. 44702; 49 U.S.C. 44704; 49 U.S.C. 44705; 49 U.S.C. 44709 to 44713; 49 U.S.C. 44715 to 44717; 49 U.S.C. 44722;

49 U.S.C. 45101 to 45105; 49 U.S.C. 46102; 49 U.S.C. 46105; 49 U.S.C. 46306; 49 U.S.C. 46315; 49 U.S.C. 46316; 49 U.S.C. 46504; 49 U.S.C. 46506; 49 U.S.C. 46507; 49 U.S.C. 47122; 49 U.S.C. 47508; 49 U.S.C. 47528 to 47531; 61 Stat. 1180—articles 12 and 29

Abstract: This rulemaking would establish FAA acceptance criteria for portable oxygen concentrators (POC) used by passengers in air carrier operations, commercial operations, and certain other operations using large aircraft. To identify POCs that satisfy the FAA acceptance criteria, POC manufacturers will affix a label on the exterior of the device. With the establishment of POC acceptance criteria, the FAA will discontinue the use of Special Federal Aviation Regulation (SFAR) No. 106 (“the SFAR”), removing it from title 14, of the Code of Federal Regulations (14 CFR) parts 121, 125, and 135. POCs currently identified in the SFAR will continue to be identified in the regulatory text of the final rule as approved for use on aircraft and will not require a label prior to use.

345. Reciprocal Waivers of Claims for Licensed or Permitted Launch and Reentry Activities (RRR)

Legal Authority: 49 U.S.C. 322; 51 U.S.C. 50910 to 50923

Abstract: This rulemaking would extend the waiver of claims for all the customers involved in a launch or reentry, amend the requirement describing which entities are required to sign the statutorily-mandated waiver of claims, and add a new waiver template for the customer’s use. This rulemaking would ease the administrative burden on the customers, licensees, permittees, and the FAA, especially when a new customer is added only a short time before the scheduled launch or reentry.

Abstract: This action amends Special Federal Aviation Regulation (SFAR) No. 77, section 91.1605, Prohibition Against Certain Flights Within the Territory and Airspace of Iraq, which prohibits certain flight operations in the territory and airspace of Iraq by all United States (U.S.) air carriers, U.S. commercial operators, persons exercising the privileges of a U.S. airman certificate, except when such persons are operating a U.S. registered civil aircraft for a foreign air carrier, and operators of U.S. registered civil aircraft, except when such operators are foreign air carriers. On August 8, 2014, the FAA issued a Notice-to-Airmen (NOTAM) prohibiting flight operations in the ORBB FIR at all altitudes, subject to certain limited exceptions, due to the armed conflict in Iraq. This amendment to SFAR No. 77, section 91.1605, incorporates the flight prohibition set forth in the August 8, 2014, NOTAM into the rule. The FAA is also making technical corrections to a previously published amendment to SFAR No. 77, section 91.1605, revising the approval process for this SFAR for other U.S. Government departments, agencies, and instrumentalities, to make it more similar to the approval process for other recently published flight prohibition SFARs, and adding an expiration date.

352. +Lease and Interchange of Vehicles; Motor Carriers of Passengers

Legal Authority: 49 U.S.C. 13301; 49 U.S.C. 31136; 49 U.S.C. 31502

Abstract: This rule would adopt regulations governing the lease and interchange of passenger-carrying commercial motor vehicles (CMVs) to: (1) Identify the motor carrier operating a passenger-carrying CMV and responsible for compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and all other applicable Federal regulations; and (2) ensure that a lessor surrenders control of the CMV for the full term of the lease or temporary exchange of CMVs and drivers. This action is necessary to ensure that unsafe passenger carriers cannot evade FMCSA oversight and enforcement by operating under the authority of another carrier that exercises no actual control over those operations. This action will enable the FMCSA, the National Transportation Safety Board (NTSB), and our Federal and State partners to identify motor carriers transporting passengers in interstate commerce and correctly assign responsibility to these entities for regulatory violations during inspections, compliance investigations, and crash studies. It also would provide the general public with the means to identify the responsible motor carrier at the time of transportation. While

detailed lease and interchange regulations for cargo-carrying vehicles have been in effect since 1950, this final rule for passenger-carrying CMVs is focused entirely on operational safety.

DEPARTMENT OF TRANSPORTATION (DOT)

Federal Railroad Administration (FRA)

Proposed Rule Stage

353. +Passenger Equipment Safety Standards Amendments

Legal Authority: 49 U.S.C. 20103
Abstract: This rulemaking would amend 49 CFR part 238 to update existing safety standards for passenger rail equipment. Specifically, the proposed rulemaking would add standards for alternative compliance with requirements for Tier I passenger equipment, increase the maximum authorized speed for Tier II passenger equipment, and add requirements for a new Tier III category of passenger equipment.

RIN: 2130-AC46

354. +Train Crew Staffing and Location

Legal Authority: 28 U.S.C. 2461, note; 49 CFR 1.89; 49 U.S.C. 20103; 49 U.S.C.

20107; 49 U.S.C. 21301 and 21302; 49 U.S.C. 21304

Abstract: This rulemaking would add minimum requirements for the size of different train crew staffs depending on the type of operation. The minimum crew staffing requirements would reflect the safety risks posed to railroad employees, the general public, and the environment. This rulemaking would also establish minimum requirements for the roles and responsibilities of the second train crew member on a moving train, and promote safe and effective teamwork. Additionally, this rulemaking would permit a railroad to submit information to FRA and seek approval if it wants to continue an existing operation with a one-person train crew or start up an operation with less than two crew members.

356. +Pipeline Safety: Amendments to Parts 192 and 195 To Require Valve Installation and Minimum Rupture Detection Standards

Legal Authority: 49 U.S.C. 60101 et seq. et seq.

Abstract: This rule would propose installation of automatic shutoff valves, remote controlled valves, or equivalent technology and establish performance based meaningful metrics for rupture detection for gas and liquid transmission pipelines. The overall intent is that rupture detection metrics

will be integrated with ASV and RCV placement with the objective of improving overall incident response. Rupture response metrics would focus on mitigating large, unsafe, uncontrolled release events that have a greater potential consequence. The areas proposed to be covered include High Consequence Areas (HCA) for hazardous liquids and HCA, Class 3 and 4 for natural gas (including could affect areas).

360. +Hazardous Materials: Enhanced Tank Car Standards and Operational Controls for High-Hazard Flammable Trains

Legal Authority: 49 U.S.C. 5101 et seq.

Abstract: This rulemaking would amend operational requirements for certain trains transporting a large volume of flammable materials, provide improvements in tank car standards, and revise the general requirements for

offerors to ensure proper classification and characterization of mined gases and liquids. These new requirements are designed to lessen the consequences of derailments involving ethanol, crude oil, and certain trains transporting a large volume of flammable materials. The growing reliance on trains to transport large volumes of flammable materials poses a significant risk to life, property, and the environment. The proposed changes also address National Transportation Safety Board (NTSB) recommendations on accurate classification, enhanced tank cars, rail routing, oversight, and adequate response capabilities.
